

Associate in Science Track 2 MRP

Mechanical/Civil/Aeronautical/ Industrial/ Materials Science/ Pre-Engineering (Other Engineering) 110 Credits

This Associate in Science-Transfer degree program is applicable to students planning to prepare for various engineering majors at universities in Washington.

Students completing the AS-T, Track 2 degrees will, if admitted to the university, be admitted as juniors with all or most prerequisites for the specific engineering major completed (depending on choices made among engineering electives) and with lower division general education courses partially completed in a manner similar to the partial completion by freshmen-entry engineering students. Note that engineering programs are competitive and may require a higher GPA overall or a higher GPA in specific courses. Baccalaureate institutions will apply up to 110 quarter credits required under this agreement to the credits required in the bachelor's degree, subject to institutional policy on the transfer of lower division credits. AS-T Degree students should, however, maintain careful contact with an advisor at the potential transfer institution in regard to choice in engineering classes.

Upon successful completion of this degree a student will be able to:

- understand patterns and make connections among different disciplines and schools of knowledge and to integrate studies with personal experience
- learn actively and gain comprehensive understanding; to think critically, creatively, and reflectively in order to solve problems; to communicate with clarity and originality for personal growth and productive work; and to interact in diverse and complex environments and complicated, dynamic, and ambiguous situations
- demonstrate a solid foundation for baccalaureate science studies through the completion of an appropriate range of courses in the sciences and liberal arts

Completion Requirements

The Associate in Science-Transfer Track 2 Engineering degree requires at least 90 credit hours in college level courses (numbered 100 or above), a minimum cumulative 2.0 grade point average, a minimum of 25 credits in residence at Cascadia, and completion of all of the requirements for this degree. Students must complete and submit an application for graduation to Enrollment Services for review and approval before the degree is granted.

GENERAL EDUCATION CORE REQUIREMENTS 45 CREDITS

Foundations for College Success

Must be completed within first 30 credits.

Students are also required to take an additional CKR designated course. This CKR designated course may also be used to satisfy either the Humanities or Social Science Distribution requirement below.					

HUMANITIES / SOCIAL SCIENCES DISTRIBUTION REQUIREMENT 10 CREDITS

Students must complete courses from at least two different disciplines. No more than five credits may be included from those courses designated **HP** as performance/skills, applied theory or lecture/studio courses. Only one course of a world language at the 100 level may be included. Economics is recommended.
