- a. Laura Heddal → Laura Heddal from IT, (Informational Technologies) came in to share about CD disks that had Software installed such as Microsoft Office, and is seeking to discontinue those discs as both the software and use of disks is becoming outdated. People can now use Office 365, and download the suite for free on up to 5 devices. A lot of questions came up when requested budgeting for the purchase of the license and disks, many think it is unnecessary. These disks have not been selling, potentially 5 – 10 a year. Have to buy in bulk of 50, extra disks get discarded, and thrown out without reimbursement.
