Welcome!

Think critically, learn actively, interact in diverse environments, and communicate with clarity. Those are Cascadia’s four learning outcomes driven by our mission to be a collaborative, learner-centered college. Every class is designed to embrace those learning outcomes and exposes students to small group work where projects, presentations, and teaching others are key components.

Whether you’re coming back to college after a break, heading to college out of high school, or simply exploring new fields, you’ll be exposed to a truly different kind of learning atmosphere at Cascadia.

Cascadia is a young, vibrant college. Its progressive faculty helps students learn that all disciplines relate to each other. Students will see themes discussed across all classes, like global awareness, social justice, or environmental sustainability. Students will be taught on the newest, most dynamic campus in the community college system. And, students will have exposure to our partners, the University of Washington Bothell, on our co-located campus. Cascadia has one of the highest transfer rates in the state for these very reasons.

We are committed to helping you reach your educational goals and hope you’ll use this catalog to help guide your way. If you’re in need of help, reach out to one of the staff or faculty. We’re here to help you succeed!

Sincerely,

Eric W. Murray, Ph.D.
President, Cascadia College
Vision  Every individual is supported and engaged in lifelong learning.

Mission  
Transforming lives through integrated education in a learning-centered community.

Our Values  
a caring community  
pluralism & cultural richness  
collaboration  
access  
success  
innovation  
environmental sustainability  
global awareness  
responsiveness  
creativity

2015-16 ACADEMIC CALENDAR

SUMMER QUARTER 2016

June 9  Last Day of Spring Quarter
June 9  Commencement
ACCREDITATION
Cascadia College is accredited by the Northwest Commission on Colleges and Universities. Accreditation of an institution of higher education by the Northwest Commission on Colleges and Universities indicates that it meets or exceeds criteria for the assessment of institutional quality evaluated through a peer review process. An accredited college or university is one which has available the necessary resources to achieve its stated purpose through appropriate educational programs, is substantially doing so, and gives reasonable evidence that it will continue to do so in the foreseeable future. Institutional integrity is also addressed through accreditation.

Accreditation by the Northwest Commission on Colleges and Universities is not partial but applies to the institution as a whole. As such, it is not a guarantee of every course or program offered, or the competence of individual graduates. Rather, it provides reasonable assurance about the quality of opportunities available to students who attend the institution.

Inquiries regarding an institution’s accreditation status by the Northwest Commission on Colleges and Universities should be directed to the administrative staff of the institution.

Individuals may also contact:
Northwest Commission on Colleges and Universities
8060 165th Avenue N.E, Suite 100
Redmond, WA 98052
425.558.4224
www.nwccu.org

Accreditation by the Northwest Commission on Colleges and Universities refers to the institution as a whole. Therefore, statements like “fully accredited” or “this program is accredited by the Northwest Commission on Colleges and Universities” or “this degree is accredited by the Northwest Commission on Colleges and Universities” are incorrect and should not be used.

EQUAL OPPORTUNITY
ANTI-DISCRIMINATION
Cascadia is committed to creating a supportive environment for a diverse student, faculty, and staff population. Individual differences are celebrated in a pluralistic community of learners. Cascadia does not discriminate on the basis of race, color, religion, gender and/or sex, sexual orientation, national origin, citizenship status, age, marital or veteran status, or the presence of any sensory, mental or physical disability, or genetic information, and is prohibited from discrimination in such a manner by college policy and state and federal law. The following office has been designated to handle inquiries regarding non-discrimination policies and can direct inquiries to the appropriate office for ADA-related requests:

Director of Human Resources
Cascadia College
18345 Campus Way NE, CC2-280
Bothell, WA 98011
425.352.8880

TITLE IX
Title IX of the education Amendments of 1972 prohibits discrimination on the basis of sex in education programs or activities that receive Federal financial assistance. In compliance with Title IX, Cascadia is committed to providing an educational environment free from sexual harassment, including acts of sexual violence or sexual assault. The College is equally committed to ensuring that those who raise complaints or participate in the investigation and resolution of complaints are free from retaliation. To raise a complaint or voice a concern with Cascadia’s compliance with Title IX, contact:

Director of Human Resources
Cascadia College
18345 Campus Way NE, CC2-280
Bothell, WA 98011
425.352.8880
CATALOG 2016-17

A COMPREHENSIVE COLLEGE COMMUNITY

Cascadia is a public community college offering two-year degrees for transfer to universities, a Bachelor of Applied Science in Sustainable Practices, certificate programs, basic education, and ESL for adults, and a broad range of non-credit courses and professional training. The college also conducts business-specific customized contract education and skill-training.

Cascadia is located along Beardslee Boulevard in Bothell, Washington at the intersection of I-405 and SR-522. Co-located with the University of Washington Bothell, the campus location was planned to serve the fast-growing area of northeast King and south Snohomish Counties. Fifty-eight acres on the campus are under long-term restoration to high-functioning wetlands. A paved trail with educational signage borders the wetlands and is open to the public. The campus design has won the highest prize awarded by the American Institute of Architects for “drawing together the learning community and protecting their communal experience while retaining its connection to the world outside.”

Cascadia’s legislatively assigned service district includes the cities of Bothell, Woodinville, Kirkland, Kenmore, Duvall, Carnation, Sammamish, Redmond, and many smaller communities.

OUR LEARNING ENVIRONMENT

Cascadia has offered students an integrated education since we opened our doors in 2000. We invite students to connect disciplinary and interdisciplinary ideas to complex contexts, build knowledge across the curriculum and co-curriculum, and apply this education to situations on and off campus. Simply put, Cascadia’s teaching and learning model recognizes that a quality college education goes far beyond the boundaries of the traditional curriculum and classroom boundaries.

These are some of the academic opportunities you can look forward to as a student at Cascadia:

INTERDISCIPLINARY PROJECTS

Disciplines such as math, history, and science are rarely discrete in the real world. The types of problems that employees in today’s workforce are tasked with solving are usually best approached by connecting skills and contexts. Cascadia instructors design assignments that allow students from different disciplines to work collaboratively. For instance, information technology students have worked with art students to produce an installation that combined programmed light sequences with illustrations. History students have worked with English students to research state songs and then update them to reflect more appropriately the era in which we live.

LEARNING COMMUNITIES

A learning community is 10-credit course that pairs two instructors from two different disciplines to team-teach a blended class. For instance, a course might combine 5 credits of English and 5 credits of Geology as they explore environmental issues through reading, writing, and the sciences. Learning communities generally provoke rich discussions, and encourage students to delve much deeper into topics by synthesizing knowledge, identifying patterns, and making connections.

COMMUNITY-BASED LEARNING, INTERNSHIPS, AND STUDY ABROAD

Experiential learning opportunities allow students to take what they have learned in the classroom and apply it to real-life situations. Some students might be involved in a community poetry reading, while others will find themselves assisting middle school students with math concepts or practicing a new language in a study abroad program.

GROUP WORK

Throughout Cascadia, you’ll find classes that require you to work in small groups. Group assignments are designed to help you learn to communicate, solve problems, make decisions, and interact with a diversity of people and viewpoints. Employers across all industries agree such skills are critical in today’s complex, interdependent, and increasingly international workplace.

FAQ’S

When is spring break? 4
What degrees and certificates are offered? 10-11
What courses are available? 52-86
How do I apply to Cascadia College? 86
How do I transfer credits from another college? 87
Can high school students attend Cascadia? 87-88
How do I decide which classes to take? 89
How can I make an advising appointment? 89
Where can I find job information? 89
How do I register for classes? 89-90
How much does it cost to take classes? 91-92
Is help available to pay for tuition? 95-98
How do I graduate? 102
PROGRAM REQUIREMENTS

THE GENERAL EDUCATION CORE

General education is the cornerstone of every degree program at Cascadia. In general education courses, students acquire a set of skills that will enable them to access, process, construct, and express knowledge across cultures. Completing the general education core at Cascadia requires a willingness to take risks, an interest in growing and adopting new, more refined points of view, and an awareness of a global context for ideas and facts. General education classes provide learning experiences in which students take responsibility for encountering and mastering new knowledge and practices and growing into active, lifelong learners who are prepared for whatever challenges come next.

FOUNDATIONS FOR COLLEGE SUCCESS

College Success introduces students to Cascadia’s learning model, helps them to take ownership of their education and sets them up for academic success. In College Success, each student participates in a group project, completes a guided research project in the university library, writes a tentative educational plan, and practices using a course website to complete assignments and interacts with an instructor and other students. All Cascadia students who complete Foundations for College Success have a minimum of 35 credits of guided practice in achieving the following outcomes.

Learn: Learners will demonstrate that they can find and use a variety of academic resources (including eLearning and library resources) at Cascadia. They will demonstrate ownership of their education and develop an academic plan.

Think: Learners will demonstrate basic information literacy skills and knowledge of particular ways of knowing and reasoning in the different academic disciplines.

Communicate: Learners will demonstrate flexibility in recognizing and expressing concepts in appropriate formats and they will be able to explain how they arrived at their conclusions.

Interact: Learners will demonstrate the ability to effectively collaborate in group activities.

COMMUNICATION

Every degree at Cascadia is grounded in a set of core courses that emphasize communicating and critical thinking. In the composition sequence of the General Education Core Distribution, learners have a chance to become aware of the ways that culture informs, enriches, and at times limits learning and growth. Students practice argument, problem solving, analysis, and synthesis while they encounter and try out points of view from across the globe and reflect on their own points of view. All Cascadia students who complete the composition sequence have a minimum of 10 credits of guided practice in achieving the following outcomes.

Learn: Learners will become familiar with writing and reading processes and develop a personal process that helps them create successful texts; demonstrate a willingness to take risks and to deepen knowledge about self, others, and the world as it relates to writing and its process; learn to construct meaning from expanding and conflicting information; and meet deadlines and seek help when necessary.

Think: Learners will use a variety of conceptual and theoretical lenses and reflect on how these lenses provide alternative views of the experience and points of view of self, individuals, and groups; critically reflect on their own attitudes, values, behavior, and assumptions as well as those presented to them; and translate content between contexts with an awareness of the impact of different points of view and mediums.

Communicate: Learners will gather information and draft and publish texts that demonstrate inquiry into critical and creative thinking and an awareness of criteria for clear, original communication; communicate interpretations of data and claims and articulate rationales for making decisions about responsible action in the context of community issues and problems; and use technology and methods of discourse as learning tools.

Interact: Learners will share ideas, experiences, and self-assessment processes and listen to those of others; engage in collaborative peer review processes that will reflect their understanding of their experiences, composition practice, and self-assessment; and recognize conflict as a necessary part of discourse and respect individual ways of arriving at answers while critically analyzing models and ways of thinking.
PROGRAM REQUIREMENTS (CONTINUED)

CULTURAL KNOWLEDGE
The Cascadia Mission and College outcomes point to the importance of being globally aware citizens. In part, being globally aware necessitates awareness and knowledge of how systems of power, privilege, and inequality are created, maintained, and changed as well as how these systems impact both cultural and personal identity and development. Learning about these systems enable students to interact with civility, empathy, and honesty. To this end, the College has established this outcome. All Cascadia students who complete the Cultural Knowledge Requirement have a minimum of 5 credits of guided practice in achieving the following outcomes.

Learn: Students will demonstrate interdisciplinary knowledge of the local, national, and/or global experience of communities framed by intersections between class, race, gender, religion, national origin, sexual orientation, and other identities.

Think: Learners will use a variety of conceptual and theoretical approaches to think critically about and reflect on their own underlying assumptions and consider alternative views of power and inequality regarding such topics as sexuality, ethnicity, gender, and religion.

Communicate: Learners will discuss multiple interpretations of course content as it relates to structures of power and inequality using discipline-appropriate concepts and theories, and will articulate how and why these structures inform their personal, professional, and social identities.

Interact: Learners will engage with complex differences between and among their own cultures and others as manifested through social inequities. As part of this practice, students will recognize and articulate their understanding of diverse perspectives.

QUANTITATIVE OR SYMBOLIC REASONING
The ability to quantitatively and symbolically reason is critical in an ever-increasing complex society. In turn, the General Education Core provides students practice in problem solving and critical thinking using multiple approaches to draw conclusions while communicating their results and interacting with others. All Cascadia students who complete Quantitative or Symbolic Reasoning have a minimum of 5 credits of guided practice in achieving the following outcomes.

Learn: Learners will apply problem solving and mathematical modeling to real situations and take responsibility for accessing and using a variety of sources in learning about mathematics.

Think: Learners will analyze and interpret data or evidence to correctly solve problems through the construction of clear, well-supported arguments that lead to valid conclusions supported by appropriate symbolic reasoning and mathematical models.

Communicate: Learners will interpret complex problems and illustrate solutions using mathematical symbols and formulas that justify mathematical conclusions expressed in written or oral form.

Interact: Learners will engage with complex differences between and among their own cultures and others as manifested through social inequities. As part of this practice, students will recognize and articulate their understanding of diverse perspectives.

HUMANITIES
Languages, literature, the arts, and philosophy are essential cultural expressions of being human. Underlying these subjects are ideas such as aesthetics, ethics, symbolism, and creativity that vary across times and cultures. Through the humanities, learners participate in others’ subjective experience of reality and convey their own.

Learn: Learners will acquire, create, demonstrate and apply knowledge by investigating and synthesizing ideas, themes and processes within and related to Humanities disciplines to realize themselves as imaginative risk-takers, problem-solvers, global citizens and autonomous life-long learners.

Think: Learners will refine knowledge through analysis, evaluation, experimentation, and innovation, working with ideas and artifacts that already exist and bringing new ideas and artifacts into existence to enrich our understanding of humanity.

Communicate: Learners will consider their own and others’ perspectives and contexts, recognize formal and informal conventions of disciplines, genres, and cultures, seek original thoughts, and articulate knowledge via their own messages.

Interact: Learners will respectfully engage viewpoints, interpretations, and sources that embody global diversity, creating a community of inquiry that values ambiguity to expand our collective knowledge of the human experience in all its forms.
OUR LEARNING ENVIRONMENT

NATURAL SCIENCES
Science literacy provides a foundation for informed citizenship in our increasingly technological society. Learners practice, communicate, and apply science in order to understand the natural and physical world and the consequences of human activity within it.

Learn: Learners will employ scientific approaches to explain natural phenomena; they will generate knowledge by making and assessing controlled observations, formulating testable predictions, and evaluating verifiable data.

Think: Learners will use components of the scientific method to generate and modify hypotheses through critical analysis of data and information; they will evaluate known and needed information as a process in problem-solving; they will assess and respond to current global issues in the context of evidence-based conclusions.

Communicate: Learners will articulate scientific concepts clearly and correctly through a variety of media (oral, written, visual, and graphical); learners will concisely organize and present evidence and data; learners will actively listen and respond to communication with peers and instructors in a respectful manner.

Interact: Learners will work responsibly and effectively in groups to accomplish tasks, analyze data, and solve problems; they will engage with their peers to use multiple perspectives to explain scientific applications; they will connect learning and their interactions with the natural world; they will evaluate the global, environmental, and human contexts of scientific concepts.

SOCIAL SCIENCES
The social sciences expand learners’ understanding of the nature and behavior of individuals as well as their interaction and organization in multiple cultural contexts.

Learn: Learners will engage in experiential activities to acquire, construct, demonstrate and apply social scientific knowledge in a variety of contexts; they will complete required work and identify opportunities to expand knowledge, skills, and abilities.

Think: Learners will acknowledge the complexities of specific social issues and analyze underlying assumptions and multiple perspectives on those issues. They will identify and evaluate evidence to draw conclusions about human behavior; they will distinguish between social scientific and other ways of knowing; and they will combine or synthesize course material in original and exploratory ways to apply that information to hypothetical or real world situations.

Communicate: Learners will use oral and written communication to raise and explore important questions in the social sciences; learners will use disciplinary knowledge, texts, technology, and language to gather, process, present, and reference information.

Interact: Learners will demonstrate the ability to work collaboratively in groups and translate those skills to interactions with others; they will identify ways in which disciplinary, ethical, and professional standards shape social scientists’ interactions with society; they will identify and reflect on differences between individuals, groups, communities, or societies and how those differences shape interactions, perspectives, and outcomes.

EDUCATIONAL AND CAREER PATHWAYS

What program is right for me?

- A student who wants to get a Bachelor of Arts Degree should start with an Associate in Integrated Studies (AIS) Degree.
- A student who wants to earn a Bachelor of Science Degree should obtain an Associate in Science Degree in either Track 1 or Track 2.
- A student interested in a college transfer AIS degree could simultaneously pursue a short technical certificate. While earning elective credit, they could gain employable skills in a high-demand field and attain gainful employment while continuing toward their longer term goal.
- A student wishing to concentrate on skills leading directly to employment but with some transfer options should consider an AAS-T degree.
- A student wishing to concentrate on skills leading directly to employment while also earning a bachelor's degree should consider a Bachelor of Applied Science degree. The Bachelor of Applied Science degree is also an appropriate pathway to some master and doctoral degrees.
- A student wishing to prepare for work in the shortest time possible should consider a certificate.
DEGREE PROGRAMS

ACADEMIC TRANSFER DEGREES
An associate degree prepares you for employment or for transfer to a 4-year college. To receive an associate degree you must complete 90-105 credits (2 years of full-time study), complete at least 25 of your degree credits at Cascadia, and receive a grade point average (GPA) of at least 2.0 in all courses that apply to your degree, including courses at other colleges.

If you plan to apply for transfer to a 4-year college, contact the admissions office and an academic advisor in your chosen major at that college to confirm admission requirements. You do not need to complete a degree at Cascadia to be eligible to transfer to a 4-year college.

Degrees which have the DTA (Direct Transfer Agreement) indicator are designed to allow you to transfer degree credits to most public 4-year colleges in Washington. Degrees which have the MRP (Major-Related Programs) take the DTA one step further by specifying the prerequisite coursework that will provide the best preparation for entry into certain competitive majors.

For complete information on degree requirements, please see the degree listings on the website.

- Associate in Business (DTA/MRP)
- Associate in Integrated Studies (DTA)
- Associate in Integrated Studies - Global Studies Degree (DTA)
- Associate in Pre-Nursing Degree (DTA/MRP)
- Associate in Science-Transfer Track 1
- Associate in Science-Transfer Track 2
- AS-T Track 2 Engineering MRP – Bioengineering and Chemical Engineering
- AS-T Track 2 Engineering MRP – Computer and Electrical Engineering
- AS-T Track 2 Engineering MRP – Mechanical, Civil, Aeronautical and Material Science Engineering

PROFESSIONAL TECHNICAL TRANSFER DEGREES: ASSOCIATE IN APPLIED SCIENCE
An associate in applied science (AAS-T) degree prepares you for employment or for further college study. The AAS-T degrees include collegiate math, English, and human relations courses that prepare you for transfer to a 4-year college. All AAS-T degrees require you to complete 90-105 credits, or 2 years of full-time study.

For complete information on degree requirements, please see the individual degree listings.

Five degrees are available:
- Environmental Technologies and Sustainable Practices
- Networking Infrastructure Technology
- Web Application Programming Technology – Mobile Emphasis
- Web Applications Programming Technology-Programming Emphasis
- Web Applications Programming Technology - Web Emphasis

BACHELOR OF APPLIED SCIENCE DEGREE
COMPLETE YOUR BACHELOR’S DEGREE AT CASCADIA
Students can build upon their already valuable two-year degrees by completing their Bachelor of Applied Science right here at Cascadia. The Bachelor of Applied Science (BAS) is a baccalaureate degree with a major in a technical field that has substantial applied content. Applied bachelor’s degrees arguably offer the best of both worlds: hands-on training in a career embedded within a four-year degree. Employers seek graduates because they have technical expertise combined with communication, computation, critical thinking and people-management skills.

Cascadia’s Bachelor of Applied Science Degree in Sustainable Practices is intentionally designed to prepare students as sustainability professionals who can build resilience and implement meaningful change in response to complex environmental, economic and social problems. The BAS in Sustainable Practices is intended for students who have completed an associate degree in a related subject or meet the distribution requirements through prior college coursework. It is designed as a full-time program to be completed in six quarters. A small cohort of students will work closely with faculty and a dedicated program advisor to complete 90 credits of upper division coursework. Part-time and evening class options are available.

For more information about the BAS in Sustainable Practices, check the BAS program website or contact the program’s dedicated advisor, Jodie Galvan, by email at jgalvan@cascadia.edu and by phone at 425.352.8215.
CERTIFICATE PROGRAMS

PROFESSIONAL TECHNICAL CERTIFICATES
A professional technical certificate gives you the knowledge and skills you need for a specific job. All certificate programs take less than 2 years to complete. They are coordinated with Cascadia’s professional technical degrees and associate degrees to make it simple to continue your education if or when you choose.

For Gainful Employment information on these certificates please visit our website.
- Applications Infrastructure Engineer
- Server Administrator
- Virtualization Engineer

ADDITIONAL PROGRAMS

TRAINING FOR LOCAL BUSINESSES
Cascadia’s Continuing Education Business Training can design and deliver training specifically built to meet the needs of individual companies and their employees. Custom built training is available at the college or at employer worksites with flexible, employer-driven schedules. For details, please contact the Corporate and Continuing Education Center.

CONTINUING EDUCATION
Cascadia offers a large variety of certificate classes for professional development as well as non-credit classes for personal enrichment.

Teacher certification clock hour credits for maintaining teacher certification with the Washington State Superintendent of Public Instruction are available for many continuing education courses for a minimal administrative fee.

Customized contract training can be designed and delivered to meet the specific needs of local companies and their employees. These classes are taught on our Bothell campus through our partnership with the Corporate & Continuing Education Center at Everett Community College. Every quarter more than 70 day, evening, or online classes are offered in categories, including:
- Aerospace and Advanced Manufacturing
- Business and Professional Development
- Small Business Acceleration
- Certificate Programs & Certifications
- Corporate & Continuing Education Center (CCEC) Bothell
- Computers and Technology
- Free Certificate Information Sessions
- Health and Fitness
- Online Learning
- Personal Interest

For details, please contact the Corporate and Continuing Education Center.
The Bachelors of Applied Science for Sustainable Practices (BAS-SP) expands Cascadia’s commitment to sustainability and to the mission of transforming lives; it also fulfills crucial local and regional needs. Local industries from sustainability-related fields tell Cascadia that they desire bachelor level graduates, as well as opportunities for current workers to upgrade their educational levels to qualify for promotions or to move into management levels.

The BAS-SP student will leave the program with the ability to manage complex projects, operate at the management level and communicate changes needed at company and regional levels that ensure sustainable practices are interwoven at all levels in the community. A student graduating with a BASSP will have career options in government agencies, utility companies, energy efficiency businesses, non-profits, consulting and auditing organizations, water and agriculture industries, sustainable building/construction management firms, and educational institutions.

Graduates of the BAS-SP will acquire these five key sustainability competencies:

- **Systems Thinking Competence**
  Systems Thinking Competence is the ability to collectively analyze complex systems across different domains (society, environment, and the economy etc.) and across different scales (local to global).

- **Interpersonal Competence**
  Interpersonal Competence is the ability to motivate, enable and facilitate collaborative and participatory sustainability research and problem solving.

- **Anticipatory Competence**
  Anticipatory Competence is the ability to collectively analyze, evaluate, and craft rich ‘pictures’ of the future related to sustainability issues and sustainability problem-solving frameworks.

- **Strategic Competence**
  Strategic Competence is the ability to collectively design and implement interventions, transitions, and transformative governance strategies toward sustainability.

- **Normative Competence**
  Normative Competence is the ability to collectively map, specify, apply, reconcile, and negotiate sustainability values, principles, goals, and targets.

The Bachelor of Applied Science in Sustainable Practices (BAS-SP) program has select admission and application requirements. Program information sessions and specialized advising are available before applying to this program. Interested students should contact the Assistant Director of the BAS-SP program for more information.

ASSOCIATE IN BUSINESS DTA/MRP

90 CREDITS MINIMUM

The Associate in Business degree is a direct transfer degree that prepares students to transfer to four-year colleges and universities in the area of business, having satisfied the lower division general education (or core) requirements and lower division business requirements. Students who complete an Associate in Business DTA degree will have satisfied the lower division general education (or core) requirements and lower division business requirements at the baccalaureate institutions, subject to the provisos listed in the Intercollege Relations Commission Handbook.

Upon successful completion of this degree a student will be able to:

- Understand patterns and make connections among different disciplines and schools of knowledge and to integrate studies with personal experience
- Learn actively and gain comprehensive understanding; to think critically, creatively, and reflectively in order to solve problems; to communicate with clarity and originality for personal growth and productive work; and to interact in diverse and complex environments and complicated, dynamic, and ambiguous situations
- Understand the relationships among business, government, the economy, and society and the management of business organizations, to include planning, human resources, marketing, finance, and accounting

University admission requirements vary—consult with an advisor for specific information. Admission to Washington public baccalaureate schools of business is not guaranteed to students holding an Associate in Business DTA degree. It is strongly recommended that students contact the baccalaureate-granting business school early in their Associate in Business DTA program to be advised about additional requirements (e.g., GPA) and procedures for admission. Please note that admission for many business schools is competitive, and high grade-point averages and course grades are often required. Please check with your destination school and college. UW Bothell requires a minimum of 2.0 in all prerequisite courses. Consult with an academic advisor to develop an educational plan.

COMPLETION REQUIREMENTS

The Associate in Business DTA/MRP is a direct transfer degree that requires at least 90 credit hours in college level courses (numbered 100 or above), a minimum cumulative 2.0 grade point average, a minimum of 25 credits in residence at Cascadia, and completion of all of the requirements for this degree. Students must complete and submit an application for graduation to Enrollment Services for review and approval before the degree is granted.

GENERAL EDUCATION CORE COURSES  30 CREDITS

ASSOCIATE IN INTEGRATED STUDIES DTA

90 CREDITS MINIMUM

The AIS degree prepares students to transfer to four-year college and universities with junior standing, having fulfilled all or most general education requirements. This 90-credit degree is most often an appropriate goal for students who intend to transfer to four-year colleges and universities. The Associate in Integrated Studies degree is also the degree of choice for students who intend to transfer, but who are undecided about which baccalaureate institution they will attend. It is considered a Direct Transfer Agreement (DTA) because the AIS degree is designed to satisfy most (if not all) of the general education requirements of most public colleges and universities in Washington State.

By virtue of this agreement, students will generally transfer with junior standing and fulfill all or most general education requirements. It is not necessary to complete a degree at Cascadia to be eligible to transfer to a baccalaureate-granting college or university, but most baccalaureate-granting colleges and universities or programs within those colleges and universities give admission preference to transfer students who have completed the two-year transfer degree.

Upon successful completion of this degree a student will be able to:

- Understand patterns and make connections among different disciplines and between different analytical and methodological frameworks and to integrate studies with personal experiences, local, and global communities
- Learn actively and gain comprehensive understanding; to think critically, creatively, and reflectively in order to solve problems; to communicate with clarity and originality for personal growth and productive work; and to interact in diverse and complex environments and complicated, dynamic, and ambiguous situations
- Access, process, construct, and express knowledge across cultures; to take responsibility for encountering and mastering new knowledge

COMPLETION REQUIREMENTS

Associate in Integrated Studies degree (AIS) is a direct transfer degree that requires at least 90 credit hours in college level courses (numbered 100 or above), including at least 5 credit hours that meet the Integrated Learning Requirement, a minimum cumulative 2.0 grade point average, a minimum of 25 credits in residence at Cascadia, and completion of all of the requirements for this degree. Students must complete and submit an application for graduation to Enrollment Services for review and approval before the degree is granted.

REQUIRED ELECTIVE CREDITS 20+ CREDITS
Students must complete sufficient elective credits in college level courses (numbered 100 or above) to bring the total credits for the AIS degree to 90. These credits may be selected from any combination of the distribution course lists. No more than 12 credits may be included from Restricted Electives List.

INTEGRATED LEARNING REQUIREMENT
Students must include an Integrated Learning Experience in their course selections.

Through Learning Communities (LC) or other Integrated Learning Experiences (ILE), students demonstrate their ability to integrate skills, concepts, information, and analytical and methodological frameworks from two or more areas of inquiry in a purposeful project or experience.

• A Learning Community (LC) is the integration of two or more courses from different areas of inquiry (e.g. global studies and composition, or physics and math, or astronomy and philosophy, or composition and art). The annual schedule of Learning Communities is listed on the website. Many Learning Communities are designed to fulfill both part of a General Education requirement and the Integrated Learning Requirement.

• Integrated Learning Experiences (ILE) include: hard-linked classes, classes with a Community-based Learning requirement, classes taken as part of an academic study abroad program, or classes with an academic internship. Integrated Learning Experiences are indicated in the quarterly course schedule.
ASSOCIATE IN INTEGRATED STUDIES - GLOBAL STUDIES DTA

90 CREDITS MINIMUM

The Associate in Integrated Studies - Global Studies degree prepares students for the myriad of academic, interpersonal, and professional opportunities and challenges posed by transformations within the world. More specifically, students who successfully complete this degree take a strong proactive step toward competency in a different language, are able to engage and negotiate multiple perspectives and analyze intercultural issues, and develop increased global awareness and a better appreciation of the common human destiny and dignity shared by all in the world.

The Associate in Integrated Studies - Global Studies (AIS-DTA) transfers to four-year colleges and universities with junior standing, having fulfilled all or most general education requirements. A minimum of 45 credit hours will be from courses designated as meeting the Global Studies designation requirements. This degree is based on the Associate in Integrated Studies degree framework, and therefore, it is equivalent to a Direct Transfer Degree. It is considered a Direct Transfer Agreement (DTA) because the AIS degree is designed to satisfy most (if not all) of the general education requirements of most public colleges and universities in Washington State.

Upon successful completion of this degree a student will be able to:

- Demonstrate interdisciplinary understanding of an increasingly interconnected world in which economies, environments, cultures and societies are being transformed through transnational forces. The AIS-GS curriculum encourages learning of cultural, historical, socioeconomic and political experiences in a global context.
- Better compete in professional areas which increasingly emphasize global and language training and competency. These include education, international law, business, media, sustainable development and government.
- Access, process, construct, and express knowledge across cultures; develop an increased awareness of a global context for ideas and facts; take responsibility for encountering and mastering new knowledge.
- Learn actively and gain comprehensive understanding; think critically, creatively, and reflectively in order to solve problems; communicate with clarity and originality for personal growth and productive work; and interact in diverse and complex environments and complicated, dynamic, and ambiguous situations.

COMPLETION REQUIREMENTS

The AIS-GS degree is a direct transfer degree that requires at least 90 credit hours in college level courses (numbered 100 or above), a minimum cumulative 2.0 grade point average, a minimum of 25 credits in residence at Cascadia, and completion of all of the requirements for this degree. Students must complete and submit an application for graduation to Enrollment Services for review and approval before the degree is granted.

### AIS - Global Studies DTA (Continued)

#### GLOBAL STUDIES DISTRIBUTION REQUIREMENT 45 CREDITS

Students must complete a minimum of 45 college-level courses (numbered 100 or above) from the Global Studies (GS) distribution area with at least ten credits in each of the program requirement areas below. These courses can be within the General Education Core Courses, any of the Distribution Requirements, or the Program Electives.

#### HUMANITIES DISTRIBUTION REQUIREMENT 15 CREDITS

Courses must be from at least two different disciplines. No more than five credits may be included from courses designated HP as performance/skills, applied theory, or lecture/studio courses. Only five credits of world language at the 100 level may be included.

#### PROGRAM REQUIRED ELECTIVE CREDITS 20+ CREDITS

Students must complete sufficient elective credits in college-level courses (numbered 100 or above) to bring the total credits for this degree to 90, which must include 45 credits from GS designated courses. No more than 12 credits may be included from Restricted Elective list.

In addition:

1. Students must complete or show competency at (a) the 221 level in a single world language, OR (b) the 123 level in one world language and any five-credit course in an additional world language. *
   AND
2. Students must complete:
   - A credit-bearing course with a globally focused community-based learning component
   - A credit-bearing study abroad experience. (International students on a student visa who satisfactorily complete a credit-bearing course at Cascadia College would have completed the Study Abroad requirement.)
   - A globally focused internship.

*Cascadia College recognizes prior learning in world languages. To demonstrate that the world language requirement for the AIS-GS has been met through prior learning, students must demonstrate equivalent language competency by:

- A 200-level placement on a language proficiency exam
- A high school transcript showing successful completion of the equivalent language level with a grade of 2.0 or higher
- Proof of completion of one-year of high school or one credit-bearing college-level course in a language other than English.
ASSOCIATE IN PRE-NURSING DTA/MRP

90 MINIMUM CREDITS

The Associate in Pre-Nursing Degree prepares students to transfer to a baccalaureate degree program in Nursing (BSN). This degree program is applicable to students planning to transfer to a program where they can earn a baccalaureate degree in Nursing (Entry-to-practice/basic BSN program or other related allied health field) by completing a broad selection of academic courses.

This degree has been agreed upon by the following baccalaureate institutions offering an entry-to-practice/basic BSN program and the community and technical colleges system: University of Washington, Seattle; Washington State University; Northwest University; Seattle University; Seattle Pacific University; Pacific Lutheran University; Walla Walla College. The Washington State University Intercollegiate College of Nursing (WSU-ICN) is a consortium whose members include Eastern Washington University, Gonzaga, and Whitworth. Associate’s degree transfers to WSU-ICN are admitted through WSU, not through the other consortium institutions. EWU participated in the development of this agreement. Student must contact the potential transfer institutions regarding their choices where the degree allows for student choice in classes and are encouraged to consult an academic advisor.

Upon successful completion of this degree a student will be able to:

- Understand patterns and make connections among different disciplines and schools of knowledge and to integrate studies with personal experience
- Learn actively and gain comprehensive understanding; to think critically, creatively, and reflectively in order to solve problems; to communicate with clarity and originality for personal growth and productive work; and to interact in diverse and complex environments and complicated, dynamic, and ambiguous situations
- Enter an entry-to-practice nursing program

COMPLETION REQUIREMENTS

The Associate in Pre-Nursing DTA/MRP is a direct transfer degree that requires at least 90 credit hours in college level courses (numbered 100 or above), a minimum cumulative 2.0 grade point average, a minimum of 25 credits from Cascadia, and completion of all of the requirements for this degree. Students must complete and submit an application for graduation to Enrollment Services for review and approval before the degree is granted.

ASSOCIATE IN SCIENCE - TRANSFER TRACK 1

The Associate in Science-Transfer (AS-T) degree is designed for students who are interested in earning a two-year academic degree. Like all Cascadia transfer degrees, the AS-T degree provides students with a solid foundation for future studies through the completion of a range of courses in the sciences and liberal arts. Courses are similar to what would typically be taken at a four-year college or university. Students selecting this degree complete a common general education core and then choose between two “tracks.” The Associate of Science Transfer (AS-T) Degree Track 1 is designed to prepare students for upper division study in the areas of biological sciences, environmental/resource sciences, chemistry, geology, and earth science. Completing the AS-T degree will prepare students for upper division study; it does not guarantee students admission to the major.

TAS-T degree students should consult an academic advisor for full details.

Upon successful completion of this degree a student will be able to:

- Understand patterns and make connections among different disciplines and schools of knowledge and to integrate studies with personal experience
- Learn actively and gain comprehensive understanding; to think critically, creatively, and reflectively in order to solve problems; to communicate with clarity and originality for personal growth and productive work; and to interact in diverse and complex environments and complicated, dynamic, and ambiguous situations
- Demonstrate a solid foundation for baccalaureate science studies through the completion of an appropriate range of courses in the sciences and liberal arts

COMPLETION REQUIREMENTS

The Associate in Science - Transfer Track 1 degree requires at least 90 credit hours in college level courses (numbered 100 or above), a minimum cumulative 2.0 grade point average, a minimum of 25 credits in residence at Cascadia, and completion of all of the requirements for this degree. Students must complete and submit an application for graduation to Enrollment Services for review and approval before the degree is granted.

ASSOCIATE IN SCIENCE - TRANSFER TRACK 2

ENGINEERING, COMPUTER SCIENCE, PHYSICS, AND ATMOSPHERIC SCIENCES
90 CREDITS MINIMUM

The Associate in Science-Transfer (AS-T) degree is designed for students who are interested in earning a two-year academic degree. Track 2 is for students with majors in computer science, atmospheric science, or physics. This degree is primarily intended for students planning to transfer to a four-year college or university with a major in natural science, pre-med, engineering, or computer science. Like all Cascadia transfer degrees, the AS-T degree provides students with a solid foundation for future studies through the completion of a range of courses in the sciences and liberal arts. Courses are similar to what would typically be taken at a four-year college or university. AS-T degree students should consult an academic advisor for full details.

Upon successful completion of this degree a student will be able to:

- Understand patterns and make connections among different disciplines and schools of knowledge and to integrate studies with personal experience
- Learn actively and gain comprehensive understanding; to think critically, creatively, and reflectively in order to solve problems; to communicate with clarity and originality for personal growth and productive work; and to interact in diverse and complex environments and complicated, dynamic, and ambiguous situations
- Demonstrate a solid foundation for baccalaureate science studies through the completion of an appropriate range of courses in the sciences and liberal arts

COMPLETION REQUIREMENTS

The Associate in Science-Transfer Track 2 degree requires at least 90 credit hours in college level courses (numbered 100 or above), a minimum cumulative 2.0 grade point average, a minimum of 25 credits in residence at Cascadia, and completion of all of the requirements for this degree. Students must complete and submit an application for graduation to Enrollment Services for review and approval before the degree is granted.

### PROGRAM REQUIRED ELECTIVES  
24-25 CREDITS

Remaining elective credits should be planned with the help of an advisor based on the requirements of the specific major at the baccalaureate institution the student selects to attend. Elective credits may be selected from any of the distribution and elective courses. Professional/technical courses numbered 100 or above may be considered restricted electives. No more than 5.0 credits may be included from Restricted Electives List. Consult an advisor for more information.
ASSOCIATE IN SCIENCE - TRANSFER TRACK 2 MRP

BIOENGINEERING AND CHEMICAL ENGINEERING
103 CREDITS

The Associate in Science-Transfer degree program is applicable to students planning to prepare for Bioengineering and Chemical Engineering majors at universities in Washington.

Students completing the AS-T, Track 2 degrees will, if admitted to the university, be admitted as juniors with all or most prerequisites for the specific engineering major completed (depending on choices made among engineering electives) and with lower division general education courses partially completed in a manner similar to the partial completion by freshmen-entry engineering students. Note that engineering programs are competitive and may require a higher GPA overall or a higher GPA in specific courses. Baccalaureate institutions will apply up to 110 quarter credits required under this agreement to the credits required in the bachelor's degree, subject to institutional policy on the transfer of lower division credits. AS-T Degree students should, however, maintain careful contact with an advisor at the potential transfer institution in regard to choice in engineering classes.

Upon successful completion of this degree a student will be able to:

- Understand patterns and make connections among different disciplines and schools of knowledge and to integrate studies with personal experience
- Learn actively and gain comprehensive understanding; to think critically, creatively, and reflectively in order to solve problems; to communicate with clarity and originality for personal growth and productive work; and to interact in diverse and complex environments and complicated, dynamic, and ambiguous situations
- Demonstrate a solid foundation for baccalaureate science studies through the completion of an appropriate range of courses in the sciences and liberal arts

COMPLETION REQUIREMENTS

The Associate in Science-Transfer Track 2 Engineering degree requires at least 90 credit hours in college level courses (numbered 100 or above), a minimum cumulative 2.0 grade point average, a minimum of 25 credits in residence at Cascadia, and completion of all of the requirements for this degree. Students must complete and submit an application for graduation to Enrollment Services for review and approval before the degree is granted.

ASSOCIATE IN SCIENCE - TRANSFER TRACK 2 MRP
MECHANICAL/CIVIL/AERONAUTICAL/INDUSTRIAL/MATERIALS SCIENCE/PRE-ENGINEERING (OTHER ENGINEERING)
110 CREDITS

This Associate in Science-Transfer degree program is applicable to students planning to prepare for various engineering majors at universities in Washington.

Students completing the AS-T, Track 2 degrees will, if admitted to the university, be admitted as juniors with all or most prerequisites for the specific engineering major completed (depending on choices made among engineering electives) and with lower division general education courses partially completed in a manner similar to the partial completion by freshmen-entry engineering students. Note that engineering programs are competitive and may require a higher GPA overall or a higher GPA in specific courses. Baccalaureate institutions will apply up to 110 quarter credits required under this agreement to the credits required in the bachelor’s degree, subject to institutional policy on the transfer of lower division credits. AS-T Degree students should, however, maintain careful contact with an advisor at the potential transfer institution in regard to choice in engineering classes.

- Understand patterns and make connections among different disciplines and schools of knowledge and to integrate studies with personal experience
- Learn actively and gain comprehensive understanding; to think critically, creatively, and reflectively in order to solve problems; to communicate with clarity and originality for personal growth and productive work; and to interact in diverse and complex environments and complicated, dynamic, and ambiguous situations
- Demonstrate a solid foundation for baccalaureate science studies through the completion of an appropriate range of courses in the sciences and liberal arts

COMPLETION REQUIREMENTS
The Associate in Science-Transfer Track 2 Engineering degree requires at least 90 credit hours in college level courses (numbered 100 or above), a minimum cumulative 2.0 grade point average, a minimum of 25 credits in residence at Cascadia, and completion of all of the requirements for this degree. Students must complete and submit an application for graduation to Enrollment Services for review and approval before the degree is granted.

Students are required to take a CKR designated course chosen from the Humanities or Social Science Distribution areas listed below.

**HUMANITIES / SOCIAL SCIENCES DISTRIBUTION REQUIREMENT 10 CREDITS**

Students must complete courses from at least two different disciplines. No more than five credits may be included from those courses designated HP as performance/skills, applied theory, or lecture/studio courses. Only one course of a world language at the 100 level may be included. Economics is recommended.

ASSOCIATE IN APPLIED SCIENCE - TRANSFER
ENVIRONMENTAL TECHNOLOGIES AND SUSTAINABLE PRACTICES - 92-93 CREDITS

The Associate in Applied Science (AAS) degree in Environmental Technologies and Sustainable Practices (ETSP) presents both the practical and scientific basis for measuring, monitoring, and recommending actions to optimize the production, delivery, and use of resources.

The ETSP Degree from Cascadia provides industry-specific knowledge and professional skills that are vital to staking a claim in the emerging green economy. Governments and businesses in this state and around the world are looking for professionals who can “pioneer innovative pathways” as we rethink and redesign how we consume resources; students in this program will have the chance to be a part of that as professional practitioners as well as in roles as informed consumers and political citizens.

Upon successful completion of this degree a student will be able to:

- Understand patterns and make connections among different disciplines and schools of knowledge and to integrate studies with personal experience
- Learn actively and gain comprehensive understanding; to think critically, creatively, and reflectively in order to solve problems; to communicate with clarity and originality for personal growth and productive work; and to interact in diverse and complex environments and complicated, dynamic, and ambiguous situations
- Address savings and spending using terms and tools applicable in the commercial arena
- Design and execute environmentally sensitive and sustainable practices

ASSOCIATE IN APPLIED SCIENCE - TRANSFER

NETWORKING INFRASTRUCTURE TECHNOLOGY
95 CREDITS

The Associate in Applied Science (AAS) degree in Networking Infrastructure Technology prepares you for a career in networking with an emphasis on infrastructure development. This program is designed to meet current industry demands in the field of information technology. Throughout the degree, you will successfully work both independently and as part of a team to design, implement, and maintain an organization's hardware and software network infrastructure. In this program, you will:

- Acquire and understand the fundamentals of networking, hardware and software, and how to support and maintain computers and networking equipment
- Evaluate how to design network architecture strategies and implement networking technologies to build data infrastructures
- Obtain and apply virtualization and application infrastructure skill sets to integrate best practices for network administration by utilizing innovative technologies.

COMPLETION REQUIREMENTS

The Network Infrastructure Technology AAS-T is a professional technical degree that requires at least 95 credit hours in college level courses (numbered 100 or above), a minimum cumulative 2.0 grade point average, a minimum of 25 credits from Cascadia, and completion of all of the requirements for this degree. Students must complete and submit an application for graduation to Enrollment Services for review and approval before the degree is granted.

ASSOCIATE IN APPLIED SCIENCE - TRANSFER

WEB APPLICATION PROGRAMMING TECHNOLOGY—MOBILE EMPHASIS
106 CREDITS

The Associate in Applied Science (AAS) degree is a technical degree in web application programming technology prepares students for a career as a web developer. The degree provides an emphasis on either programming, mobile or web technologies.

Web application developers design, create, and test new applications, beginning by analyzing client or project requirements. During development they act as skilled problem solvers and clear communicators. Web application programmers work in cross-functional teams; design and create user interfaces; write client and server code conforming to industry standards; utilize development frameworks, web services, and databases; accurately estimate their time-on-task; manage their portion of a project; and clearly document their work.

Upon successful completion of this degree a student will be able to:

- Apply critical thinking and logical reasoning to design and technical problems in web development generally, with a focus on their area of emphasis
- Communicate effectively as web development professionals, interacting with clients and collaborating within development teams.
- Develop solid visual and logical design skills, paying close attention to detail, current standards, application usability, and security
- Design, produce, and test new web and mobile applications to be visually appealing and function effectively to meet users’ needs
- Assess and select application frameworks and development methodologies appropriate to the particular project scope

COMPLETION REQUIREMENTS

The Mobile Emphasis of the Web Application Programming Technology degree requires at least 106 credit hours in college level courses (numbered 100 or above), a minimum cumulative 2.0 grade point average, a minimum of 25 credits from Cascadia, and completion of all of the requirements for this degree. Students must complete and submit an application for graduation to Enrollment Services for review and approval before the degree is granted.

ASSOCIATE IN APPLIED SCIENCE - TRANSFER

WEB APPLICATION PROGRAMMING TECHNOLOGY – PROGRAMMING EMPHASIS

101 CREDITS

The Associate in Applied Science (AAS) degree is a technical degree in web application programming technology prepares students for a career as a web developer. The degree provides an emphasis on either programming, mobile or web technologies.

Web application developers design, create, and test new applications, beginning by analyzing client or project requirements. During development they act as skilled problem solvers and clear communicators. Web application programmers work in cross-functional teams; design and create user interfaces; write client and server code conforming to industry standards; utilize development frameworks, web services, and databases; accurately estimate their time-on-task; manage their portion of a project; and clearly document their work.

Upon successful completion of this degree a student will be able to:

- Apply critical thinking and logical reasoning to design and technical problems in web development generally, with a focus on their area of emphasis
- Communicate effectively as web development professionals, interacting with clients and collaborating within development teams.
- Develop solid visual and logical design skills, paying close attention to detail, current standards, application usability, and security
- Design, produce, and test new web applications to be visually appealing and function effectively to meet users’ needs
- Assess and select application frameworks and development methodologies appropriate to the particular project scope

COMPLETION REQUIREMENTS

The Programming Emphasis of the Web Application Programming Technology degree requires at least 101 credits in college level courses (numbered 100 or above), a minimum cumulative 2.0 grade point average, a minimum of 25 credits from Cascadia, and completion of all of the requirements for this degree. Students must complete and submit an application for graduation to Enrollment Services for review and approval before the degree is granted.

## APPLICATION INFRASTRUCTURE ENGINEER CERTIFICATE

**39 CREDITS**

Learn to build, manage, and support application services in data network environments. Develop and deploy integrated application solutions within LANs and across WANs enterprise level core network systems. Ensure that connectivity for end users and server environments is provided for a sustainable level of service to business applications. Practice facilitating operational framework with others to deliver processes and standards. Implement delivery systems, systems management, policies, and security solutions for network applications. Understand a variety of different network configurations supporting IT solutions for business practices.

## SERVER ADMINISTRATOR CERTIFICATE

**40 CREDITS**

Learn the foundational skills necessary to support data networks. Troubleshoot and repair computer systems for end users. Design and implement a variety of network infrastructures. Design, install, configure, and optimize server environments to provide high availability for data networks. Develop procedures and processes to manage server security and integrity for data centers. Plan logical network designs for multiple site topologies. Practice building networks with routing and switching equipment. Implement and control data communication with routing protocols and securities in LAN and WAN infrastructures. Learn how to work in group environments by managing and facilitating projects.

VIRTUALIZATION ENGINEER CERTIFICATE

38 CREDITS

Learn the virtualization technologies for application, desktop, server, and routing and switching network infrastructures. Design virtual networks to support cloud environments. Create virtualization strategies for dynamic IT business solutions. Practice a multitude of virtualization solutions for physical and virtual infrastructures. Build highly available virtual environments for remote desktops and application connectivity, as well as server farm capacity planning and storage solutions. Understand the concepts and best practices for virtualizing IT entities to lower cost and environmental impact. Improve the efficiency and high availability of IT resources. Utilize industry solutions to maintain and monitor virtualization on enterprise level networks.

COMPUTER PROGRAMMING FOUNDATIONS CERTIFICATE

10 CREDITS

The Computer Programming Foundations certificate provides students with the solid foundation that’s necessary to succeed in computer programming, either on the job or after they’ve transferred to a four-year college/university. Students master fundamental computer programming topics, such as control structures, functions and procedural programming, object-oriented programming, sorting and searching algorithms, recursion, abstract data types (e.g., stacks and queues), linked lists, and binary trees.

Cascadia College
MOBILE APP CERTIFICATE

11 CREDITS

The Mobile App certificate prepares students to design and develop mobile applications for distribution through online marketplaces. Working on collaborative teams, students use a standard development cycle to create an app for an external client. Students gain experience in:

- Quickly prototyping mobile app designs using HTML/CSS/JavaScript and mobile development frameworks like JQuery Mobile and PhoneGap
- Refining knowledge and skills needed to work on mobile development projects including clients and team communication and version control systems
- Developing in native platform environments
- Publishing mobile apps in online marketplaces

USER INTERFACE DEVELOPER CERTIFICATE

16 CREDITS

User Interface Developers shape our daily experience interacting with web sites and cloud-based services, like Google Docs. With this certificate, students develop proficiency in web interaction design using the latest web standards: HTML/CSS, Flash/Actionscript, JQuery/JavaScript, and XML/JSON/AJAX. Students will gain the skills needed to work in development teams, including peer code reviews, and design presentations. This second-level certificate allows web designers to develop interactive scripting techniques and web programmers to focus on interactive design.

CERTIFICATE PREREQUISITES 16 CREDITS

BIT 113 and BIT 115 or prior web design and programming experience with instructor permission.

WEB APPLICATIONS CERTIFICATE

17 CREDITS

The Web Applications certificate provides an overview of web application development, with a focus on ASP.NET/SQL Server development, to students with some previous programming experience. Students gain first-hand experience designing data-driven web applications; accessing databases securely; and developing three-tier application architecture: presentation, logic and data, and using an agile application development process.

COURSES BY PROGRAM REQUIREMENT

For each academic degree, or certificate program students are required to complete courses in a range of academic disciplines. The categories below are a general guide to the requirements. Students should consult an academic advisor to be sure that courses meet the specific requirements for a program.

**FOUNDATIONS FOR COLLEGE SUCCESS**
- COLL 101 College Strategies (RE)
- COLL 120 Documentation of Prior Learning (RE)

**COMMUNICATION**
- ENGL& 101 English Composition I (RE)
- ENGL& 102 Composition II (RE)
- ENGL& 235 Technical Writing (H)

**QUANTITATIVE OR SYMBOLIC REASONING**
- MATH& 107 Math in Society
- MATH& 131 Math for Elementary Education I (NS)
- MATH& 132 Math for Elementary Education II (NS)
- MATH& 141 Precalculus I
- MATH& 142 Precalculus II (NS)
- MATH& 146 Introduction to Statistics (NS)
- MATH& 147 Math for Elementary Education I (NS)
- MATH& 148 Business Calculus (NS)
- MATH& 151 Calculus I (NS)
- MATH& 152 Calculus II (NS)
- MATH& 163 Calculus 3 (NS)
- MATH 208 Linear Algebra (NS)
- MATH 238 Differential Equations (NS)
- MATH 264 Calculus 4 (NS)
- PHIL& 120 Symbolic Logic (H)

**CULTURAL KNOWLEDGE**
- ANTH& 104 World Prehistory (SS)
- ANTH 151 Anthropology of Human Rights (GS, SS)
- ANTH& 206 Cultural Anthropology (GS, SS)
- ANTH& 207 Introduction to Linguistic Anthropology (SS)
- ANTH& 234 Religion & Culture (SS)
- ANTH 275 Medical Anthropology (GS, SS)
- ART& 100 Art Appreciation (CKR, GS)
- ART 110 2-Dimensional Design
- ART 121 Drawing
- ART 122 Drawing II
- ART H 135 Global Perspectives in Art (CKR, GS)
- ART H 140 Prehistory to the Renaissance: Survey of Art I (CKR, GS)
- ART H 141 Renaissance to Modern: Survey of Art II (CKR, GS)
- ART H 142 The Modern Era: Survey of Art III (CKR, GS)
- ART 220 Painting
- ART 224 Figure Drawing
- ART 240 Introduction to Printmaking
- ASL& 121 American Sign Language I (GS)
- ASL& 122 American Sign Language II (GS)
- ASL& 123 American Sign Language III (GS)
- CHIN& 121 Chinese I (GS)
- CHIN& 122 Chinese II (GS)
- CHIN& 123 Chinese III (GS)

**HUMANITIES**
- CMST 150 Multicultural Communication (H)
- CMST 203 Media in United States Society (H)
- CMST 211 World Cinema (GS, H)
- CMST 233 Global Media (GS, H)
- CMST 251 Intercultural Communication (GS, H)
- DRMA 103 Theater Appreciation (GS, H)
- ENGL 221 Film and Literature (GS, H)
- ENGL& 244 U.S. Literature I (H)
- ENGL& 245 U.S. Literature II (H)
- ENGL& 254 World Literature I (GS, H)
- ENGL& 255 World Literature II (GS, H)
- ENVS 120 Wetland Conservation (GS, NS)
- GEOG& 250 Geography of the Pacific Northwest (GS, NS)
- GS 150 Globalization, Culture and Identity (GS, H)
- GS 220 Global Studies: Regional History & Culture (GS, H, SS)
- GS 230 Contemporary Japan (GS, H, SS)
- HIST& 126 World Civilizations I (GS, H, SS)
- HIST& 127 World Civilizations II (GS, H, SS)
- HIST& 128 World Civilizations III (GS, H, SS)
- HIST& 146 United States History I (GS, H, SS)
- HIST& 147 United States History II (GS, H, SS)
- HIST& 148 United States History III (GS, H, SS)
- HIST 150 Multicultural United States History (GS, H, SS)
- HIST 210 Islamic Civilization (GS, H, SS)
- HIST& 214 Pacific Northwest History (GS, H, SS)
- HIST 268 Modern Latin American History (GS, H, SS)
- HUMAN 107 Technology, Culture, & Innovation (H)
- HUMAN 125 Cultures of Environmental Consciousness in America (H)
- HUMAN 150 Introduction to Cultural Studies (H)
- JAPN& 121 Japanese I (GS, H)
- JAPN& 122 Japanese II (GS, H)
- JAPN& 123 Japanese III (GS, H)
- JAPN& 221 Japanese IV (GS, H)
- JAPN& 222 Japanese V (GS, H)
- JAPN& 223 Japanese VI (GS, H)
- PHIL 102 Ethics and Social Problems (H)
- PHIL 220 Global Philosophy (GS, H)
- PHIL 260 Business Ethics (H)
- POLS& 101 Introduction to Political Science (SS)
- POLS 205 Politics of the Middle East and North Africa (GS, SS)
- PSYC 171 Human Relations (SS)
- PSYC 245 Social Psychology (SS)
- PSYC 250 Cross-Cultural Psychology (SS)
- PSYC 251 Organizational Behavior (GS, SS)
- SOC 101 Introduction to Sociology (SS)
- SOC 150 Social Inequality (SS)
- SOC 151 Race and Ethnicity in the United States (SS)
- SOC 231 Gender and Society (SS)
- SOC 241 Sociology of Families (SS)
- SOC 271 Sociology and Deviance (SS)
- SPAN& 121 Spanish I (GS, H)
- SPAN& 122 Spanish II (GS, H)
- SPAN& 123 Spanish III (GS, H)
- SPAN& 221 Spanish IV (GS, H)
- SPAN& 222 Spanish V (GS, H)
- SPAN& 223 Spanish VI (GS, H)

ACCT 140 5 credits
Accounting Essentials
RE- Students will acquire a practical understanding of financial and managerial accounting concepts. With a focus on the relationship between real-world events and the accounts and numbers that appear on financial statements, students will explore the accounting for common transactions and learn to apply the basic tools of financial statement analysis to various types of business and not-for-profit organizations. Managerial accounting topics include analysis of the cost of manufactured products, cost behavior, break-even analysis, and budgeting. This course is intended for the non-accounting specialist and is not recommended for students planning to transfer into bachelor's degree programs in business. Prerequisite(s): Co-enrollment with or completion of MATH & 141 with a grade of 2.0 or higher or completion of MATH 075 with a grade of 2.0 or higher or placement by testing into MATH 085; and completion of ENGL 090 with a grade of 2.0 or higher or placement by testing into ENGL 096.

ACCT & 201 5 credits
Principles of Accounting I
E- Students will explore the manner in which accountants pursue the goal of financial accounting: to provide useful, relevant information to users of financial statements. With a focus on merchandising enterprises, students look at how the accounts are organized, how they affect transactions, and how they impact one another. Students will explore the recording process, adjusting and closing entries, and the preparation of financial statements. Transaction analysis will focus on sales, purchases, cash, accounts receivable, and inventories, while additional topics include accounting information systems and internal control. Prerequisite(s): Co-enrollment with or completion of MATH & 141 or MATH 147 with a grade of 2.0 or higher or placement into MATH & 142.

ACCT & 202 5 credits
Principles of Accounting II
E- In this course, a continuation of ACCT & 201, students will further explore the manner in which accountants pursue the goal of financial accounting: to provide useful, relevant information to users of financial statements. With a focus on partnerships and corporations, students will examine in detail the accounting for plant assets, current liabilities, shareholders’ equity and dividends, long term liabilities, and investments. Additional topics include the statement of cash flows and financial statement analysis. Prerequisite(s): Completion of ACCT & 201 with a grade of 2.0 or higher, or instructor permission.

ACCT & 203 5 credits
Principles of Accounting III
E- Students commencing this course in managerial accounting will have completed two previous courses in financial accounting (ACCT & 201 and ACCT & 202), whose goal is to provide useful, relevant information to users of financial statements. Managerial accounting, by contrast, is concerned with providing information to managers—the people inside an organization who direct and control its operations. Students will explore ways in which financial information for internal users is compiled, organized, and presented, and will develop a thorough understanding of manufacturing and nonmanufacturing costs; compute the cost of manufacturing a product or providing a service; and determine the behavior of costs as activity levels change. Attention will then shift to budgeting and the use of budgets and standard costs to assess performance. Additional topics include incremental analysis and capital budgeting. Prerequisite(s): Completion of ACCT & 202 with a grade of 2.0 or higher, or instructor permission.

AMERICAN SIGN LANGUAGE

ASL & 121 5 credits
American Sign Language I
GS, H- In this course students begin to communicate with others using American Sign Language (ASL) and are introduced to the Deaf culture and community. They learn the vocabulary, grammar and culturally appropriate uses of ASL through natural, everyday conversation situations. This course is video-interactive, allowing students to check their comprehension and to practice signs. Prerequisite(s): Completion of ENGL 090 or higher or placement by testing in ENGL 096.

ASL & 122 5 credits
American Sign Language II
GS, H- Students further develop their ability to communicate with others using American Sign Language. They will increase their knowledge of ASL culture, signs, and grammatical structures. Prerequisite(s): Completion of ASL & 121 with a grade of 2.0 or higher or placement into ASL & 122.

ASL & 123 5 credits
American Sign Language III
GS, H- Continuing the work of ASL & 122 students will further develop their expressive and receptive skills. Prerequisite(s): Completion of ASL & 122 with a grade of 2.0 or higher or placement into ASL & 123.

ANTH & 104 5 credits
World Prehistory
CKR, SS- This survey course introduces students to the origins of human diversity by tracing the origins of humanity and material culture from its ancient beginnings to the first literate societies. Through readings, videos, the Internet, and other materials, students will journey to Africa, Mesopotamia, Asia, India, Europe, and the Americas as they learn about human adaptations to both the natural and cultural environments. This course may involve a service learning project. Prerequisite(s): Completion of ENGL 090 with a grade of 2.0 or higher or placement by testing in ENGL 096.

ANTH 151 5 credits
Anthropology of Human Rights
CKR, GS, SS- Students explore global human rights issues from a holistic anthropological perspective, focusing on the various factors (cultural, economic, historical, and political) that prevent and promote the development of social justice and successful pluralistic societies. Learners examine national and international institutions and non-governmental agencies responsible for human rights definition, monitoring, and enforcement. Students investigate human rights case studies by utilizing anthropological methodologies and theories. They also develop critical thinking skills by evaluating human rights solutions and reconciliation. Prerequisite(s): Completion of ENGL 096 with a grade of 2.0 or higher or placement into ENGL & 101.

ANTH & 204 5 credits
Archaeology
GS, SS- In this course, students investigate how archaeologists reconstruct the human past. Students learn about archaeological processes, examine the relationship of archaeology to anthropological concerns, and develop critical thinking skills by evaluating archaeological methodologies and explanatory theories, analyzing archaeological material, and conducting a virtual dig. Service learning may be required. Prerequisite(s): Completion of ENGL & 101 with a grade of 2.0 or higher.

ANTH & 205 5 credits
Biological Anthropology
GS, NS- Students in this course will evaluate the origins of humankind, consider biological diversity, and assess biocultural evolution. Students will learn to critically evaluate scientific claims about humankind, recognize human variation, explore humanness, and develop critical thinking skills through the application of essential anthropological approaches, theories and methods. Prerequisite(s): Completion of ENGL 096 with a grade of 2.0 or higher or by testing into ENGL & 101.
ANTH 206 Cultural Anthropology 5 credits
CKR, GS, SS- Students in this course examine the dimensions of human culture, including kinship, politics, and religion, and evaluate the interrelationships between geography, environment and cultural forms. Students explore the effects of globalization on indigenous peoples while developing critical thinking skills through the application of essential anthropological approaches, theories, and methods. Prerequisite(s): Completion of ENGL 090 with a grade of 2.0 or higher or placement by testing into ENGL 096.

ANTH 207 Introduction to Linguistic Anthropology 5 credits
CKR, SS- This course introduces students to linguistic methods and theories used within anthropology. Students examine the structural features of language, compare human and animal communication, and explore the interaction of culture and language. Linguistic relativism and determinism will be scrutinized, as well as the relationship of language to society, nationalism, and politics. Prerequisite(s): Completion of ENGL 101 with a grade of 2.0 or higher.

ANTH& 234 Religion & Culture 5 credits
CKR, SS- Students undertake a comparative study of belief systems, encompassing a sample of both tribal and world religions. Learners examine symbolism, rituals, myths, ecological ties, etc., in order to gain insight into the origins, construction, and intricacies of the world's belief systems. Students also investigate the role of belief systems in the construction of social roles, social distinctions, culture conflict, and cultural change. Prerequisite(s): Completion of ENGL 101 with a grade of 2.0 or higher.

ANTH 275 Medical Anthropology 5 credits
CKR, GS, SS- Students explore the interaction of culture and health from a global perspective. Students learn about different cultural approaches to the human body and mind, illness, healing, and medicine, developing critical thinking skills by evaluating medical anthropology methodology and theoretical approaches, and examine the interrelationships between health, the environment, politics, economics, and globalization. Prerequisite(s): Completion of ENGL 096 with a grade of 2.0 or higher or placement by testing into ENGL 101.

ART 100 Art Appreciation 5 credits
CKR, GS, H- In this course, students examine their own emotional experience of art and think critically about its role and effects in everyday life. We develop visual literacy by critically engaging visual and performative arts from around the world to consider distinctions and intersections between cultures, grasp the relationship between art and culture, and examine the social, political, economic, and historical contexts of art, including systems of power, privilege, inequality, and identity. Students learn the visual elements and principles of artistic expression including shape, light, color, texture, rhythm, motion, and other concepts of art study. Artistic forms studied may include painting, sculpture, functional art, architecture, photography, printmaking, installation art, performance art, dance, theater, music, and computer art. Prerequisite(s): Completion of ENGL 096 with a grade of 2.0 or higher or by testing into ENGL 101.

ART 110 2-Dimensional Design 5 credits
HP- A foundation course in the process of two-dimensional design, taking students from idea to clarifying image. The course is an introduction to the visual language, covering the elements and principles of design and their application to diverse imagery, from problem identification, alternative solutions, and presentation of the final image. There is an emphasis on critical dialogue regarding the context and content of student creative work. Prerequisite(s): Completion of ENGL 090 with a grade of 2.0 or higher or placement by testing in ENGL 096.

ART 121 Drawing 5 credits
HP- This is a beginning studio drawing course emphasizing skills, techniques, and creative exploration of subject matter. The course is an exploration of pictorial form, principles of composition and visual organization. Students learn fundamental elements of design as they relate to drawing including line, shape, value, texture, form, gesture, perspective, and space. Students develop visual literacy and fine tune their observational skills and perceptions, while they learn to express individual ideas and feelings in the development of a personal artistic vision. Prerequisite(s): None.

ART 122 Drawing II 5 credits
HP- In this second in a series of courses designed for students interested in the intermediate study of studio art, learners will explore the use of various media such as conte and pastel, surface materials and techniques as they relate to drawing. Students will communicate their personal expression of imagery, subjects, and mark making to create unique works. Additional emphasis on presentation of finished work and analysis of the creative process distinguishes this course from Art 121. Prerequisite(s): Completion of ART 121 with grade of 2.0 or higher or by instructor permission with portfolio review.
**ART H 141** 5 credits

**Renaissance to Modern: Survey of Art II**

CKR, GS, H- In this course, students explore the major movements and key artistic figures in painting, sculpture, other visual art forms and architecture from the early Italian Renaissance to the end of the 18th Century. Employing the interdisciplinary methods of visual analysis utilized in Art History, students develop visual literacy and critically engage visual arts from around the world to consider distinctions and intersections between cultures and examine the social, political, economic, and historical contexts of art, including systems of power, privilege, inequality, and identity. Stylistic periods, cultures, and persistent themes include Classicism, Dynastic China and Japan, European Renaissance, Baroque, Mesoamerica, Rococo, and the representation of gender, race, class, and ethnicity. Prerequisite(s): Completion of ART 121 with a grade of 2.0 or higher, or placement by testing into ENGL 096.

**ART H 142** 5 credits

**The Modern Era: Survey of Art III**

CKR, GS, H- In this course, students explore the major movements and key artistic figures in painting, sculpture, alternative visual art forms and architecture from c. 1780 to the present. Employing the interdisciplinary methods of visual analysis utilized in Art History, students develop visual literacy and critically engage visual and performative arts from around the world to consider distinctions and intersections between cultures and examine the social, political, economic, and historical contexts of art, including systems of power, privilege, inequality, and identity. Stylistic periods and persistent themes include Neo-Classicism, Romanticism, Impressionism, Expressionism, Cubism, Pop Art, new media art, and the representation of gender, race, class, and ethnicity. Prerequisite(s): Completion of ART 121 with a grade of 2.0 or higher, or placement by testing into ENGL 096.

**ART 220** 5 credits

**Beginning Painting**

HP- In this beginning course, learners will explore the use of oil or acrylic paint, along with surface materials and techniques as they relate to painting. Students become familiar with a variety of technical processes and aspects of painting, including creating values, mixing color, brush techniques and paint application. Students develop a personal expression of imagery and subjects to create unique works of art as well as communicate their comprehension of theory. Additional emphasis is placed on presentation of finished work and written analysis of the creative process. Prerequisite(s): Completion of ART 110 or ART 121 with a grade of 2.0 or higher, or instructor permission.

**ART 224** 5 credits

**Figure Drawing**

HP- This course provides an exploration of the human form through the medium of drawing. Students address issues of anatomy, structure, and refinement of drawing skills and technique using a variety of mediums and formats. Prerequisite(s): Completion of ART 121 with a grade of 2.0 or higher.

**ART 240** 5 credits

**Introduction to Printmaking**

HP- This is a beginning studio printmaking course. Students will develop the technical vocabulary and skills to work within the printmaking medium. Printmaking methods surveyed include relief intaglio and monotype. Students will work in multiple and one-of-a-kind editions, exploring theoretical and material arguments for both. Image transfer, tool use, inking, and press operation are emphasized. Group critiques, collaborative projects, and historical, cultural, and contemporary perspectives in printmaking are emphasized. Students learn to be technically proficient in each method while developing their individual conceptual and aesthetic goals. Students are encouraged to experiment with and combine different techniques and processes. Prerequisite(s): Completion of ART 121 with a grade of 2.0 or higher, or instructor permission.

**ASTR& 115** 5 credits

**Stars, Galaxies, and Cosmos**

NS- This course is intended for non-science majors as an introduction to the foundations and current theories of the science of the universe. Black holes, time travel, the Big Bang, dark matter, and teleportation will be among the subjects studied. Through various methods students will assess the human understanding of our Universe and analyze the many models created to explain the creation, existence, and end of our Universe. Emphasis will be placed on contemporary scientific theories to include the theory of relativity, quantum theory, and current observations. This class will cover the material without the use of intensive mathematics. Prerequisite(s): Placement by testing in MATH 085 and completion of ENGL 096 with a grade of 2.0 or higher or placement by testing into ENGL& 101.

**ATMS 101** 5 credits

**The Science of Weather**

GS, NS- This course will explain the nature of weather and climate phenomena by examining the underlying physical and chemical processes that distribute energy and material throughout earth's atmosphere. Students will collaboratively pursue an understanding of pressure systems, fronts, air masses, clouds, storms, and human influences by collection and analysis of real-time and historical data. Basic forecasting, global impacts to and of the atmosphere, and the human role in atmospheric change are common threads throughout the course. Prerequisite(s): Completion of MATH 085 with a grade of 2.0 or higher or placement by testing in MATH 095. (LAB)

**BIOL 120** 5 credits

**Survey of the Kingdoms**

NS, SU- Students will gain an understanding of the vast diversity of living things and their adaptations to their environment from an evolutionary perspective. They will examine the ecological relationships among all life on the planet. Prerequisite(s): Completion of ENGL 090 with a grade of 2.0 or higher or placement by testing in ENGL 096. (LAB)

**BIOL 165** 5 credits

**Life: Origins and Adaptations**

NS- Students will study evolution as an example of a scientific theory developed from scientific methods. They will learn the processes of evolutionary biology, including natural selection, coevolution, and speciation, and examine how these processes have given rise to the adaptations and diversity of life on Earth. Students will apply concepts of evolutionary biology to modern life. Prerequisite(s): Completion of ENGL 090 with a grade of 2.0 or higher or placement by testing in ENGL 096; and co-enrollment with MATH 085 or placement in MATH 095.
BIO& 170 5 credits
Human Biology
NS- This non-lab, non-majors course is an introduction to the systems of the human body. Topics cover the structure and function of human cells, tissues, organs, and organ systems and relationships between these structures to nutrition, health, disease, genetics, and physical fitness. The evolution of humans is also covered. The course is not intended for science or allied health majors. Prerequisite(s): Completion of ENGL 090 with a grade of 2.0 or higher or placement by testing in ENGL 096; and co-enrollment with or completion of MATH 085 with a grade of 2.0 or higher.

BIO& 211 6 credits
Majors Cellular
NS- This course enables students to learn and practice the scientific method as they develop an appreciation of the process of life. They will examine chemical and cellular concepts common to all living things as they pertain to life's maintenance, perpetuation, and evolution. Prerequisite(s): Completion of CHEM& 121 or CHEM& 161 with a grade of 2.0 or higher, or co-enrollment in CHEM& 161. (LAB)

BIO& 212 6 credits
Majors Animal
NS- Students will examine the major taxa of animals relative to their structure and function. They will be able to recognize the phylogenetic relationships among animals as well as the ecological relationships within the kingdom. Prerequisite(s): Completion of BIO& 211 with a grade of 2.0 or higher. (LAB)

BIO& 213 6 credits
Majors Plant
NS- Students will examine the phylogenetic relationships of the major groups of the plant kingdom. They will be able to describe the group's morphology, physiology and ecology as well as the development of ecosystems and the features of terrestrial biomes. They will apply the methods of scientific inquiry to a variety of laboratory problems. Prerequisite(s): Completion of BIO& 211 with a grade of 2.0 or higher. (LAB)

BIO& 231 6 credits
Human Anatomy
NS- This is the first quarter in a three-quarter sequence for pre-nursing majors. It includes a detailed examination of the structure of the human body using models, charts, computer programs, fresh animal specimen dissections, and the dissection of the preserved cat. Topics covered include the following human organ systems: integumentary, skeletal, muscular, lymphatic/immune, respiratory, digestive, nervous, endocrine, cardiovascular, urinary, and reproductive. Prerequisite(s): Co-enrollment or completion of BIO& 211 with a grade of 2.0 or higher; AND completion of CHEM& 121 or CHEM& 161 with a grade of 2.0 or higher, or co-enrollment in CHEM& 161. (LAB)

BIO& 232 6 credits
Human Physiology
NS- This is the second quarter in a three-quarter sequence for pre-nursing majors. It will cover in detail the study of the functioning and interrelationships of the organ systems of the human body using computer software and lab exercises. Topics will include a study of homeostasis, cytokology, feedback mechanisms, and the function and relationship of the following organ systems: integumentary, skeletal, muscular, lymphatic and immune, nervous and special senses, endocrine, circulatory, respiratory, urinary, digestive, and reproductive. Prerequisite(s): Completion of BIO& 211 with a grade of 2.0 or higher; and CHEM& 121 or CHEM& 161 with a grade of 2.0 or higher. (LAB)

BIO& 241 6 credits
Human Anatomy and Physiology I
NS- This is the first course in the two quarter sequence of human anatomy and physiology. It will cover in detail the study of anatomy, function, and interrelationships of the organ systems. The laboratory work will include microscopy, work with anatomical models, animal and organ dissections, experimental studies of physiological processes, and use of computer software. Topics will include the study of the following: histology, integumentary system, skeletal system, muscular system, nervous system and general and special senses. Prerequisite(s): Completion of BIO& 211 with a grade of 2.0 or higher; and CHEM& 121 or CHEM& 161 with a grade of 2.0 or higher. (LAB)

BIO& 242 6 credits
Human Anatomy and Physiology 2
NS- This is the second course in the two quarter sequence of human anatomy and physiology. It will cover in detail the study of anatomy, functions, and interrelationships of the organ systems. The laboratory work will include microscopy, work with anatomical models, animal and organ dissections, experimental studies of physiological processes, and use of computer software. Topics will include the study of the following: cardiovascular, respiratory, urinary and endocrine, reproductive. Prerequisite(s): Completion of BIO& 241 with a grade of 2.0 or higher. (LAB)

BIO& 260 5 credits
Microbiology
NS- This course enables students to learn and practice the scientific method as they develop an appreciation of the diversity and complexity of the microbial world. Students will learn the basic principles of structure and function of prokaryotic and eukaryotic microorganisms, as well as viruses, and how this relates to cellular processes, human disease, evolution, and the environment we live in. In the lab, students will learn standard methods of isolating, assessing, and identifying microorganisms. Prerequisite(s): Completion of BIO& 211 with a grade of 2.0 or higher; and CHEM& 121 or CHEM& 161 with a grade of 2.0 or higher. (LAB)

BUS& 101 5 credits
Introduction to Business
SS- Students explore the role played by business enterprises from an economic and societal perspective, then proceed to explore the management of business organizations, both overall and within each of the essential functions: planning, human resources, marketing, finance, and accounting. Additional topics may include business ethics, business law, entrepreneurship, social responsibility, international business, personal finance, and the social enterprise. As a capstone project, students will work in teams to develop business plans for proposed new business ventures. The course is intended to offer a framework for the further study of business or to provide workplace context. Prerequisite(s): Completion of ENGL 096 with a grade of 2.0 or higher or placement by testing in ENGL 101.

BUS& 201 5 credits
Business Law
SS- This course examines the legal institutions, structures, and processes that impact and regulate business activity in the United States. Students examine law as a system that responds to changing societal beliefs and behavior and through its use adjudicates changing. Legal reasoning, contracts, product liability, and criminal and civil law are areas that will be explored. Prerequisite(s): Completion of ENGL 096 with a grade of 2.0 or higher or placement by testing into ENGL 101.

BUS 480 5 credits
Sustainable Management
This course will help students explore assessing business, management, and leadership in the context of contemporary sustainable technological advances and globalization. Organizations will be examined within their economic, political, and social environment. Organizational development and management strategies will be analyzed in terms of current and future utility. Traditional elements of management such as decision making, strategic planning, organizational behavior, human resources, and conflict management are incorporated in the course. Prerequisite(s): Admission to BAS-SP program: AND completion of ENGL& 235 with a grade of 2.0 or higher. BUS& 101 is recommended, but not required.
BUSINESS & INFORMATION TECHNOLOGY

BIT 100 5 credits
Introduction to Information Technology
RE- This course provides a foundation for students seeking a career in IT. Students will learn the history of IT and assess how it has affected the business world and our society in general. Students will explore the different career paths based on core technologies. Industry leaders of the past and those that are currently shaping the IT industry will be introduced. Emerging technologies will be presented to familiarize students with the scope of the IT industry.
Prerequisite(s): None.

BIT 101 5 credits
Desktop Support Technician
RE- This course focuses on skills required by information technology professionals who support end users and troubleshoot desktop environments. Students will learn the history and fundamentals of computer hardware. Key topics include computer maintenance and troubleshooting skills with an emphasis on desktop support for clients. Students will attain necessary soft skills to educate computer users and help them solve hardware and software operation and application problems on client systems. This course is geared toward the CompTIA A+, Microsoft MCITP Windows 7, Enterprise Desktop Support Technician, and the Microsoft MCTS Windows 7, Configuration industry certifications. Prerequisite(s): Completion of ENGL 090 with a grade of 2.0 or higher or placement by testing in ENGL 096.

BIT 102 5 credits
Networking Fundamentals
RE- This course focuses on the fundamentals of computer networking, providing students with the building blocks of how data travels throughout the twentieth century network technologies. Students will learn how to install, configure, operate, and troubleshoot local area networks and wide area networks. Key topics include core networking concepts, routing and switching technologies with implementation and verification of connectivity to Local Area Network (LAN) and Wide Area Network (WAN) environments. Students will also learn routing protocols and implement network address schemes. This course is geared toward the CompTIA Net+ and the Microsoft MTA Networking Fundamentals industry certifications. Prerequisite(s): Completion of ENGL 090 with a grade of 2.0 or higher or placement by testing in ENGL 096.

BIT 105 2 credits
Careers in Professional Technology
RE- This course provides an overview of careers in the computer field: the types of positions, job functions, salaries, expectations, requirements, skills, and abilities necessary for successful employment. Students assess their career objectives, including a timetable, resources, and steps needed to achieve those objectives. Students also prepare for technical interviews, develop their job search materials, and expand their professional network. This course is suitable for those exploring possibilities in IT as well as those preparing to launch a job search. Prerequisite(s): None.

BIT 112 5 credits
Basics of Web Authoring
RE- Students learn the basics of designing and creating web sites including HTML and CSS, image manipulation, page layout, file transfer, and internet protocols. Students consider website design principles, create several sites, and test them on the web. Special emphasis is placed on using professional software, applying industry standards, and managing multiple projects. Prerequisite(s): Completion of ENGL 090 with a grade of 2.0 or higher or placement by testing in ENGL 096.

BIT 113 5 credits
User Interface Development
RE- Students explore the design and implementation of user interfaces for web sites, mobile apps, and computer applications. Usability testing and advanced web authoring topics are covered as students gain first-hand experience creating computer graphics for a variety of audiences. Emphasis is placed on aesthetics, accessibility, usability, and working in a team setting to meet client objectives and incorporating client feedback into revisions. Prerequisite(s): Core-enrollment with or completion of BIT 112 with a grade of 2.0 or higher or instructor permission.

BIT 115 5 credits
Introduction to Programming
E- This introductory programming class emphasizes problem solving through exploration of computer programming, variable typing and assignment, basic control structures loops, branches, functions, subprograms, and arrays using a language such as JAVA. Students also explore how human culture affects the use of computer programs. Prerequisite(s): Completion of MATH 085 with a grade of 2.0 or higher or placement by testing into MATH 095 or above.

BIT 116 5 credits
Scripting
E- In learning JavaScript, students will apply their programming skills to develop web pages, including loops, conditionals, arrays, and functions. Students are introduced to the JavaScript object model, user-defined objects, event handlers, forms, and cascading style sheets. Prerequisite(s): Completion of BIT 115 with a grade of 2.0 or higher, or instructor permission.

BIT 123 5 credits
Next-Gen Internet Protocol
RE- This course provides students with an overview of the Next Generation (Next-Gen) Internet Protocol version 6 (IPv6). Students will learn design and implementation strategies for logical addressing technologies. The course focuses on IPv6 operations, routing, services, transition, and deployment in enterprise networks. This course is related to the Hurricane Electric IPv6 industry certification. Prerequisite(s): Completion of BIT 102 with a grade of 2.0 or higher; or instructor permission.

BIT 130 5 credits
Server Administration
RE- The role of a network administrator is to manage the overall integrity of the network. This course prepares students to become network administrators of client/server networks. Students will learn how to plan, deliver, operate, and manage servers to increase the reliability and flexibility of network server infrastructures. Key topics include server installation techniques, server roles, server performance management, and server maintenance. This course is geared toward the Microsoft MTA: Windows Server Administration Fundamentals industry certification. Prerequisite(s): Completion of BIT 102 with a grade of 2.0 or higher.

BIT 135 5 credits
Network Infrastructure
RE- With workplace environments progressively characterized by globalization, collaboration, and mobility, IT professionals must design network infrastructures to support a distributed workforce. This course provides students with the knowledge and skills to configure and troubleshoot server network infrastructures. Students will learn to install, configure, operate, and troubleshoot switched networks, including implementation and verification of connections to remote sites in a WAN. Students will gain an understanding of the current network technologies used in client/server IP-enabled networks. Students will also learn how to configure routers, Cisco IOS Software management, routing protocol configuration, TCP/IP, and access control lists (ACLs). Key topics include subnetworking, intermediate routing protocols, command-line interface configuration of switches, Ethernet switching, virtual LANs (VLANs), spanning tree protocol (STP), and Virtual Trunking Protocol (VTP). The course focuses on advanced IP addressing techniques (Network Address Translation [NAT], Port Address Translation [PAT], and DHCP), WAN technology and terminology, PPP, ISDN, DDR, Frame Relay, and network management. Prerequisite(s): Completion of BIT 102 with a grade of 2.0 or higher; or instructor permission.
BIT 140: Implementing Directory Services
RE: Active Directory is an essential entity for system administrators to manage the identities and relationships that make up an organization’s network. This course will teach students how to design an Active Directory Infrastructure in a client/server environment. Students will install and configure directory services and will learn how to design directory forests, domain infrastructure, sites and replication, administrative structures, group policies, and Public Key Infrastructures. Students will also learn how to design for security, high availability, disaster recovery, and migrations. This course is geared toward the Microsoft MCTS: Windows Server 2008 Active Directory Configuration industry certification. Prerequisite(s): Completion of BIT 130 with a grade of 2.0 or higher.

BIT 142: Intermediate Programming
E: This is a first course in computer science using a language such as C#. This course covers variable types, control structures, functions, modular programming, pointers/references/etc., arrays, structures, and an introduction to recursion. The course will introduce basic sorting and searching algorithms. The emphasis of this course will be program design, algorithmic (variables, expressions, statements), and abstraction (data types, functions). Prerequisite(s): Completion of BIT 116 with a grade of 2.0 or higher, or instructor permission; AND completion of MATH 095 or above with a grade of 2.0 or higher or placement into MATH& 141. Date of last math course irrelevant.

BIT 143: Programming Data Structures
E: This course extends the fundamentals covered in Intermediate Programming. The course will cover program specification and design, abstract data types, and classes. Topics will include dynamic arrays, stacks, queues, linked lists, binary trees, and recursion. Taught in C#. Prerequisite(s): Completion of BIT 142 with a grade of 2.0 or higher.

BIT 145: Security Essentials
RE: This course covers a broad spectrum of security technologies. The course emphasizes concepts around Internet Protocol, routing, Domain Name Service, and network device configuration. Students will learn security vulnerabilities and how to implement security measures to analyze an existing network topology. Prerequisite(s): Co-enrollment with or completion of BIT 135 with a grade of 2.0 or higher, or instructor permission.

BIT 156: Beginning Spreadsheet
RE: This one-credit module prepares students to use a spreadsheet application in the classroom and in workplace activities. Students create and format worksheets and workbooks using toolbars, menus, and commands. Prerequisite(s): None.

BIT 157: Advanced Spreadsheet
RE: This one-credit module prepares students to use the advanced functions of a spreadsheet application in the classroom and in workplace activities. The module includes the use of tools such as formulas, logical functions, data functions, and charting to enhance the preparation and presentation of information. Prerequisite(s): None.

BIT 158: Beginning Database
RE: This one-credit module prepares students to use a database application in the classroom and in workplace activities. Students will learn about the extensive uses of databases in the workplace. Using a wizard, they will learn to create and modify a database including tables, forms, and reports. Prerequisite(s): None.

BIT 159: Advanced Database
RE: This one-credit module prepares students to create and use a database application in workplace activities. Students will learn to develop macros, create menus, and manage complex data. Prerequisite(s): None.

BIT 160: Digital Imaging
RE: This one-credit course will prepare students to utilize basic digital imaging tools to acquire and manipulate photographic images and graphic elements. Students will learn basic imaging techniques, enhance photos, apply special effects, and prepare graphics for various computer-based applications. Prerequisite(s): None.

BIT 161: Vector Graphics
RE: This one-credit course will prepare students to utilize vector-based drawing tools for the creation of digital graphics and illustration. Students will learn basic techniques while creating type effects, graphs, and illustrations for computer-based applications. Prerequisite(s): None.

BIT 168: Interactive Authoring
RE: Students design and develop interactive user experiences using current web technologies and represent their work within a personalized web portfolio. Special emphasis is placed on user engagement, interactivity, animation, media, and professional presentation. Peer review provides rich feedback on content, design, and functionality. Prerequisite(s): Co-enrollment with or completion of BIT 112 with a grade of 2.0 or higher or instructor permission.
COURSE DESCRIPTIONS

BIT 205 5 credits  
Virtualization Technologies  
RE: Virtualization is an innovative implementation for developing network infrastructures. This course will provide you with the knowledge and skills to deploy and manage a server virtualization environment with Microsoft technologies. The course provides details on how to deploy and manage Hyper-V and Remote Desktop Services on Windows Server. The course also provides details on how to manage a server virtualization environment by using System Center products such as System Center Virtual Machine Manager, System Center Operations Manager, System Center Data Protection Manager, and System Center Configuration Manager. This course is geared toward the Microsoft MCTS: Windows Server Virtualization and Microsoft MCTS: Desktop Virtualization industry certifications. This course was previously listed as BIT 248.  
Prerequisite(s): Completion of BIT 130 with a grade of 2.0 or higher; or instructor permission.

BIT 215 5 credits  
SharePoint Server Technology Specialist  
RE: SharePoint is a complex enterprise development platform. This course will guide students through the process of implementing Microsoft Office SharePoint applications and customizations into a network. Students will learn techniques for SharePoint deployment, configuration, and troubleshooting of SharePoint network integration. Key topics include managing and maintaining a SharePoint environment, and deploying and managing applications for SharePoint networks. This course is geared toward the Microsoft MCTS: SharePoint 2010, Configuration industry certification.  
Prerequisite(s): Completion of BIT 140 AND BIT 275 with a grade of 2.0 or higher; or instructor permission.

BIT 220 5 credits  
Elements of Project Management  
RE: This course will introduce the basics of project management. Topics include: defining the scope of the project, aligning goals with organizational strategic objectives, identifying milestones, securing resources, scheduling the project, and setting up controls. Best practices of running and documenting the project will be examined and there will be an introduction to the people side of project management.  
Prerequisite(s): Completion of ENGL 090 with a grade of 2.0 or higher, or placement in ENGL 096.

BIT 246 5 credits  
Systems Management  
RE: System Center is an integrated platform for automating and adapting IT Service Management best practices to an organization’s requirements. This course provides students with the knowledge and skills to install and configure System Center Service Manager. Key topics include implementing, configuring, and integrating Service Manager with other System Center products. The course also focuses on how IT processes such as the Microsoft Operations Framework (MOF) and IT Infrastructure Library (ITIL) can be implemented side-by-side with Service Manager. This course is geared toward the Microsoft MCTS: Microsoft System Center Manager 2012, Configuration industry certification.  
Prerequisite(s): Completion of BIT 205 (formerly BIT 248) with a grade of 2.0 or higher; or instructor permission.

BIT 258 5 credits  
Integrating Network Infrastructures  
RE: This course focuses on combining multiple single-purpose networks into a multi-service network, providing a common infrastructure convergence of network technologies. Students will evaluate best practices to enhance the operational efficiencies and productivity of a network. The course will explore details on creating unified and dynamic application infrastructures to create reliable and efficient networks. Students will apply current industry practices for planning and developing network infrastructures working with virtualization and cloud methodologies. This course will utilize communication skills used by IT professionals within team environments. Students will analyze and implement different network infrastructures. Key topics include network documentation, disaster recovery plans, and security implementation into the network infrastructure.  
Prerequisite(s): Completion of BIT 101 and BIT 215 with a grade of 2.0 or higher, AND co-enrollment with or completion of BIT 246 with a grade of 2.0 or higher; OR instructor permission.

BIT 265 5 credits  
Structures and Algorithms  
E: This course teaches the students about the design and analysis of algorithms. Students learn about big O notation, trees, tables, graphs, hashing, and methods of sorting and searching.  
Prerequisite(s): Completion of BIT 143 with a grade of 2.0 or higher.

BIT 271 5 credits  
Mobile Application Design  
RE: Students design a variety of mobile applications for distribution on iOS and Android. Using HTML/CSS, students learn rapid prototyping, and user testing for mobile devices. Apps are developed, exported, and tested on the leading mobile platforms.  
Prerequisite(s): Co-enrollment or completion of BIT 175 with a grade of 2.0 or higher and co-enrollment or completion of BIT 116 with a grade of 2.0 or higher or instructor permission.

BIT 272 5 credits  
Mobile Application Development  
RE: Students develop a custom mobile app as part of a development team working with an actual client. Following rapid prototyping and user testing, students develop apps using programming languages native to mobile OS (iOS and/or Android.) Marketing, monetization, and marketplace distribution are also explored. Emphasis is placed on usability, aesthetics, and the mobile development process.  
Prerequisite(s): Co-enrollment or completion of BIT 271 with a grade of 2.0 or higher; AND co-enrollment or completion of BIT 142 with a grade of 2.0 or higher; or instructor permission.

BIT 275 5 credits  
Database Design  
RE: Students learn the basics of the planning and design of relational databases and the use of the Structured Query Language (SQL). Students gain hands-on experience by creating and testing a complete data model based on a set of client objectives. Topics of study include information design, relational database concepts, data modeling (DML) and data definition (DDL) language syntax, database design process, conceptual vs. physical data modeling, database implementation planning, and project scoping.  
Prerequisite(s): Co-enrollment with or completion of BIT 158 with grades of 2.0 or higher, or instructor permission.

BIT 276 5 credits  
Database Implementation  
RE: This course explores details of the database implementation process including developing logical and physical data models, creating advance queries, writing stored procedures, and database connectivity. Students plan and implement relational database designs based on client objectives within a team setting. Emphasis is given to safeguarding database information from unauthorized access.  
Prerequisite(s): Co-enrollment with or completion of BIT 275 with a grade of 2.0 or higher, or instructor permission.

BIT 280 5 credits  
Web Server Administration  
RE: Students learn the set-up, operation, security, and administration of web servers on multiple platforms. Practical experience is gained in building web servers, troubleshooting connections, and securing and managing services. Students investigate current web and database server technologies, install and configure servers on multiple operating systems, and research different commercial hosting options and hosted solutions like Azure, Amazon, and Google Cloud.  
Prerequisite(s): Co-enrollment or completion of BIT 112 with a grade of 2.0 or higher, or instructor permission.
BIT 285  5 credits  Application Programming  
RE- Students learn the foundations of web application frameworks, design patterns, and application programming interfaces (APIs). Students develop, test, and debug sample applications. Topics of object-oriented program design and code reusability are examined. Practical, hands-on experience is gained as the students work with particular application frameworks such as Java and ASP.NET on cloud platforms like Azure, Amazon, and Google Cloud. Prerequisite(s): Completion of BIT 112 with a grade of 2.0 or higher, and completion of BIT 142 with a grade of 2.0 or higher.

BIT 286  5 credits  Web Applications  
RE- Students gain practical experience in designing and managing E-Business web applications as they work in teams to create database-driven web sites. Topics of study will include utilization of .NET and/or JSEE framework via C# and/or Java, advanced database integration with SQL stored procedures, server-side scripting, and server security. Special attention will also be paid to managing commercial transactions in a secure manner. Students will work in teams and with outside sources to implement their final E-Business solutions. Prerequisite(s): Completion of BIT 285 or BIT 260 with a grade of 2.0 or higher, or instructor permission.

BIT 296  1-5 credits  BIT Individualized Project II  
RE- Students will research and produce or perform a project in Business and Information Technology or an interdisciplinary topic emphasizing Business and Information Technology in some way. The content, learning outcomes, and assessment methods of the project are developed by the supervising instructor and student(s). Prerequisite(s): Instructor permission.

BIT 297  1-5 credits  BIT Work-Based Learning II  
RE- The student will identify a paid internship or related employment opportunity that matches both the outcomes of the students program and their interests. This course is normally taken in the final year of a program and should give the student experience that will assist them to find appropriate employment. Together with an instructor, the student will complete a written contract that specifies the learning outcomes as well as defines the duration of the course and the credits to be granted upon successful completion. This course uses P/NP grading. Prerequisite(s): Instructor permission.

BIT 298  1-5 credits  Special Topics in BIT II  
RE- The course permits an individual student or a class of students to investigate current and relevant topics in Business and Information Technology. The content, format, and delivery vary depending upon the topics. Prerequisite(s): Instructor permission.

BIT 299  1-5 credits  Service Learning in BIT II  
RE- Service learning provides a mechanism to combine academic studies with community service. In concert with a faculty advisor and community agency representative, students develop and apply scientific skills and expertise in a community setting. The student will be involved in defining the project scope and will be required to travel off-campus to the service site. This course uses P/NP grading. Prerequisite(s): Instructor permission.

BIT 435  5 credits  Data Science and Visualization  
This course introduces the basic techniques of data science, including data storage and management, machine learning and data mining, basic statistical modeling, and data visualization to create graphical representations that can be analyzed and presented to reveal complex information, generate insights and spur action. The course will focus on a project-based, team process for using a variety of data models to predict trends, make assessments, and transform data into attractive and informative visual forms that move understanding into action. The course will also review current computing advancements spurring the development of data science, such as SQL and NoSQL databases, parallel and mobile computing, and online APIs. Prerequisite(s): Completion of SUPR 410 with a grade of 2.0 or higher; and completion of BIT 158 with a grade of 2.0 or higher; OR placement into MATH & 141. (LAB)

CHEM 101  5 credits  Introduction to Chemistry  
NS- From consumer products to space age technologies, chemistry affects our daily lives. In this course, students will learn the structure of matter and how it behaves under various conditions in order to better understand the chemical world. Designed for students with little or no chemistry background, this course can stand alone or be followed by CHEM & 131; not intended for students continuing to CHEM & 161. Laboratory activities extend lecture concepts and introduce the student to the experimental process. Prerequisite(s): Completion of one of the following: MATH 095, MATH & 107, MATH & 146, MATH & 171, MATH & 172, MATH & 173 with a grade of 2.0 or higher; OR placement into MATH & 141. (LAB)

CHEM 131  5 credits  Introduction to Organic Chemistry & Biochemistry  
NS- An entire field of chemistry is dedicated to the unique bonding characteristics and properties of compounds of carbon. Students will learn the structure, properties, and reactions of various organic compounds, including hydrocarbons, alcohols, aldehydes, ketones, carboxylic acids, and amines. Students will use this information as foundation for examining complex compounds found in living systems: carbohydrates, lipids, proteins, and nucleic acids. Laboratory activities extend lecture concepts and introduce the student to analysis and separation techniques. Prerequisite(s): Completion of CHEM & 121 or CHEM & 161 with a grade of 2.0 or higher. (LAB)

CHEM 139  5 credits  General Chemistry Preparation  
NS- This course is designed for students who need to enroll in the general chemistry sequence who have little or no prior experience in chemistry. Students will learn the symbolism and language of chemistry, quantitative relationships that are practiced in general chemistry, and techniques of quantitative and collaborative problem solving. Satisfies the chemistry prerequisite for CHEM & 161. Although laboratory concepts are introduced, this course does not satisfy a laboratory science requirement. NOTE: This course is intended for students who have not completed one year of chemistry at the high school level and who plan to enroll in the CHEM & 161, CHEM & 162, CHEM & 163 sequence. Prerequisite(s): Completion of MATH 095 with a grade of 2.0 or higher.
CHEM& 161 6 credits
General Chemistry with Lab I
NS- In this first in a three-quarter sequence for science and engineering majors, students explore structure and behavior of matter, chemical and physical properties and processes, mass and energy relationships, and history in chemistry to understand the scientific method. Laboratory extends content, emphasizes safety and critical thinking about experimental uncertainty. Prerequisite(s): Completion of CHEM& 139 with a grade of 2.0 or higher or one year of high school chemistry; and completion of MATH& 141 or MATH 147 with a grade of 2.0 or higher. (LAB)

CHEM& 162 6 credits
General Chemistry with Lab II
NS- In this second in a three-quarter sequence for science and engineering majors, students explore bonding, molecular shapes, intermolecular forces, and the behaviors of solids, liquids, gases, and solutions. Entropy and Free Energy are used to understand spontaneous chemical processes. Laboratory extends content, emphasizing critical thinking, and safety. Prerequisite(s): Completion of CHEM& 161 with a grade of 2.0 or higher. (LAB)

CHEM& 163 6 credits
General Chemistry with Lab III
NS- In this third in a three-quarter sequence for science and engineering majors, students use equilibrium, kinetics, and thermodynamics with applications in acid-base chemistry and electrochemical cells. Concepts and applications in nuclear and biochemistry are introduced. Laboratory extends content, emphasizing experimental design, analysis, project activity, communication of results, and safety. Prerequisite(s): Completion of CHEM& 162 with a grade of 2.0 or higher. (LAB)

CHEM& 241 4 credits
Organic Chemistry I
NS- This course is an introduction to the chemistry of carbon-containing compounds for students taking three quarters of organic chemistry. Students will learn the identification, structure, and properties of the main types of organic compounds. Students will also develop an understanding of the chemical reactivity of hydrocarbons and alkyl halides using mechanistic approaches. Prerequisite(s): completion of CHEM& 163 with a grade of 2.0 or higher.

CHEM& 242 4 credits
Organic Chemistry II
NS- This is the second course for students planning to take three quarters of organic chemistry. Students develop a greater understanding of organic structure and transformation, especially of aromatic and carbonyl compounds. Concurrent enrollment in the lab component is required. Prerequisite(s): Completion of CHEM& 241 with a grade of 2.0 or higher; and co-enrollment in CHEM 254.

CHEM& 243 4 credits
Organic Chemistry III
NS- This is the third course for students planning to take three quarters of organic chemistry. Students use a mechanistic approach to understanding and predicting transformations of carboxylic acids, amines, carbohydrates, lipids, proteins and nucleic acids. Concurrent enrollment in the lab component (CHEM 255) is required. Prerequisite(s): Completion of CHEM& 242 and CHEM 254 with grades of 2.0 or higher; and co-enrollment in CHEM 255.

CHEM 254 3 credits
Organic Chemistry Lab A
NS- This course introduces the student to the theory and practice of standard organic laboratory techniques, including preparation, purification, and analysis of representative compounds. Laboratory activities illustrate lecture concepts and must be taken concurrently with CHEM& 242. Prerequisite(s): Completion of CHEM& 241 with a grade of 2.0 or higher; and co-enrollment in CHEM& 242. (LAB)

CHEM 255 3 credits
Organic Chemistry Lab B
NS- This course is a continuation of CHEM 254 in which students perform advanced organic reactions and identify unknown compounds. Laboratory activities illustrate lecture concepts and must be taken concurrently with CHEM& 243. Prerequisite(s): Completion of CHEM& 242 and CHEM 254 with grades of 2.0 or higher; and co-enrollment in CHEM& 243. (LAB)

CHIN& 121 5 credits
Chinese I
H- In this course students begin to communicate in Mandarin Chinese by acquiring basic vocabulary and skills in grammar, pronunciation, and the Pinyin (Romanized) writing system. Students also begin to develop an understanding of the culture, art, music, and literature of the Chinese-speaking world. Prerequisite(s): Completion of ENGL 090 with a grade of 2.0 or higher or placement by testing into ENGL 096.

CHIN& 122 5 credits
Chinese II
H- In this course students improve their communication abilities in Mandarin Chinese by expanding their vocabulary and grammar and pronunciation skills. Students also increase their understanding of Chinese cultures and communication behaviors. Prerequisite(s): Completion of CHIN& 121 with a grade of 2.0 or higher or placement into CHIN& 122.

CHIN& 123 5 credits
Chinese III
H- In this course continuing the work of CHIN& 122, students further improve their communication abilities in Mandarin Chinese by expanding their vocabulary and grammar and pronunciation skills. Students continue to increase their understanding of Chinese cultures and communication behaviors. Prerequisite(s): Completion of CHIN& 122 with a grade of 2.0 or higher or placement into CHIN& 123.

COLL 100 5 credits
Study Strategies
RE- Success in college is the theme and content of this course. This focused course introduces learners to the study skills, attitudes, and coping strategies that lead to success in college. This course must be taken within the first 30 credits earned at Cascadia Community College. Prerequisite(s): Co-enrollment with ENGL 090 or MATH 095.

COLL 101 5 credits
College Strategies
RE- This course introduces students to Cascadia's collaborative and integrated learning model, provides a lens for establishing ownership and control over their education, and contextualizes active learning in their everyday lives. Students will be introduced to the culture and politics of higher education, as well as to intersecting, particular, and disparate ways of knowing, making meaning, and reasoning within different academic disciplines. Students will discuss the role of productive struggle, critical thinking, collaboration, persistence, and time management in academic success. Additionally, this class will connect students to the variety of library, technological, health, wellness, and safety, and co-curricular resources available at Cascadia to help them plan and implement their educational program. This course may be linked with another course in order to integrate these skills within a disciplinary context. NOTE: Students are expected to take this course within the first 30 credits earned at Cascadia College. Prerequisite(s): Completion of ENGL 090 with a grade of 2.0 or higher or placement by testing in ENGL 096.

COLL 120 3 credits
Documentation of Prior Learning
RE- Students in this course will learn to gather and assess evidence that documents college-level learning experiences gained outside of the traditional classroom. In doing so, they will acquire the analytical skills needed to organize and synthesize evidence of outside learning and will be able to identify significant experiences, demonstrate this learning, and compose self-reflective narratives documenting learning, knowledge, and skills. Learners will be prepared to meet for subject-specific consultation with discipline experts who will evaluate their documentation for course equivalencies. Prerequisite(s): None.
COMMUNICATIONS STUDIES

CMST& 101 5 credits
Introduction to Communication
H- Students will explore the theory and practice of communication skills and strategies. Students will improve their ability to communicate formally and informally at home, work, and school by practicing communication abilities in interpersonal, group, and public contexts. Emphasis is placed on developing and maintaining competencies in verbal and nonverbal communication, perception of self and others, listening, interpersonal communication and conflict management, small group communication dynamics, and presentational speaking. Students will also learn to deliver effective formal presentations, within small group and public settings. Prerequisite(s): Completion of ENGL 096 with a grade of 2.0 or higher or placement by testing in ENGL 101.

CMST 103 3 credits
Interviewing Skills
H- In this course, students will focus on the principles of interviewing. The interview process is a highly specialized form of Interpersonal Communication. Students will engage in practicing and applying specific skills including, but not limited to limited, the use of both verbal and nonverbal communication, and the creation of résumé, cover letters, and personal statements. Moreover, students in the course will conduct and engage in mock interviews and develop interviewing skills and strategies based on a variety of settings including: work, job placement, internships, community activities, and college enrollment. Prerequisite(s): Completion of ENGL 096 with a grade of 2.0 or higher or placement in ENGL 096.

CMST 105 5 credits
Communication in Organizations
H- Students will explore the theory and practice of individual and group communication skills and strategies in organizations, such as professionalism, presentation speaking, teamwork, and collaborative problem-solving and decision-making. Emphasis is placed on developing and maintaining competencies in interpersonal, group, and organizational communication. Students will also work in collaboration with organizations on and/or off campus. Prerequisite(s): Completion of ENGL 096 with a grade of 2.0 or higher or placement by testing into ENGL 101.

CMST 110 5 credits
Digital Media, Culture, and Communications
H- In this course, students become better consumers of information through an understanding of the media's history and cultural, economic, and social impacts. Students will learn how the internet, television, radio, film, and print media affect private and public life. They will be able to critically analyze the news and information flowing around them. Students will explore the legal, ethical, economics, and commercial dimensions of mass communications, including First Amendment issues and career possibilities. Prerequisite(s): Completion of ENGL 096 with a grade of 2.0 or higher or by testing into ENGL 101.

CMST& 210 5 credits
Interpersonal Communication
H- In this course, students explore, analyze, and apply practical communication techniques and skills for developing and maintaining healthy family, friend, romantic, work, and leadership relationships. Students will examine and apply interpersonal communication theoretical models and skills emphasizing personal identity and communication behaviors in diverse environments, relationships development, and conflict management competency. Prerequisite(s): Completion of ENGL 096 with a grade of 2.0 or higher or by testing into ENGL 101.

CMST 211 5 credits
World Cinema
CKR, GS, H- In this course, students learn about world cinema by watching and analyzing films. Students use the knowledge of production from historical, commercial, political, cultural, and artistic perspectives to interpret and analyze films from their own cultural frame of reference. Students will write formal and informal essays in response to the films viewed and learn about diverse conditions and global systems as they relate to world cinema. Prerequisite(s): Completion of ENGL 096 with a grade of 2.0 or higher or placement by testing in ENGL 101.

CMST& 220 5 credits
Public Speaking
GS, H- In this course, students learn to analyze audience and purpose in order to choose topics, organize, develop and deliver various styles of public and presentational speeches on local and global issues. Students will prepare and practice speeches that are recorded for evaluation and improvement throughout the course. Students will also gain critical listening skills and persuasive abilities. Prerequisite(s): Completion of ENGL 096 with a grade of 2.0 or higher or by testing into ENGL 101.

CMST& 230 5 credits
Small Group Communication-Leadership Dynamics
H- This course helps students improve their ability to communicate in a wide variety of group situations at home, work, and school. Students will be able to analyze their own and others’ communication effectiveness and to apply problem-solving and conflict resolution techniques. Students will work in simulated committees, project groups, research teams, fishbowls, and other group settings to practice and evaluate their skills in communication. Prerequisite(s): Co-enrollment or completion of ENGL 101 with a grade of 2.0 or higher.
CMST 233 5 credits
Global Media
CKR, GS, H- In this course, students learn how to effectively implement media literacy strategies and techniques for consuming and analyzing specific global media systems messages and images. Students will be able to critically analyze global news events and information flowing through specific media technologies and services. Moreover, students will compare and contrast U.S. media systems with those media systems from other cultures/countries by examining legal, ethical, economic, and the commercial dimensions of mass communication. Prerequisite(s): Completion of ENGL 096 with a grade of 2.0 or higher or placement by testing in ENGL& 101.

CMST 243 5 credits
Media Law and Ethics
H- The internet raises difficult ethical and legal questions about privacy, freedom of speech, access to information, rights and responsibilities of users, and so on. In this course, students will learn to examine and analyze complex legal and ethical situations on the internet and in other mass media in order to better consumers of media information. To do so, they will study models for ethical decision-making and the history and process of media law. Prerequisite(s): Completion of ENGL 096 with a grade of 2.0 or higher or placement by testing into ENGL& 101.

CMST 251 5 credits
Intercultural Communication
CKR, GS, H- Students identify the effects of culture on communication in the global context, by investigating underlying values, rules, worldviews and the systems of power, and inequality of different international cultures. They explore culture-specific verbal and nonverbal communication patterns, and conflict negotiation strategies. Students learn key issues of cultural influence on the construction of communication messages in specific settings within the global context, such as business and education, and create and demonstrate communication strategies for intercultural communication competence. Prerequisite(s): Completion of ENGL096 with grade of 2.0 or higher or placement by testing in ENGL& 101.

CMST 340 5 credits
Public, Civic, and Community Advocacy
Students learn how to develop and support arguments, evaluate and critically review evidence and practice oral debating skills. Emphasis is placed on introducing students to the practical application of analytical skills and competencies in framing and shaping public discourse. Coursework includes in-class activities and exercises that promote the use of both argumentation and negotiating skills in managing communication problems and challenges. Community based learning projects offer students the opportunity to collaborate with local community stakeholders and members in sharing and promoting active and ethical practices for engaging in public and civic discourse. Prerequisite(s): Admission to BAS-SP program; OR instructor permission.

DRAMA

DRMA 101 5 credits
Introduction to Theatre
CKR, GS, H- Introduction to Theatre introduces students to the practices and history of contemporary American theater, and its global historical and cultural precedents and influences. Students will read plays and other materials, attend productions, and analyze and discuss these course materials. The course also includes multiple creative projects to give students hands-on experiences of creating theater. After successful completion of this course, students will be equipped to analyze and discuss theater and other performance genres as informed audience members, readers, and/or participants, and will produce thoughtful commentary on productions they see and plays they read. Central to the course is an analysis of the ways in which American drama has been produced and reproduced as well as disrupted and commented on dominant systems of power, privilege, and inequality. Drama 101 is appropriate for students with all levels of experience, from those who have never attended a live performance to those with performance or production experience. Prerequisite(s): Completion of ENGL 080 with a grade of 2.0 or higher or placement by testing in ENGL090.

DRMA 103 5 credits
Theater Appreciation
CKR, GS, H- The primary material in this course will be several theater productions in the greater Puget Sound area, which students will attend either on their own or in groups. Through these experiences, students will examine theatrical storytelling and performance, including design elements and production choices, scenic and costume designs, use of light and sound, and directorial and dramaturgical decisions. The coursework will require students to consider cultural difference and intersections, grapple with the relationship between art and culture, and examine the social, political, economic, and historical contexts of how stories are told, including systems of power, privilege, inequality and identity. The goal of this work is to develop critical thinking about the role and effects of theater, and about students’ own responses to these performances. In lieu of textbooks, this course will require several out of class field trips, which will require the purchase of student tickets. Prerequisite(s): Completion of ENGL 080 with a grade of 2.0 or higher or placement by testing in ENGL 090.

DRMA 151 5 credits
Introduction to Acting
HP- This course focuses on the theory and practice of the fundamentals of acting primarily through rehearsing and performing scenes and monologues and through other acting work. Students learn techniques to strengthen vocal, physical, and emotional awareness and response while studying the foundational theories of acting. They particularly develop a deep understanding of the elements of characterization in relation to cultural, historical, and economic background. Prerequisite(s): Completion of ENGL 090 with a grade of 2.0 or higher or placement by testing in ENGL 096.

ECONOMICS

ECON 151 5 credits
Introduction to the Global Economy
GS, SS- The course will cover the development of modern capitalist culture, from the roots of money and debt culture to the social construction of the consumer, laborer, corporation, and nation-state. Students will explore both the benefits of capitalist culture and the links between the spread of capitalist culture and various global concerns, including climate change, the destruction of indigenous culture, war and terrorism, poverty and global health issues. Students will look at various forms of resistance to capitalist culture- from labor movements to environmental activism. And finally students will consider some solutions to the problems created by global capitalism. Prerequisite(s): Completion of ENGL 090 with a grade of 2.0 or higher, or placement into ENGL 096.
**COURSE DESCRIPTIONS**

**DESIGNATION KEY FOR DISTRIBUTION AREAS:**
CKR = Cultural Knowledge, E = Elective, GS = Global Studies, H = Humanities, HP = Humanities Performance, NS = Natural Science, Q = Quantitative Reasoning, RE = Restricted Elective, SS = Social Science, SU = Sustainability

---

**ECON 201** 5 credits
**Microeconomics**
GS, SS - This course examines the market system and the role of government in the economy. Students learn to analyze resource and income distribution, assess consumer and business behavior, and evaluate price determination and production cost. Students will also be able to identify the economic and socio-political forces that impact consumer demand, business production, and exchange within both domestic and international markets.

**Prerequisite(s):** Completion of MATH 095 with a grade of 2.0 or higher or placement by testing into MATH& 141 or MATH 147; AND completion of ENGL 096 with a grade of 2.0 or higher or placement into ENGL& 101.

---

**ECON 202** 5 credits
**Macroeconomics**
GS, SS - This is an introductory course in principles of macroeconomics. Macroeconomics studies aggregate economic phenomena such as inflation, economic growth and recession, and unemployment, and addresses issues related to economic growth and the role of government policies in maintaining a healthy, prosperous economy. The goal of the course is to enable students to think about aggregate economic issues in an insightful manner, and to critically evaluate the economic information and analysis provided in popular news publications.

**Prerequisite(s):** Completion of ECON& 201 with a grade of 2.0 or higher; AND MATH 095 with a grade of 2.0 or higher or placement by testing into MATH& 141 or MATH 147; AND completion of ENGL 096 with a grade of 2.0 or higher or placement into ENGL& 101.

---

**ECON 220** 5 credits
**Economics of Energy**
GS, SS - This course examines energy issues that pertain to the environment, applying economics to issues of energy markets, environmental impacts, investment in renewables, and other energy issues such as transportation and conservation. Students will review the economics behind particular energy-related issues and then apply that knowledge by analyzing related articles and domestic and international case studies.

**Prerequisite(s):** Completion of ECON& 201 or MATH 095 with a grade of 2.0 or higher or placement by testing into MATH& 141 or MATH 147; AND completion of ENGL 096 with a grade of 2.0 or higher or placement by testing into ENGL& 101.

---

**ECON 460** 5 credits
**Economics of Natural Resources**
This course is a survey of the economics of renewable and nonrenewable natural resources including fisheries, forest, minerals and fuels, environmental resources such as clean air and water, and ecological resources such as biodiversity and a stable global climate. Students will analyze these topics by considering optimal trade-offs between benefits and costs of resource use, including trade-offs between current and future use and sustainability. The role of property rights on resource use, market failure and the role of government are covered.

**Prerequisite(s):** Admission to BAS-SP program OR instructor permission.

---

**EDUC 102** 5 credits
**Field Experience in Education**
SS, RE - This course is designed to be an introduction to the teaching profession through an intensive internship experience, with a lecture/discussion component. It includes both theoretical and practical aspects of learning and teaching. Students will have an opportunity to assess their own interest in teaching as a career, gain an overview of issues that affect teachers from preschool through high school, and have the opportunity to interrogate their prior beliefs and assumptions about education. This course fulfills the Cascadia Integrated Learning requirement, based on a substantial community based learning component.

**Prerequisite(s):** None.

---

**EDUC 205** 5 credits
**Introduction to Education**
SS - In this course students will explore the aims of education and the organization and structure of the teaching profession. Students will learn about the historical, philosophical, and psychological foundations of education (primarily, but not entirely, from a North American perspective). We will analyze current trends in education to provide background on issues that affect today's teachers from preschool through high school. Students will be required to complete 15 hours of community based learning experience in an educational setting and submit documentation from the field site supervisor. The field site may require a background check. This course will fulfill the integrated learning requirement.

**Prerequisite(s):** Completion of ENGL 090 with a grade of 2.0 or higher or placement by testing in ENGL& 101, and completion of COLL 100 or COLL 101 with a grade of 2.0 or higher.

---

**ENGLISH FOUNDATIONS**

**ABE 001** 1-4 credits
**EFUND/MFUND/GED Educational Interview**
This EFUND/MFUND/GED Prep orientation course introduces new students to Cascadia Community College, provides intake assessment, determines program placement, and begins each student's educational planning process. New students must complete this class prior to enrollment in EFUND/MFUND/GED Prep classes.

**NOTE:** Credits for this course are not transferable, nor do they apply to any college degree or certificate.

**Prerequisite(s):** None.

---

**EFUND 020** 1-10 credits
**English Fundamentals 2**
This course develops basic reading and writing skills for communication. Students will learn to read and write words, phrases, sentences, and short paragraphs that relate to personal goals.

**NOTE:** Credits for this course are not transferable, nor do they apply to any college degree or certificate.

**Prerequisite(s):** Successful completion of EFUND 010 or placement by testing in EFUND 020.

---

**EFUND 030** 1-10 credits
**English Fundamentals 3**
This course introduces intermediate reading and writing skills for communication. Students will read short texts and write paragraphs related to personal goals. Students will begin to use the writing process for written work.

**NOTE:** Credits for this course are not transferable, nor do they apply to any college degree or certificate.

**Prerequisite(s):** Completion of EFUND 020 or placement by testing in EFUND 030.

---

**EFUND 038** 1-10 credits
**Transition and Career Exploration 3**
EFUND 038 learners are introduced to intermediate reading and writing skills through career exploration and educational planning.

**NOTE:** Credits for this course are not transferable, nor do they apply to any college degree or certificate.

**Prerequisite(s):** Successful completion of ESL 040 or EFUND 020 or placement by testing in ESL050 or EFUND 030.

---

**EFUND 040** 1-10 credits
**English Fundamentals 4**
This course develops intermediate reading and writing skills for communication. Students will read and write a variety of texts that relate to their personal goals and other topics. Students will use the writing process to develop written work.

**NOTE:** Credits for this course are not transferable, nor do they apply to any college degree or certificate.

**Prerequisite(s):** Completion of EFUND 030 or placement by testing in EFUND 040.

---

**EFUND 048** 1-10 credits
**Transition and Career Exploration 4**
EFUND 048 learners develop intermediate reading and writing skills through career exploration and educational planning.

**NOTE:** Credits for this course are not transferable, nor do they apply to any college degree or certificate.

**Prerequisite(s):** Successful completion of ESL 050 or EFUND 030 or placement by testing in ESL 060 or EFUND 040.

---

**EFUND 050** 1-10 credits
**English Fundamentals 5**
This course prepares students to take the GED examination. Students will learn to apply reading skills to GED content areas, be introduced to test-taking strategies, and use the writing process to create essays.

**NOTE:** Credits for this course are not transferable, nor do they apply to any college degree or certificate.

**Prerequisite(s):** Placement by testing in EFUND 050.
EFUND 060 1-10 credits
English Fundamentals 6
This course prepares students to take the GED examination. Students will learn to apply reading skills to GED content areas, develop test-taking strategies, and use the writing process to create essays. **NOTE:** Credits for this course are not transferable, nor do they apply to any college degree or certificate. **Prerequisite(s):** Placement by testing in EFUND 060.

EFUND 061 1-10 credits
English Fundamentals - Washington State History
This course prepares students to either take the high school equivalency examination in Language Arts Reading and Social Studies, or earn high school completion credits in English and Washington State History. Students will gain practice reading primary and scholarly documents and interpreting these within both a historical and contemporary context. In addition, students will prepare short, academic papers which require critical thinking skills and will be assessed based upon interpretation of facts as well as writing mechanics, grammar, spelling and vocabulary. Students will also build public speaking skills by participating in team debates and speech/presentation preparation. **Prerequisite(s):** Placement by Basic Education for Adults staff or faculty.

EFUND 062 1-10 credits
English Fundamentals - United States History
This course prepares students to either take the high school equivalency examination in Language Arts Reading and Social Studies, or earn high school completion credits in English and United States History. Students will gain practice reading primary and scholarly documents and interpreting these within both a historical and contemporary context. In addition, students will prepare short, academic papers which require critical thinking skills and will be assessed based upon interpretation of facts as well as writing mechanics, grammar, spelling and vocabulary. Students will also build public speaking skills by participating in team debates and speech/presentation preparation. **Prerequisite(s):** Placement by Basic Education for Adults staff or faculty.

EFUND 063 1-10 credits
English Fundamentals - Contemporary Issues & Problems
This course prepares students to either take the high school equivalency examination in Language Arts Reading and Social Studies, or earn high school completion credits in English and Contemporary Issues. Students will gain practice reading primary and scholarly documents and interpreting these within both a historical and contemporary context. In addition, students will prepare short, academic papers which require critical thinking skills and will be assessed based upon interpretation of facts as well as writing mechanics, grammar, spelling and vocabulary. Students will also build public speaking skills by participating in team debates and speech/presentation preparation. Lastly, students will acquire a rudimentary knowledge of ancient and modern geography as it pertains to the movement of borders and country boundaries. **Prerequisite(s):** Placement by Basic Education for Adults staff or faculty.

EFUND 064 1-10 credits
English Fundamentals - Civics and Government
This course prepares students to either take the high school equivalency examination in Language Arts Reading and Social Studies, or earn high school completion credits in English and Civics/Government. Students will work individually or in small groups to analyze and interpret documents and films related to the United States Constitution, the Bill of Rights, and the branches of the United States government. Students will build their vocabularies and general knowledge of American civic life through class discussions and weekly quizzes. **Prerequisite(s):** Placement by Basic Education for Adults staff or faculty.

EFUND 065 1-10 credits
English Fundamentals - Environmental Science
This course prepares students to either take the high school equivalency examination in Language Arts Reading and Science, or earn high school completion credits in English and science. Students will be introduced to concepts and practices that are common to the field of environmental science, especially as seen through the lens of sustainability, and will gain practice in critical and analytical reading, writing, and thinking skills using materials from the field of environmental science. Additionally, students will build public speaking skills by researching and preparing short presentations in collaboration with fellow classmates. **Prerequisite(s):** Placement by Basic Education for Adults staff or faculty.

EFUND 066 1-10 credits
English Fundamentals - General Science
This course prepares students to either take the high school equivalency examination in Language Arts Reading and science, or earn high school completion credits in English and science. Students will acquire a vocabulary which includes a broad range of terms from the fields of earth science, biology, chemistry, and environmental studies. Students will gain practice in reading academic articles pertaining to these fields and will analyze, compare, and synthesize scientific theories in short, academic papers that will be graded on critical thinking skills, as well as the mechanics of grammar, spelling, and punctuation. In addition, students will become familiar with the scientific theory and method as a means to compose their own experiments. **Prerequisite(s):** Placement by Basic Education for Adults staff or faculty.

EFUND 067 1-10 credits
English Fundamentals - Fine Arts
This course prepares students to either take the high school equivalency examination in Language Arts Reading, or earn high school completion credits in English and Fine Arts. Students will gain practice reading scholarly, historic documents, as well as contemporary interpretations of iconic artistic and architectural works. Students will analyze and critique works of art within a cultural context and draw comparisons based upon personal observations and evaluations. In addition, students will prepare short, academic papers which require critical thinking skills and will be assessed based upon interpretation of facts as well as writing mechanics, grammar, spelling and vocabulary. Students will also build public speaking skills by participating in speech/presentation preparation. **Prerequisite(s):** Placement by Basic Education for Adults staff or faculty.

ESL 001 1-4 credits
ESL Educational Interview
This ESL orientation course introduces new students to Cascadia Community College, provides intake assessment, determines program placement, and begins each student’s educational planning process. New students must attend this class prior to enrollment in ESL classes. **NOTE:** Credits for this course are not transferable, nor do they apply to any college degree or certificate. **Prerequisite(s):** None.

ESL 010 1-18 credits
ESL Communication 1
This course introduces basic English communication concepts. Exit goals are knowledge of the alphabet and numeric symbols, copying information into simple forms, sight, and hearing recognition of survival words, and responding to verbal yes/no questions. Expressional goals are forming letters and numbers from memory, copying correctly, and writing own name and address and writing simple sentences. Applications include applying ideas from read and spoken material to daily life, completing simple forms and responding to warning words like “poison,” “stop,” etc. **NOTE:** Credits for this course are not transferable, nor do they apply to any college degree or certificate. **Prerequisite(s):** Placement by testing in ESL 010.
ESL Communication 2
ESL 020 1-18 credits
ESL students progress from survival level to increasing flexibility in an English-speaking environment. Learners read, listen, and respond to simple written requests and “w” questions. Students learn to use present, present progressive and future tenses, and accurately write simple words, which follow regular spelling conventions of English. Practical skills include time, simple directions and schedules, signs and maps, and vocabulary and phrases. **NOTE:** Credits for this course are not transferable, nor do they apply to any college degree or certificate. **Prerequisite(s):** Successful completion of ESL 010 or placement by testing in ESL 020.

ESL Communication 3
ESL 030 1-18 credits
Learners build listening, reading, writing, and speaking abilities. They will develop clarity and appropriate form in speaking and writing for a variety of life situations. **NOTE:** Credits for this course are not transferable, nor do they apply to any college degree or certificate. **Prerequisite(s):** Successful completion of ESL 020 or placement by testing in ESL 030.

ESL Communication 4
ESL 040 1-18 credits
Learners will determine purpose in reading/listening and comprehension, adjust their reading strategies, analyze underlying meaning, and integrate new knowledge with prior knowledge. Also refine writing processes with attention to detail and develop the ability to write longer, connected documents. **NOTE:** Credits for this course are not transferable, nor do they apply to any college degree or certificate. **Prerequisite(s):** Successful completion of ESL 030 or placement by testing in ESL 040.

ESL Communication 5
ESL 050 1-18 credits
This course builds advanced communication concepts. Listening, observing, speaking, reading, and writing are combined in a holistic approach to language acquisition for everyday use on the job, at home and in the community. Learners are exposed to language in various contexts and learn through discussion, presentation, and individual and group projects. Use of computer technology is interwoven with language acquisition. **NOTE:** Credits for this course are not transferable, nor do they apply to any college degree or certificate. **Prerequisite(s):** Successful completion of ESL 040 or placement by testing in ESL 050.

ESL Communication 6
ESL 060 1-18 credits
This course enhances advanced communication concepts. Listening, observing, speaking, reading, and writing are combined in a holistic approach to language acquisition for everyday use on the job, at home, and in the community. Learners are exposed to language in various contexts and learn through discussion, presentation, and individual and group projects. Use of computer technology is interwoven with language acquisition. **NOTE:** Credits for this course are not transferable, nor do they apply to any college degree or certificate. **Prerequisite(s):** Successful completion of ESL 050 or placement by testing in ESL 060.

ESLVN Communication 4 - Office Skills
ESLVN 040 1-15 credits
This course introduces intermediate business communication skills. Listening, observing, speaking, reading, and writing English competencies are combined in a holistic approach to language acquisition for business and office use. ESL Learners are exposed to language in various workplace contexts, and practice teamwork and collaboration skills with others through classroom assignments. Students will learn presentation and communication skills for the office environment. Computer use will be required to complete some assignments. **Prerequisite(s):** Successful completion of ESL 030 or placement by testing in ESL 040.

ESLVN Communication 5 - Office Skills
ESLVN 050 1-15 credits
This course develops high-intermediate business communication skills. Listening, observing, speaking, reading, and writing English competencies are combined in a holistic approach to language acquisition for business and office use. ESL Learners are exposed to language in various workplace contexts, and practice teamwork and collaboration skills with others through classroom assignments. Students will learn presentation and communication skills for the office environment. Computer use will be required to complete some assignments. **Prerequisite(s):** Successful completion of ESL 030 or placement by testing in ESL 040.

ESLVN Communication 6 - Office Skills
ESLVN 060 1-15 credits
This course develops advanced business communication skills. Listening, observing, speaking, reading, and writing English competencies are combined in a holistic approach to language acquisition for business and office use. ESL Learners are exposed to language in various workplace contexts, and practice teamwork and collaboration skills with others through classroom assignments. Students will learn presentation and communication skills for the office environment. Computer use will be required to complete some assignments. **Prerequisite(s):** Successful completion of ESL 030 or placement by testing in ESL 040.
ENGLISH

ENGL 080 Exploring College Reading and Writing 5 credits
This course introduces students to strategies for reading, thinking, speaking and writing critically in college courses. The course will introduce the full length essay and emphasize the construction of sentences and paragraphs. Through reading and writing assignments, students will improve their vocabulary, grammar, and reading comprehension and learn new techniques to improve their communication skills. Prerequisite(s): Placement by testing into ENGL 080.

ENGL 090 Understanding College Reading and Writing 5 credits
Students in this course will improve their abilities to read, write, and ask critical questions. This course will introduce the writing process and essay construction, focusing on development, effective word choice, sentences, and paragraphs. Students will also learn how to make critical judgments about written and visual information. Through reading and writing assignments, students will improve their vocabulary, grammar, and reading comprehension and further refine their skills for clear communication. Prerequisite(s): Completion of ENGL 080 with a grade of 2.0 or higher or placement by testing in ENGL 090.

ENGL 093 Writing Studio 2 credits
This course focuses on level-appropriate academic writing activities to further develop syntax, grammar, spelling, and punctuation skills. This course will help students apply basic grammar skills to writing assignments from other classes and/or use modules to prepare students for academic success in their upcoming courses. A focus on developing paragraphs, organizing ideas and multi-paragraph essays or writing pieces will also be included. Lastly, this course will include ways to find and correct grammatical mistakes, basic editing and revision strategies, and how to more efficiently use language to create meaning. Writing Center visits to work with tutors may be incorporated. Individualized assessment will determine the modes of instruction. Useful for students in all disciplines. Prerequisite(s): Co-enrollment or completion of EFUND 4, ELP Level 6 or ESL Level 6; placement into any ENGL course; or instructor permission.

ENGL 094 Reading Studio 2 credits
This course is designed to build basic reading skills for success in college-level reading. This course will improve students’ reading comprehension, and include vocabulary building and development. Students will learn active reading strategies to assist in reading essays, textbooks, and other college materials. Word attack skills will be covered, including phonics, word analysis and context clues. Critical thinking and reading skills will be presented and discussed to give students confidence in their college reading assignments. Individualized assessment will determine the modes of instruction. Useful for students in all disciplines. Prerequisite(s): Co-enrollment or completion of EFUND 4, ELP Level 6 or ESL Level 6; placement into any ENGL course; or instructor permission.

ENGL 096 College Reading and Writing RE 5 credits
This course prepares students for success in college reading and writing assignments and activities. In the course, students will learn to read, comprehend, and analyze many types of material. Students will develop a personalized writing process and apply it to essays and other assignments that reflect academic standards of organization, correctness, and sophistication. In addition, they will learn to find, interpret, and analyze information to use in their writing. Prerequisite(s): Completion of ENGL 090 with a grade of 2.0 or higher or placement by testing in ENGL 096.

ENGL 101 English Composition I 5 credits
This course helps students learn how to make judgments and decisions about their own and others’ communication, especially in college writing. They will practice various modes of reading, developing strategies for interpreting, responding to, and making use of a wide array of texts in their own writing. They will develop and document a personalized process to compose texts that demonstrate an understanding of purpose and audience, are thoughtfully organized, achieve appropriate levels of correctness, and are crafted with specified purposes for identified audiences. This class is organized around a theme chosen by the instructor. Prerequisite(s): Completion of ENGL 096 with a grade of 2.0 or higher or placement by testing into ENGL& 101.

ENGL& 102 Composition II 5 credits
Students learn how to develop a research process that includes creating topics and questions, searching for and evaluating a variety of sources, and synthesizing and incorporating those sources to compose original texts. Prerequisite(s): Completion of ENGL& 101 with a grade of 2.0 or higher; AND completion of COLL 101 with a grade of 2.0 or higher.

ENGL& 111 Introduction to Literature 5 credits
This introductory literature course grows out of our assumption that fiction, poetry and drama help give voice, shape and meaning to the medley of human experience. Students will explore a breadth of literary texts and critical approaches, both traditional and contemporary. They will learn and practice skills for constructing and appreciating the meanings and effects of literature as they encounter and interpret text and author relationships to their historical and cultural contexts. Class discussion and written response will help students discover, express, and publish their own thoughts and learning about literature. Prerequisite(s): Completion of ENGL 096 with a grade of 2.0 or higher, or placement into ENGL& 101.

ENGL 115 Introduction to Creative Writing 5 credits
This course provides students with a multi-genre introduction to creative writing. Students will experiment with writing their own short stories, poems, and scenes throughout the quarter. Students will also read a wide variety of short fiction, poetry, and one-act plays to understand more clearly how different writers employ specific techniques, and to understand the role of fiction in different cultures and their own lives. Students “workshop” their stories and provide regular critiques of their classmates’ stories, analyzing and comparing how different literary structures and strategies are used in each genre. Prerequisite(s): Completion of ENGL 90 with a grade of 2.0 or higher or placement by testing into ENGL 096 or higher.

ENGL 211 Literary Genres and Traditions 5 credits
H- Students explore a specified literary genre or theme, reading a representative collection of fiction, poetry, drama, non-fiction and/or relevant media from the chosen genre. Genres might include (but would not be limited to) Shakespeare, Children’s Literature, Literature of the Pacific Northwest, LGBTIQ Literature, Women Writers, etc. Students practice in-depth analysis of texts, considering historical context, literary themes, and cultural implications for the reading audience of the time period. Students will also be directed to reflect upon their own process of creating meaning through an active reading practice. Prerequisite(s): Completion of ENGL& 101 or ENGL& 111 with a grade of 2.0 or higher.

ENGL 221 Film and Literature 5 credits
CKR, GS, H- In this course, students analyze filmic and literary texts to gain a deeper understanding of concepts such as “adaptation,” “original,” “copy,” and “translation.” Students read, view, and analyze multiple literary and cinematic genres, paying attention to the composition and audiences of the texts as well as transnational and global themes. In informal and formal essays, group projects, and through discussions, students consider film and literature as artificie mediums, entertainment, vehicles for social change, and as meaning-making institutions. Prerequisite(s): Completion of ENGL& 101 with a grade of 2.0 or higher.

DESIGNATION KEY FOR DISTRIBUTION AREAS:
CKR = Cultural Knowledge, E = Elective, GS = Global Studies, H= Humanities, HP = Humanities Performance, NS = Natural Science, Q= Quantitative Reasoning, RE= Restricted Elective, SS = Social Science, SU= Sustainability
ENGL& 235 5 credits
Technical Writing
H- In this course, students develop the ability to compose and format clearly for a variety of professional and technical audiences. They learn how to research, organize, design, and revise proposals, reports, user guides, and other written products for a business/technical environment. The COLL 101 requirement may be waived for professional technical students. Contact the instructor or see an advisor for more information. Prerequisite(s): Completion of ENGL& 101 with a grade of 2.0 or higher; AND completion of COLL 101 with a grade of 2.0 or higher.

ENGL& 244 5 credits
U.S. Literature I
CKR, H- Students explore a survey of United States literature between its earliest written expression and the 19th Century. Through fiction, poetry, drama, non-fiction, and/or film, students practice in-depth analysis of texts based on their literary elements, cultural-historical contexts, and reflection of the human experience. Authors and texts may vary but typically illuminate aspects of Colonization, Enlightenment, Romanticism, Transcendentalism, Regionalism, Realism, and Naturalism. Within this survey the course may also focus on a theme chosen by the instructor. Prerequisite(s): Completion of ENGL& 101 with a grade of 2.0 or higher.

ENGL& 245 5 credits
U.S. Literature II
CKR, H- Students explore a survey of United States literature between the late 19th Century and the present. Through fiction, poetry, drama, non-fiction, and/or film, students practice in-depth analysis of texts based on their literary elements and cultural-historical context. Authors and texts may vary, but typically illuminate aspects of Naturalism, Modernism, Harlem Renaissance, Beat writers, emerging ethnic and feminist voices, post-modernism. Within this survey the course may also focus on a theme chosen by the instructor. Prerequisite(s): Completion of ENGL& 101 with a grade of 2.0 or higher.

ENGL& 254 5 credits
World Literature I
CKR, GS, H- Students explore the stories, images and meanings in literary works from a range of world cultures from the earliest known writings through the 16th Century. In reading an array of world literature, including early modern, post-modern, and non-western texts, students will discover both universal and diverse elements of the human experience across time and place. They also learn to analyze fiction, poetry, drama, non-fiction, and/or film using literary elements and cultural-historical context. Within this survey, the course may focus on a theme chosen by the instructor. Prerequisite(s): Completion of ENGL& 101 with a grade of 2.0 or higher.

ENGL& 255 5 credits
World Literature II
CKR, GS, H- Students explore the stories, images and meanings in literary works from a range of world cultures from the 17th Century to the present. In reading an array of world literature, including early modern, post-modern, and non-western texts, students will discover both universal and diverse elements of the human experience across time and place. They also learn to analyze fiction, poetry, drama, non-fiction, and/or film using cultural-historical context and literary elements. Within this survey, the course may focus on a theme chosen by the instructor. Prerequisite(s): Completion of ENGL& 101 with a grade of 2.0 or higher.

ENGL 274 5 credits
Writing Poetry
H- This course helps students learn how to make judgments and decisions about their own and others’ poetry, especially as it develops their own poetry practice. They will read a wide variety of poetry and critical/theoretical texts to gain an understanding of poetic perspectives and the role of poetry in different cultures and their own lives. Students learn about imitation, sound, the poetic line, given forms, rhythm and meter, diction, tone and voice, imagery and metaphor, revision, and other concepts of poetry writing. Prerequisite(s): Completion of ENGL 096 with a grade of 2.0 or higher, or placement into ENGL& 101.

ENGL 277 5 credits
Writing Fiction
H- Students learn to make decisions about their own and others’ fiction, especially as it develops individual writing practices. The course emphasizes exploring a variety of literary elements and taking a narrative from start to finish. Students read a wide range of fiction to understand more clearly how different writers employ specific techniques, and to understand the role of fiction in different cultures and their own lives. Students “workshop” their stories and provide critiques of their classmates’ fiction. Prerequisite(s): Completion of ENGL 096 with a grade of 2.0 or higher or placement by testing into ENGL& 101.

ENGL 279 5 credits
Dramatic Writing: Stage and Screen
H- Students will be introduced to the basic structures of dramatic writing that are used to create narratives in drama and film. Students will apply the structures of plot, language, character, and spectacle to construct and analyze complex texts. The course will focus on the one-act play and three-act screenplay to offer students opportunities to apply dramatic writing to very different mediums while taking into account the audience and genre expectations of drama and film. Students will participate in “cold readings” of each other’s works-in-progress, discuss the creative choices made by student authors, and evaluate those choices in terms of dramatic structures and audience expectations. Prerequisite(s): Completion of ENGL 096 with a grade of 2.0 or higher or placement by testing into ENGL& 101.

ENGR 131 5 credits
Introduction to Engineering
NS- This course introduces students to core engineering fundamentals, principles, and techniques in the context of system design. Students will learn data visualization and basic statistical techniques, system modeling, technical mathematics, use of technology in engineering problem-solving, engineering economics, and an introduction to materials. Sustainability and whole-system design will be central themes of the course. Prerequisite(s): Completion of or co-enrollment in MATH& 142 or placement by testing into MATH& 151; and completion of ENGL& 101 with a grade of 2.0 or higher.

ENGR& 204 5 credits
Electrical Circuit Analysis
NS- This course is an introduction to the theory and techniques of electric circuit analysis. Students will learn how to analyze circuits of resistors, capacitors, inductors, and sources by making use of electromagnetic theory and network topology. They will design circuits using time-domain and frequency-domain analysis, and analyze and design AC and power circuits using phasor techniques and mutual inductance. The focus will be on real-world design applications, and technology will be integrated throughout the course. A scientific calculator is required. Prerequisite(s): Completion of MATH& 152 with a grade of 2.0 or higher. Completion of or co-enrollment in MATH& 238 recommended.
ENGR& 214 Statics 5 credits
NS- Students will analyze forces acting on particles, rigid bodies, and structures in equilibrium. Topics will include force and moment resultants, free-body diagrams, reactions and supports, internal forces, structures in equilibrium, centroids, and centers of mass, distributed forces, and friction. Emphasis will be placed on real-world applications and technology will be integrated throughout the course. A scientific calculator is required. **Prerequisite(s):** Completion of PHYS& 221 with a grade of 2.0 or higher; and co-enrollment in or completion of MATH& 163 with a grade of 2.0 or higher.

ENGR& 215 Dynamics 5 credits
NS- Students will analyze the kinematics and dynamics of particles, systems of particles and rigid bodies; 2D and 3D coordinate systems; motion relative to translating and rotating reference frames; work and energy; linear momentum and linear impulse; rotating bodies and angular momentum. Emphasis will be placed on real-world applications and technology will be integrated throughout the course. A scientific calculator is required. **Prerequisite(s):** Completion of ENGR& 214 with a grade of 2.0 or higher; and completion of MATH& 163 with a 2.0 or higher.

ENGR& 225 Mechanics of Materials 5 credits
NS- Students will analyze the basic theories of stress and strain and their application to the properties and behavior of engineering materials. They will develop an understanding of the subject through an examination of how specific geometry and loads, intrinsic material properties, and the fundamental constitutive relations governing material behavior can be used to predict how materials react to loads. Students will explore this behavior by modeling it in the context of realistic situations. Further, they will examine modes of material failure and learn strategies useful in predicting and preventing it. Technology will be integrated throughout the course, and a scientific calculator is required. **Prerequisite(s):** Completion of ENGR& 214 with a grade of 2.0 or higher; and completion of MATH& 163 with a grade of 2.0 or higher.

ENGR 240 Applied Numerical Methods 5 credits
NS- In this course students will develop computational solutions to problems commonly arising in engineering and the sciences. They will create algorithms, use industry-standard software to analyze and visualize data, solve numerical problems, and simulate processes. Applications to statistics, mechanics, and other areas will be explored. Computer experience is helpful but not necessary. **Prerequisite(s):** Co-enrollment or completion of MATH& 152 with a grade of 2.0 or higher; AND completion of ENGL& 101 with a grade of 2.0 or higher. (LAB)

ENVIRONMENTAL SCIENCE

ENVS& 101 Introduction to Environmental Science 5 credits
GS, NS, SU- In this course, students will examine the complex interplay of Earth’s natural systems and cycles. Alterations to the natural environment by humans will be thoroughly examined using a global perspective with critical consideration of how changes in current human behavior at personal, regional, and global levels can lead to more sustainable human societies and natural systems. **Prerequisite(s):** Completion of ENGL 096 with a grade of 2.0 or higher or placement by testing in ENGL& 101. (LAB)

ENVS 120 Wetland Conservation 5 credits
CKR, GS, NS- Students will be introduced to basic wetland ecological principles, wetland types, and the unique functions and values of wetlands. Historical and current perceptions, usages, and threats to wetlands will be examined. Students will then consider the interplay of social, economic, political, and ecological factors that surround human alterations and conservation efforts. Inequalities between and within developing and developed countries will be examined as powerful forces that drive current wetland loss and degradation. **Prerequisite(s):** Completion of ENGL 096 with a grade of 2.0 or higher or placement by testing in ENGL& 101.

ENVS 150 Themes and Methods in the Environmental Sciences 5 credits
GS, NS, SU- This course is an interdisciplinary exploration of environmental issues. Students will study specific global environmental concerns and develop realistic solutions. Students will be required to conduct research, gather and analyze actual data, develop conclusions, and use those conclusions to develop and analyze policy. **Prerequisite(s):** Completion of ENGL 096 with a grade of 2.0 or higher or placement by testing in ENGL& 101.

ENVS 210 Ecology of Puget Sound Bioregion 5 credits
NS, SU- Regional environmental change within the Puget Sound bioregion is the focus of this course. Students will learn the characteristics and functions of ecological systems in the region, and the impact of humans on these systems. They will examine current controversies surrounding species protection and resource conservation and management. **Prerequisite(s):** Completion of ENGL& 101 with a grade of 2.0 or higher. (LAB)

ENVS 220 Wetland Ecology 5 credits
GS, NS- Wetlands are a valuable and integral resource in the global landscape. Because wetland formation and ecology are vastly influenced by climate, geographical location affects the size and type of wetland found at specific global locations. As such, students will examine the unique ecology that evolves when the presence of water on terrestrial systems is pervasive enough to create changes to the soil and biotic community. Students will explore the large wetland restoration project located on-campus through ‘hands-on’ field laboratories. Off-site field trips will also be taken to examine the diversity and variability of local wetlands. Saturday field trips are required. **Prerequisite(s):** Completion of any Natural Science distribution course except for MATH with a grade of 2.0 or higher. (LAB)

ENVIRONMENTAL TECHNOLOGY & SUSTAINABLE PRACTICES

ETSP 101 Intro to Environmental Tech & Sustainable Practices 5 credits
GS, SU- This is a survey course of environmental technologies and sustainable practices that address sustainable development; specifically, technologies and practices that consider and balance economic, social equity, and environmental needs, i.e., the Three “E”s, across generations. Topics include understanding sustainable development, exploring frameworks for understanding and operationalizing sustainable development, and developing and designing management strategies that support resource conservation and efficiency, waste reduction and pollution prevention, and that inspire community change. **Prerequisite(s):** Completion of ENGL 090 with a grade of 2.0 or higher or placement by testing in ENGL 096.
ETSP 110 5 credits
Power Generation and Energy Systems
RE- This course presents the history, current status, and trends in conventional energy systems, and how they are integrated into modern society. Topics include the following: current technologies and infrastructure that support the generation, transmission, and distribution of electrical power to large areas; performance and efficiency of different energy systems; strategies and systems for managing current technologies and infrastructure; and meeting expanding consumer demand for energy. Students research and discuss the advantages and limitations of conventional systems, within the expanded context of the Three “E”s, i.e., a context in which economic, social equity, and environmental needs are considered and balanced. Prerequisite(s): Completion of ETSP 101 with a grade of 2.0 or higher; AND completion of ENGL 096 with a grade of 2.0 or higher or placement by testing in ENGL 101.

ETSP 145 5 credits
Onsite Alternative Energy Generation
RE- This course presents an overview of current technologies and emerging trends in solar, wind, biomass, and geothermal energy systems, and of how these systems are integrated into modern society. Students will investigate and discuss the use of alternative energy sources as a strategy to reduce greenhouse gases (GHGs), improve air quality, boost local economies, and pave the way to a secure and sustainable energy future. In addition, students will research and discuss the advantages and limitations of alternative energy systems within the expanded context of the Three “E”s, i.e., a context in which economic, social equity, and environmental needs are considered and balanced. Prerequisite(s): Completion of ETSP 101 with a grade of 2.0 or higher; AND completion of ENGL 096 with a grade of 2.0 or higher or placement by testing in ENGL 101.

ETSP 150 2 credits
OSHA/WISHA for General Industry
RE- This course provides an introduction to OSHA and WISHA for general industry. Topics include an overview of the history and mission of OSHA and WISHA, the relationship between OSHA and WISHA, the following rights and responsibilities under OSHA and WISHA: worker’s rights and employer responsibilities. Prerequisite(s): Completion of ENGL 090 with a grade of 2.0 or higher or placement by testing in ENGL 096.

ETSP 160 5 credits
Electromechanics Lab
RE- The electromechanics course combines lecture with hands-on projects to introduce students to the practices of solving electrical and mechanical design problems, and of applying practical methods of fabrication and testing. Prerequisite(s): Completion of MATH 075 with a grade of 2.0 or higher or placement by testing in MATH 085; AND completion of ENGL 090 with a grade of 2.0 or higher or placement by testing in ENGL 096.

ETSP 161 1 credits
Blueprint Reading
RE- This course introduces students to the basic principles of blueprint reading, and to the tools and skills that are required to read and understand the blueprints that are routinely used in industrial environments. Topics include the following: line types, orthographic projections, dimensioning methods, and notes. Students learn to interpret basic blueprints and to visualize the features of a part. They study relationships between architectural, structural, electrical and mechanical drawings, as well as inspection procedure techniques. Prerequisite(s): Completion of MATH 075 with a grade of 2.0 or higher or placement by testing in MATH 085; AND completion of ENGL 090 with a grade of 2.0 or higher or placement by testing in ENGL 096.

ETSP 170 5 credits
Water Quality and Conservation
GS, RE- Students in this course will explore the history and current status of water quality, and trends in water treatment and conservation. Using the three “E”s framework (i.e., a conceptual structure that seeks to balance economic, environmental and social equity concerns), students will examine how to meet current water needs and ensure future availability for communities and for the natural environment. Topics include an exploration of the current status of water resources, an overview of approaches for sustainably managing water, an introduction to technologies that impact indoor and outdoor water use and that support on-site and regional water treatment, and the advantages and disadvantages of codes and regulatory incentives and barriers. Prerequisite(s): Completion of ETSP 101, with a grade of 2.0 or higher; AND completion of ENGL 096 with a grade of 2.0 or higher or placement by testing in ENGL 101.

ETSP 190 3 credits
Documenting and Reporting Energy Use
RE- This course covers the elements of analyzing, modeling, documenting and reporting the energy use in commercial buildings. Topics include the following: building design and its impact on energy consumption; daylighting and natural ventilation; energy and thermal modeling; and best practices and standards that relate to energy documentation and reporting. Prerequisite(s): Completion of ENGL 090 with a grade of 2.0 or higher or placement by testing in ENGL 096.
ETSP 203  5 credits
Energy System Analysis & Auditing
RE- This course will analyze current energy management systems and technologies that optimize energy usage in terms of local site constraints, local and global availability of energy resources, and land use and global climate change. The Energy Star Guidelines for Energy Management, from the U.S. Environmental Protection Agency, will be covered. The Guidelines will help students make project recommendations based on building structures(s), existing and proposed building features, and project site. Project recommendations will include proposing upgrades to equipment, appliances, or machinery, advocating for changes in energy management practices and potential building retrofits, and addressing changes in existing processes and/or lifestyle, including concerns for quality of life. Prerequisite(s): Completion of MATH 095 or MATH& 107, or above with a grade of 2.0 or higher or placement scores; AND completion of ENGL 096 with a grade of 2.0 or higher or placement by testing in ENGL & 101, or permission of instructor.

ETSP 204  5 credits
Sustainability Indicators/Carbon Footprint Analysis
RE- Students will learn how individuals and communities use sustainability indicators to measure their progress toward meeting sustainable outcomes; specifically, they will learn how to identify sustainability indicators, evaluate those indicators for effectiveness, and use data sources to develop and use meaningful indicators. In addition, students will evaluate an organization’s “carbon footprint” or greenhouse gas inventory and sustainability practices. Students will learn tools and techniques to identify and measure of key emission sources, conduct carbon and sustainability accounting and reporting activities, and develop recommendations to reduce an organization’s environmental footprint. Prerequisite(s): Completion of ETSP 101 with a grade of 2.0 or higher; AND completion of ENGL 096 with a grade of 2.0 or higher or placement in ENGL & 101.

ETSP 270  5 credits
Introduction to Wastewater Management
RE- This course presents the history, current status, and trends in wastewater management. Emphasis is placed on wastewater treatment systems and how they are integrated with water systems and regional hydrology and ecology. Topics include current technologies and infrastructure, collection systems, pretreatment, primary physical treatment, secondary biological treatment, tertiary treatment, disinfection, reclaimed water use and biosolids production and uses. Students research and discuss the advantages and limitations of regional wastewater management with a focus on socio-technical aspects of community and regional water systems. This course may include an off-campus field trip. Prerequisite(s): Completion of ETSP 170 with a grade of 2.0 or higher; AND co-enrollment with or completion of MATH 095 or MATH& 107, or above with a grade of 2.0 or higher; AND completion of ENGL 096 with a grade of 2.0 or higher or placement in ENGL & 101, or permission of instructor.

ETSP 296  1-5 credits
ETSP Individualized Project II
RE- Students will research and produce or perform a project in Environmental Technologies or Sustainable Practices or an interdisciplinary topic emphasizing Environmental Technologies or Sustainable Practices. The content, learning outcomes, and assessment methods of the project are developed by the supervising instructor and student(s). Prerequisite(s): Instructor permission.

ETSP 297  1-5 credits
ETSP Work-Based Learning II
RE- The student will identify an opportunity for an internship or volunteer prospect that matches both the outcomes of the student’s program and their interests. Together with an instructor, the student will complete a written contract that specifies the learning outcomes as well as defines the duration of the course and the credits to be granted upon successful completion. Prerequisite(s): Instructor permission.

ETSP 298  1-5 credits
Special Topics in ETSP II
RE- The course permits an individual student or a class of students to investigate current and relevant topics in Environmental Technology and Sustainable Practices. The content, format, and delivery vary depending upon the topics and the quarter. Prerequisite(s): Instructor permission.

ETSP 299  1-5 credits
Service Learning in ETSP II
RE- Service learning provides a mechanism to combine academic studies with community service. In concert with a faculty advisor and community agency representative, students develop and apply technology and or scientific skills and expertise in a community setting. The student(s) will be involved in defining the project scope and will be required to travel off-campus to the service site. Prerequisite(s): Instructor permission.
FRCH& 223 5 credits
French VI
GS, H- FRCH& 223 continues to build proficiency in all four language skills using a variety of media. Individual assignments and in-class group work help students understand authentic French and to communicate using moderately complex written and spoken grammar and vocabulary. Students also continue to deepen their knowledge of French-speaking cultures worldwide. Prerequisite(s): Completion of FRCH& 222 with a grade of 2.0 or higher or placement into FRCH& 223.

GEOGRAPHY

GEOG 120 5 credits
Introduction to Physical Geography
GS, NS- This course introduces the basic physical and environmental processes responsible for shaping the earth's surface as well as geographic tools used for analysis. Specific regions of the world are then studied in order to establish relationships between the people that live in those regions and the natural world that surrounds them. Prerequisite(s): Completion of ENGL 096 with a grade of 2.0 or higher or placement into ENGL 101.

GEOG& 250 5 credits
Geography of the Pacific Northwest
CKR, GS, NS, SU- This course is an introduction to the physical and cultural landscapes of the Pacific Northwest. Students will examine the historic and contemporary relationships between people and places in the Northwest and how physical and cultural processes have shaped this region. Special emphasis will be given to the Salish Sea bioregion as well as the Pacific Northwest's role within the larger global context. Prerequisite(s): Completion of ENGL 096 with a grade of 2.0 or higher or placement into ENGL 101.

GEOG 440 5 credits
Global Natural Resource Management
This course identifies critical natural resources throughout the world and their distribution. These include, but are not limited to, water, fossil fuels, forests, soil, minerals, fisheries, and wildlands. Elements of extraction/harvest, distribution, and consumption of those resources will be examined in depth, along with environmental impacts. Management and conservation of those resources, along with alternative options, recycling, re-use, and waste will also be discussed. Prerequisite(s): Admission to BAS-SP program, OR instructor permission.

GEOLOGY

GEOL& 101 5 credits
Introduction to Physical Geology
GS, NS, SU- Students will study the structure of the solid earth and the physical processes which produce change. The class will stress environmental concerns as they relate to geology. Recent discoveries and observational techniques will be discussed, and students will apply geologic concepts in laboratory activities and simulations and take part in field investigations. Prerequisite(s): Completion of Math 075 with a grade of 2.0 or higher. (LAB)

GEOL 230 7 credits
Geology of the Northwest National Parks
NS- This geology course is conducted in the field. Students will travel to various national parks and monuments in order to study the unique and varying geology of the Northwestern United States. Surface features, unique rock and mineral formations, and the physical processes that create them will be studied. The class is a combination of lecture, guided investigation, field mapping and sampling, and reflection. Prerequisite(s): None. (LAB)

GEOL 360 5 credits
Earth Systems and Global Climate Change
This course is a detailed examination of the elements and processes of Earth Systems Science (ESS). Students will apply ESS principles in analyzing the current climate system, its components, cycles, and feedbacks. Historical climate systems will also be studied, including methods of understanding those systems, and they will be compared and contrasted to current data. Anthropic influences on the current climate system will be examined in detail. Students will evaluate systems modeling software (such as Stella) as well as interpreting general circulation models. Mitigation and adaptation strategies will also be assessed. Prerequisite(s): Admission to BAS-SP program, OR instructor permission. (LAB)

GLOBAL STUDIES

GS 101 5 credits
Introduction to Global Studies
GS, H, SS, SU- Students explore the interdisciplinary field of global studies by examining the history of globalization and the emergence of the global political economy. Students investigate the costs and benefits of changing patterns of transnational economic and governance institutions for the environment, culture, the nation state, and individuals. Human rights issues that have arisen due to globalization will be explored through examination of political, social, and economic issues and social movements such as environmentalism, sustainability, feminism, and anti-capitalism. Prerequisite(s): Completion of ENGL 090 with a grade of 2.0 or higher, or placement into ENGL 096.
### COURSE DESCRIPTIONS

**DESIGNATION KEY FOR DISTRIBUTION AREAS:**
CKR = Cultural Knowledge, E = Elective, GS = Global Studies, H = Humanities, HP = Humanities Performance, NS = Natural Science, Q = Quantitative Reasoning, RE = Restricted Elective, SS = Social Science, SU = Sustainability

#### HISTORY

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Title</th>
<th>Credits</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>HIST&amp; 126</td>
<td>World Civilizations I</td>
<td>5</td>
<td>CKR, GS, H, SS: This course examines the social, economic, political, intellectual, and artistic achievements of civilizations from the emergence of complex societies through the end of the ancient world (c. 700 C.E.). Students will obtain a global perspective by studying different worldviews and social institutions, as well as systems of thought and religion as they evolved through this historical period. Students will critically examine primary source material, such as written texts, artistic productions, and archeological evidence as a complement to information gleaned from secondary sources. Courses in the World Civilizations series (126, 127, and 128) may be taken independently and in any order. <strong>Prerequisite(s):</strong> Completion of ENGL 090 with a grade of 2.0 or higher or placement by testing in ENGL 096.</td>
</tr>
<tr>
<td>HIST&amp; 127</td>
<td>World Civilizations II</td>
<td>5</td>
<td>CKR, GS, H, SS: This course examines the social, economic, political, intellectual, and artistic achievements of pre-modern and early modern world civilizations from c.700 C.E. to 1800 C.E. Students will obtain a global perspective by studying different worldviews and social institutions, as well as great systems of thought, religion, science, and art as they evolved through this historical period, laying the foundations of the modern world. The increasingly global interaction of cultures in both positive and enriching, and conversely, negative and exploitative ways will also be emphasized. Students will critically examine primary source material, such as written texts, artistic productions, and archeological evidence as a complement to information gleaned from secondary sources. Courses in the World Civilizations series (126, 127, and 128) may be taken independently and in any order. <strong>Prerequisite(s):</strong> Completion of ENGL 090 with a grade of 2.0 or higher or placement by testing in ENGL 096.</td>
</tr>
<tr>
<td>HIST&amp; 128</td>
<td>World Civilizations III</td>
<td>5</td>
<td>CKR, GS, H, SS: Using a world systems approach, this course studies the social, economic, political, intellectual, and artistic achievements of civilizations in Africa, the Americas, Asia, and the Pacific, and Europe from 1750 to the present. The course focuses on the development of modern world political, social, and economic systems and ideologies, war and revolution, colonization and decolonization, and the rise and fall of superpowers, and how these changes have impacted culture, art, and literature as well as individual lives. Students will acquire a global perspective through transnational exploration of human values, cultures, and institutions. The global interaction of cultures in both positive and enriching, and conversely, negative and exploitative ways will also be emphasized. Students will critically examine primary source material, such as written texts, artistic productions and other evidence as a complement to informative gleaned from secondary sources. Courses in the World Civilizations series, HIST&amp; 126, HIST&amp; 127 and HIST&amp; 128 may be taken independently and in any order. <strong>Prerequisite(s):</strong> Completion of ENGL 090 with a grade of 2.0 or higher or placement by testing into ENGL 096.</td>
</tr>
<tr>
<td>HIST&amp; 146</td>
<td>United States History I</td>
<td>5</td>
<td>CKR, GS, H, SS: This course examines the creation and evolution of the United States beginning with pre-contact native peoples and continuing through the early years of the 19th century. The course focuses on key figures, events, and eras and explores within a global context the important themes and issues relevant to the nation's historical development, including Native American societies, colonization, slavery, the revolutionary era, establishment of the Constitution, and the early years of the republic. Students will develop historical thinking skills and draw conclusions from contradictory primary sources and historical interpretations. The diverse history of the nation will be emphasized by examining individual cultures, their interactions, and the challenges faced by multicultural America. Courses in the U. S. History series, HIST&amp; 146, HIST&amp; 147, and HIST&amp; 148 may be taken independently and in any order. <strong>Prerequisite(s):</strong> Completion of ENGL 090 with a grade of 2.0 or higher or placement by testing in ENGL 096.</td>
</tr>
<tr>
<td>HIST&amp; 147</td>
<td>United States History II</td>
<td>5</td>
<td>CKR, GS, H, SS: This course examines the history of the United States from the early years of the republic through the Nineteenth Century. The course focuses on key figures, events and eras, and explores within a global context the important themes and issues relevant to the nation's historical development, including the early years of the republic, revolutionary changes in transportation and the economy, Manifest Destiny and western expansion/conquest, slavery, the Civil War and Reconstruction, the rise of industry and labor, and Imperialism. Students will develop historical thinking skills and draw conclusions from contradictory primary sources and historical interpretations. The diverse history of the nation will be emphasized by examining individual cultures, their interactions, and the challenges faced by multicultural America. Courses in the U. S. History series, HIST&amp; 146, HIST&amp; 147, and HIST&amp; 148 may be taken independently and in any order. <strong>Prerequisite(s):</strong> Completion of ENGL 090 with a grade of 2.0 or higher or placement by testing in ENGL 096.</td>
</tr>
<tr>
<td>HIST&amp; 148</td>
<td>United States History III</td>
<td>5</td>
<td>CKR, GS, H, SS: This course examines the history of the United States from the start of the 20th century to the present. The course focuses on key figures, events and eras, and explores within a global context the important themes and issues relevant to the nation's historical development, including the Progressive era, World Wars I and II, the Great Depression and New Deal, the Cold War, Civil Rights, the Vietnam War, and beyond. Students will develop historical thinking skills and draw conclusions from contradictory primary sources and historical interpretations. The diverse history of the nation will be emphasized by examining individual cultures, their interactions, and the challenges faced by multicultural America. Courses in the U. S. History series, HIST&amp; 146, HIST&amp; 147, and HIST&amp; 148 may be taken independently and in any order. <strong>Prerequisite(s):</strong> Completion of ENGL 090 with a grade of 2.0 or higher or placement by testing in ENGL 096.</td>
</tr>
<tr>
<td>HIST 150</td>
<td>Multicultural United States History</td>
<td>5</td>
<td>CKR, GS, H, SS: This course examines the multicultural history of the United States from pre-European contact with North America to the present. It focuses on the contributions and experiences of various peoples, as they interact with the historical manifestations of power and privilege. Students will develop historical thinking skills and draw conclusions from contradictory primary sources and historical interpretations as they examine the history of American diversity and the creation of a pluralistic society. This course may include a community-based learning project. <strong>Prerequisite(s):</strong> None.</td>
</tr>
<tr>
<td>HIST 210</td>
<td>Islamic Civilization</td>
<td>5</td>
<td>CKR, GS, H, SS: This course introduces students to major developments in Islamic civilization from the advent of Islam to the present. It examines the basic principles of the Islamic religion, and how Islam has been experienced in different parts of the Islamic world and throughout history. The course explores the ways in which the religion of Islam has been embraced and practiced by diverse cultures of the globe including those found in Africa, Asia (including the Middle East), Europe, and the Americas. Furthermore, the course explores how Islam has influenced conceptions of authority, law, philosophy, science, mathematics, literature, and art. Finally, the course will examine variations in the status of women within Islamic civilization, both across time and in different cultural and socioeconomic settings. <strong>Prerequisite(s):</strong> Completion of ENGL 090 with a grade of 2.0 or higher or placement by testing in ENGL 096.</td>
</tr>
</tbody>
</table>
HIST 214  5 credits  Pacific Northwest History  
CKR, GS, H, SS  Examines the evolution and development of the Pacific Northwest region beginning with Native American societies and settlements. Major themes include cultures meeting and in conflict, exploration and settlement, American expansion, economic exploitation, radical labor movements, role in the World Wars, and contemporary issues in a changing global economy and multi-cultural society. Prerequisite(s): Completion of ENGL 096 with a grade of 2.0 or higher or placement by testing in ENGL 096.

HIST 262  5 credits  US Foreign Relations in the 20th Century  
H, GS, SS  Examines the global dimensions of United States history in the 20th Century. The course focuses on key figures, events and eras, and explores important themes and issues relevant to the nation's foreign relations including the rise to global power, the nation's participation in two world wars, the Cold War, the war in Vietnam, various global interventions, and terrorism. Students will develop historical thinking skills and draw conclusions from contradictory primary sources and historical interpretations. Prerequisite(s): Completion of ENGL 096 with a grade of 2.0 or higher or placement by testing in ENGL 101.

HIST 268  5 credits  Modern Latin American History  
CKR, GS, H, SS  This course surveys the modern history of Latin America from the nineteenth century to the present by focusing on inter-related phenomena such as the development of democracy in most nations and American economic influence in the region. Some of the topics that will be discussed include the formation of Latin American countries, national revolutions, dictatorships, military in politics, formation of class and race, labor movements, immigration, liberation theology, wars in Central America, human rights, environmental consciousness, and the current debt crisis. Prerequisite(s): Completion of ENGL 096 with a grade of 2.0 or higher or placement into ENGL 101.

HIST 345  5 credits  Global Historical Themes in Sustainability  
Students explore the history of sustainability as related to politics, economics, labor, business, the environment, public policy, science, and the arts. Examined through this lens of historical enquiry, students will develop theoretical and practical knowledge that better prepares them to consider a future related to sustainability issues and sustainability problem-solving frameworks. The course covers the changes and innovations, the promises, predictions and criticisms, as well as the consequences, both intended and unintended, of such topics as industrialization, scientific management, technological development, and resource use. Course materials will include an eclectic mix of sources, such as novels, science fiction, popular culture, and interpretative essays. Prerequisite(s): Admission to BAS-SP program, OR instructor permission.

HUMANITIES

HUMAN 107  5 credits  Technology, Culture & Innovation  
CKR, H  A humanities connections course based on the development of the culture and the intentional use of human-based technologies and its impact on human innovation. The course integrates systems of language, arts, media, information, and communication to assist students in transforming and increasing their awareness of the role human-based technology plays in contemporary U.S. society. Learners will collaborate with peers to examine the manifestation of social inequalities by interacting with diverse or competing ideas, values, and perspectives. This course may have a community-based learning component. Prerequisite(s): Completion of ENGL 096 with a grade of 2.0 or higher or placement by testing in ENGL 101.

HUMAN 120  5 credits  Regional Life and Culture  
H  A humanities cultural studies course based on the concept of place, the local and global culture, story, history, and personal geography. The course is heavily experiential and writing intensive. The course will utilize the moment provided by the student's perspective from being inside or outside of her/his place/culture to examine her/his personal, local, regional and national place in a global society. The student will engage in critical and comparative inquiry based on the chosen readings, invited speakers, and out of class learning environments/activities. The primary focus throughout the course will be on knowledge of self as a global citizen. Incorporating community-based and project-based learning, this course will involve students in partnerships with people from a "local" community through gathering story and oral history as research. Art, film, literary forms, primary sources, and personal narrative from local/regional artists/writers/performers will be viewed as primary texts. This course is particularly designed for students who are "out" of their "local" or "place," e.g., study abroad students or international students attending Cascadia but is not limited to this cohort. Prerequisite(s): None.

HUMAN 125  5 credits  Cultures of Environmental Consciousness in America  
CKR, H  This course is a study of the history of cultural attitudes toward the environment in the United States as well as a variety of historical instances in which those attitudes were put into practice. The course will also look at the clash of attitudes toward the environment and how those conflicts play out in the United States politics. While the course will focus on the United States, it will also look at the global consequences of US policy and practice. The approach will be interdisciplinary, drawing from the fields of history, politics, philosophy, and cultural studies. Incorporating project-based learning, this course will involve students in fostering environmental awareness in their own lives. Prerequisite(s): None.

HUMAN 150  5 credits  Introduction to Cultural Studies  
CKR, H  This course introduces students to the terms, strategies, and analytical techniques of Cultural Studies. Emphasis is on how cultural texts such as literature, film, visual art, digital media, and performance are consumed, produced, distributed, and responded to by diverse communities. Students will examine how identities, ideas, and events are represented by dominant meaning-makers and the ways that particular communities resist this representation and create alternative texts. Students consider the impact of race, gender, sexuality, class, education, ability, and institutional affiliations on access to resources, power, and privilege. This course may include a community-based learning project. Prerequisite(s): None.

HUMAN 196  1-5 credits  Humanities Individualized Project I

HUMAN 197  1-5 credits  Humanities Internship I

HUMAN 198  1-5 credits  Special Topics in Humanities I

HUMAN 199  1-5 credits  Humanities Individualized Project II

HUMAN 200  1-5 credits  Humanities Internship II

HUMAN 201  1-5 credits  Humanities Individualized Project III

HUMAN 202  1-5 credits  Humanities Internship III
HUMAN 199 1-5 credits
Community-Based Learning in Humanities I
Service learning provides a mechanism to combine academic studies with community service. In concert with a faculty advisor and community agency representative, students develop and apply skills and expertise from the humanities in a community setting. The student will be involved in defining the project scope and will be required to travel off-campus to the service site. Prerequisite(s): Instructor permission.

HUMAN 210 3 credits
Magazine Publication I
H-This course provides students with an introduction to the process of creating a community arts magazine. Students will study common college magazine practices and review and assess sample publications. With an instructor's guidance, students will develop systemic and technical guidelines for submission; define the scope and reach of the publication; create a specific solicitation and marketing plan involving campus resources, including web and social media promotions; and establish roles and responsibilities of the magazine editorial team. Prerequisite(s): Completion of ENGL 096 with a grade of 2.0 or higher; OR placement by testing into ENGL 101.

HUMAN 211 3 credits
Magazine Publication II
H-In this course, students will study principles of evaluating visual art, poetry, and prose. With the instructor's guidance through assigned readings on the aesthetics of art and creative writing, students will develop an editorial process to assess writing and artwork submitted for publication during the prior quarter. Using the editorial guidelines created in HUMAN 210, students will maintain the consistency and integrity of the submission process in order to make editorial decisions about published content in Cascadia's annual arts magazine, Yours Truly. Students will familiarize themselves with a professional publication program in order to prepare, proof, and edit a manuscript for a designated printer. Students will also participate in a multimedia launch event for the publication in June. Prerequisite(s): Completion of HUMAN 210 OR ENGL 096 with a grade of 2.0 or higher; OR placement by testing into ENGL 101. This course will fulfill the integrated learning requirement.

HUMAN 296 1-5 credits
Humanities Individualized Project II
Students will research and produce or perform a project in a humanities subject or an interdisciplinary topic emphasizing the humanities in some way. The content, learning outcomes, and assessment methods of the project are developed by the supervising instructor and student(s). Prerequisite(s): Instructor permission.

HUMAN 297 1-5 credits
Humanities Internship II
The student will identify an opportunity for an internship or volunteer position that matches both the outcomes of the program and the student's interests. Together with an instructor, the student will complete a written contract that specifies the learning outcomes and defines the duration of the course and the credits to be granted upon successful completion. Prerequisite(s): Instructor permission.

HUMAN 298 1-5 credits
Special Topics in Humanities II
The instructor, possibly in collaboration with students, designs course content, activities, and learning outcomes that address a new topical or thematic approach to the humanities. Students will develop learning, thinking, communicating, and interacting abilities. Prerequisite(s): Instructor permission.

HUMAN 299 1-5 credits
Community-Based Learning in Humanities II
Service learning provides a mechanism to combine academic studies with community service. In concert with a faculty advisor and community agency representative, students develop and apply skills and expertise from the humanities in a community setting. The student will be involved in defining the project scope and will be required to travel off-campus to the service site. Prerequisite(s): Instructor permission.

INTERNATIONAL ENGLISH LANGUAGE PROGRAM

ELP 010 5 credits
Reading 1
Reading 1 is designed to introduce basic (high-beginning) reading skills in English. Students learn to apply reading skills, read basic texts, develop their vocabulary, and participate in discussion. Students read texts on a variety of topics. Prerequisite(s): Admission to International Program; AND English placement test score.

ELP 011 5 credits
Grammar 1
Grammar 1 is designed to build knowledge of basic (high-beginning) structural rules of English. Students will develop skills through grammar building exercises, interactive activities, and authentic materials, for the purpose of improving their ability to communicate in speech and writing. The course emphasizes basic verb tenses and subject-verb agreement. Prerequisite(s): Admission to International Program. English placement test score.

ELP 012 5 credits
Writing 1
This course is designed to develop basic (high-beginning) academic writing skills. Students will write sentences for a variety of purposes and styles. Class activities will improve students' knowledge of English grammar and vocabulary and their ability to apply this knowledge to their writing. Prerequisite(s): Admission to International Program. English placement test score.

ELP 014 5 credits
Speaking & Listening 1
Speaking and Listening 1 is designed to develop basic (high-beginning) speaking and listening skills in English. Students will improve their ability to make simple descriptions and ask and answer questions about simple daily life topics. Students will develop their fluency, comprehension, pronunciation, and study skills. Prerequisite(s): Admission to International Program. English placement test score.

ELP 020 5 credits
Reading 2
Reading 2 is designed to develop high-beginning and low-intermediate academic reading skills in English. Students learn to apply reading skills, read high-beginning and low-intermediate texts, develop their vocabulary, and participate in partner and group discussion. Students read texts from a variety of topics and genres. Prerequisite(s): Admission to International Program. Successful completion of all ELP Level 1 courses (ELP 010, ELP 011, ELP 012, and ELP 014) with an average GPA of 2.5 or higher with no individual course grade below 2.2; or English placement test score.
ELP 021 Grammar 2
Grammar 2 is designed to build knowledge of high-beginning and low-intermediate structural rules of English. Students will develop skills through grammar building exercises and interactive activities, for the purpose of improving their ability to communicate in speech and writing. The course emphasizes basic verb tenses and modals. It builds upon the competencies taught in ELP 011. **Prerequisite(s):** Admission to International Program. Successful completion of all ELP Level 1 courses (ELP 010, ELP 011, ELP 012, and ELP 014) with an average GPA of 2.5 or higher with no individual score below 2.2; or English placement test score.

ELP 022 Writing 2
This course is designed to develop high-beginning and low-intermediate academic writing skills. Utilizing the writing process, students will write sentences and paragraphs for a variety of purposes. Class activities will improve students’ knowledge of English grammar, paragraph structure, and vocabulary and their ability to apply this knowledge to their writing. The course builds upon the competencies taught in ELP 012. **Prerequisite(s):** Admission to International Program. Successful completion of all ELP Level 1 courses (ELP 010, ELP 011, ELP 012, and ELP 014) with an average GPA of 2.5 with no individual score below 2.2; or English placement test.

ELP 024 Speaking and Listening 2
Speaking and Listening 2 is designed to develop high-beginning and low-intermediate speaking and listening skills in English. It builds upon the competencies taught in ELP 014. Students will improve their ability to make simple descriptions and ask and answer questions about daily life topics. Students will further develop their fluency, comprehension, pronunciation, and study skills. **Prerequisite(s):** Admission to International Program. Successful completion of all ELP Level 1 courses (ELP 010, ELP 011, ELP 012, and ELP 014) with an average GPA of 2.5 higher with no individual course grade below 2.2; or English placement test score.

ELP 030 Reading 3
ELP 030 is designed to develop intermediate reading skills in English. It builds upon the competencies taught in ELP 020. Students learn to apply reading skills, read intermediate texts, develop their vocabulary, and participate in group and partner discussion. Additional practice in summarizing, inferring the meaning of vocabulary from context, and using the dictionary is provided. **Prerequisite(s):** Admission to International Program. Successful completion of all ELP Level 2 courses (ELP 020, ELP 021, ELP 022, ELP 024) with an average GPA of 2.5 or higher with no individual course grade below 2.2; or English placement test score.

ELP 031 Grammar 3
Grammar 3 is designed to build knowledge of intermediate structural rules of English. Students will develop skills through grammar building exercises and interactive activities, for the purpose of improving their ability to communicate in speech and writing. This course emphasizes the use of the present perfect tense and modals. It builds upon the competencies taught in ELP 021. **Prerequisite(s):** Admission to International Program. Successful completion of all ELP Level 2 courses (ELP 020, ELP 021, ELP 022, and ELP 024) with an average GPA of 2.5 or higher with no individual score below 2.2; or English placement test score.

ELP 032 Writing 3
This course is designed to develop intermediate academic writing skills for success in college classes. Utilizing the writing process, students will write paragraphs for a variety of purposes and styles. Class activities will improve students’ knowledge of English grammar, paragraph structure, and vocabulary and their ability to apply this knowledge to their writing. Course work will include recognizing and avoiding plagiarism. The course builds upon the competencies taught in ELP 022. **Prerequisite(s):** Admission to International Program. Successful completion of all ELP Level 2 courses (ELP 020, ELP 021, ELP 022, and ELP 024) with an average GPA of 2.5 or higher with no individual score below 2.2; or English placement test.

ELP 034 Speaking and Listening 3
Speaking and Listening 3 is designed to develop intermediate academic speaking and listening skills in English for success in a college setting. It builds upon the competencies taught in ELP 024. Students will improve their ability to converse about a wide range of topics and participate in group discussions. Students will further develop their fluency, comprehension, pronunciation, critical thinking, conversation skills, and study skills. **Prerequisite(s):** Admission to International Program. Successful completion of all ELP Level 2 courses (ELP 020, ELP 021, ELP 022, and ELP 024) with an average GPA of 2.5 or higher with no individual score below 2.2; or English placement test.

ELP 040 Reading 4
Reading 4 is designed to develop high-intermediate academic reading skills in English. It builds upon the competencies taught in ELP 030. Students learn to apply reading skills, read high intermediate and pre-college texts, develop their vocabulary, and participate in partner and group discussion. Additional practice in note-taking, summarizing, inferring the meaning of vocabulary from context, and using the dictionary is provided. **Prerequisite(s):** Admission to International Program. Successful completion of all ELP Level 2 courses (ELP 020, ELP 021, ELP 022, and ELP 024) with an average GPA of 2.5 or higher with no individual course grade below 2.2; or English placement test score.

ELP 044 Speaking and Listening 4
Speaking and Listening 4 is designed to develop high-intermediate academic speaking and listening skills in English for success in college classes. It builds upon the competencies taught in ELP 034. Students will improve their ability to express their opinions and participate in group discussions on academic and non-academic topics. Students will further develop their fluency, listening comprehension, group work, pronunciation, critical thinking, formal presentation skills, conversation skills, and study skills. **Prerequisite(s):** Admission to International Program. Successful completion of all ELP Level 3 courses (ELP 030, ELP 031, ELP 032, and ELP 034) with an average GPA of 2.5 or higher with no individual course grade below 2.2; or English placement test score.
COURSE DESCRIPTIONS

DESIGNATION KEY FOR DISTRIBUTION AREAS:
CKR = Cultural Knowledge, E = Elective, GS = Global Studies, H = Humanities, HP = Humanities Performance, NS = Natural Science, Q = Quantitative Reasoning, RE = Restricted Elective, SS = Social Science, SU = Sustainability

ELP 050 5 credits
Reading 5
Reading 5 is designed to develop low-advanced academic reading skills in English. It builds upon the competencies taught in ELP 040. Students apply reading skills, read college level texts, develop their vocabulary, and participate in partner and group discussion. Additional practice in note-taking, summarizing, inferring the meaning of vocabulary from context, and using the dictionary is provided. Students read passages from a variety of academic disciplines and genres. Prerequisite(s): Admission to International Program. Successful completion of all ELP Level 4 courses (ELP 040, ELP 041, ELP 042, ELP 044) with an average GPA of 2.5 or higher with no individual course grade below 2.2; or English placement test.

ELP 051 5 credits
Grammar 5
Grammar 5 is designed to build knowledge of advanced structural rules of English. Students will refine skills through grammar building exercises, interactive activities, and authentic materials, for the purpose of improving their ability to communicate in speech and writing. The course emphasizes grammatical constructions useful in academic communication and advanced use of verb tenses. It builds upon the competencies taught in ELP 041. Prerequisite(s): Admission to International Program. Successful completion of all ELP Level 4 courses (ELP 040, ELP 041, ELP 042, and ELP 044) with an average GPA of 2.5 or higher with no individual score below 2.2; or English placement test score.

ELP 052 5 credits
Writing 5
This course is designed to develop low-advanced academic writing skills for success in college classes. Utilizing the writing process, students will write essays for a variety of purposes and styles. Class activities will improve students' knowledge of English grammar, essay structure, and vocabulary and their ability to apply this knowledge to their writing. Coursework will include recognizing plagiarism and employing techniques to avoid it. The course builds upon competencies taught in ELP 042. Prerequisite(s): Admission to the International Program. Successful completion of all ELP Level 4 courses (ELP 040, ELP 041, ELP 042, and ELP 044) with an average GPA of 2.5 or higher with no individual score below 2.2; or English placement test.

ELP 054 5 credits
Speaking and Listening 5
Speaking and Listening 5 is designed to develop low-advanced academic speaking, listening and note-taking skills in English for success in college classes. It builds upon the competencies taught in ELP 044. Students will improve their ability to express their opinions and participate in group discussions on academic topics. Students will further develop their fluency, listening comprehension, note-taking, group work, formal presentation skills, critical thinking, and study skills. Prerequisite(s): Admission to International Program. Successful completion of all ELP Level 4 courses (ELP 040, ELP 041, ELP 042, ELP 044) with an average GPA of 2.5 or higher with no individual course grade below 2.2; or English placement test score.

ELP 060 5 credits
Reading 6
Reading 6 is designed to develop advanced academic reading skills in English. It builds upon the competencies taught in ELP 050. Students apply reading skills, read college level texts, develop their vocabulary, and participate in partner and group discussion. Additional practice in note-taking, summarizing, inferring the meaning of vocabulary from context, and using the dictionary is provided. Students read passages from a variety of academic disciplines and genres. Prerequisite(s): Admission to International Program. Successful completion of all ELP Level 5 courses (ELP 050, ELP 051, ELP 052, ELP 054) with an average GPA of 2.5 or higher with no individual course grade below 2.2; or English placement test.

ELP 062 5 credits
Writing 6
This course is designed to develop advanced academic writing skills for success in college classes. Utilizing the writing process, students will write essays for a variety of purposes and styles, one of which will include instructor-guided research. Class activities will improve students' knowledge of English grammar, essay structure, and vocabulary and their ability to apply this knowledge to their writing. Coursework will include recognizing plagiarism and employing techniques to avoid it. The course builds upon competencies taught in ELP 052. Prerequisite(s): Admission to the International Program. Successful completion of all ELP Level 5 courses (ELP 050, ELP 051, ELP 052, ELP 054) with an average GPA of 2.5 or higher with no individual score below 2.2; or English placement test.

JAPANESE

JAPN& 121 5 credits
Japanese I
CKR, GS, H - This course is designed for students who have not had any prior Japanese training. Students will learn the grammar, vocabulary, and pronunciation necessary to communicate in Japanese in cultural contexts. Students also begin to read and write Japanese characters. Prerequisite(s): Completion of ELP 050 with a grade of 2.0 or higher or placement by testing in ELP 050.

JAPN& 122 5 credits
Japanese II
CKR, GS, H - In this course students will increase their knowledge of Japanese vocabulary and grammar to improve their communication skills. They will be able to participate in conversations in a variety of social settings by learning more about Japanese people, culture, and communication behaviors. They also learn more Japanese writing systems including Chinese characters. Prerequisite(s): Completion of JAPN& 121 with a grade of 2.0 or higher or placement into JAPN& 122.

JAPN& 123 5 credits
Japanese III
CKR, GS, H - Students improve their ability to speak and write in Japanese by adding to vocabulary and learning more complicated sentence structures. They continue to increase their knowledge about Japanese people, culture, and communication behaviors. They begin to differentiate speech styles depending on social circumstances. They continue to learn Kanji (Chinese characters). Prerequisite(s): Completion of JAPN& 122 with a grade of 2.0 or higher or placement into JAPN& 123.

JAPN& 221 5 credits
Japanese IV
CKR, GS, H - This course reinforces the fundamentals of the Japanese language introduced in Elementary Japanese courses. Students will learn the functional ability to communicate in Japanese beyond the entry level, in such areas as negotiating, suggesting, and requesting and in consideration of degrees of politeness. Both casual and formal speech styles are introduced in appropriate cultural and social contexts. Four Japanese language skills: speaking, listening, reading, and writing are taught from a Japanese cultural framework. Prerequisite(s): Completion of JAPN& 123 with a grade of 2.0 or higher or placement into JAPN& 221.

JAPN& 222 5 credits
Japanese V
CKR, GS, H - Students will learn how to initiate, sustain, and bring closure in longer conversations by using more complex expressions such as how to change the subject, make indirect questions, make confirmations, and check comprehension. The casual and formal speech styles introduced in JAPN& 221 are reviewed and expanded upon. The four Japanese language skills: speaking, listening, reading, and writing are taught from a Japanese cultural framework. Prerequisite(s): Completion of JAPN& 221 with a grade of 2.0 or higher or placement into JAPN& 222.

JAPN& 223 5 credits
Japanese VI
CKR, GS, H - Students will learn how to support their opinions, explain reasons in detail, and discuss current topics. Casual and formal speech styles continue to be emphasized according to the requirements of different cultural and social contexts. The four Japanese language skills: speaking, listening, reading, and writing, are taught from a Japanese cultural framework. The course will shift from speaking and listening to reading and writing skills toward the end of quarter. Prerequisite(s): Completion of JAPN& 222 with a grade of 2.0 or higher or placement into JAPN& 223.
MATHFUND 010  1-10 credits
Math Fundamentals 1
This course introduces mathematical operations to solve beginning problems using whole numbers, fractions, decimals, and percentages. Learners will be able to read, write, interpret, and apply numbers and symbolic information for problem solving. NOTE: Credits for this course are not transferable, nor do they apply to any college degree or certificate. Prerequisite(s): Placement by testing or by instructor permission.

MATHFUND 020  1-10 credits
Math Fundamentals 2
This course develops mathematical operations to solve beginning problems using whole numbers, fractions, decimals, and percentages. Learners will be able to read, write, interpret, and apply numbers and symbolic information for problem solving. NOTE: Credits for this course are not transferable, nor do they apply to any college degree or certificate. Prerequisite(s): Completion of MATHFUND 010 or placement by testing in MATHFUND 020.

MATHFUND 030  1-10 credits
Math Fundamentals 3
This course introduces mathematical operations to solve intermediate problems using whole numbers, fractions, decimals, and percentages. Learners will be able to read, write, interpret, and apply numbers and symbolic information for problem solving. NOTE: Credits for this course are not transferable, nor do they apply to any college degree or certificate. Prerequisite(s): Completion of MATHFUND 020 or placement by testing in MATHFUND 030.

MATHFUND 040  1-10 credits
Math Fundamentals 4
This course develops mathematical operations to solve intermediate problems using whole numbers, fractions, decimals, and percentages. Learners will be able to read, write, interpret, and apply numbers and symbolic information in order to apply procedures for problem solving. NOTE: Credits for this course are not transferable, nor do they apply to any college degree or certificate. Prerequisite(s): Completion of MATHFUND 030 or placement by testing in MATHFUND 040.

MATHFUND 050  1-10 credits
Math Fundamentals 5
This is a beginning preparation course for the math GED examination. Learners will review computation skills, develop quantitative reasoning, and practice test-taking strategies. NOTE: Credits for this course are not transferable, nor do they apply to any college degree or certificate. Prerequisite(s): Completion of MATHFUND 040 or placement by testing in MATHFUND 050.

MATHFUND 060  1-10 credits
Math Fundamentals 6
This is an advanced preparation course for the math GED examination. Learners will review computation skills, develop quantitative reasoning, and practice test-taking strategies. NOTE: Credits for this course are not transferable, nor do they apply to any college degree or certificate. Prerequisite(s): Completion of MATHFUND 050 or placement by testing in MATHFUND 060.

MATHFUND 061  1-10 credits
Math Fundamentals - Integrated Math I
This course reviews arithmetic skills and introduces algebraic notation, rules, and concepts. Students explore linear relationships, with an emphasis on graphing and modeling data. Simplifying expressions and solving basic equations are also discussed. Learning to study math successfully, gaining confidence in approach and accuracy, and using a variety of ways of thinking about a single situation are outcomes for learners who take this course. Applications to real life are emphasized. NOTE: Credits for this course are not transferable, nor do they apply to any college degree or certificate. Prerequisite(s): Permission of Basic Education for Adults staff or faculty is required. Permission determined by verification of: Current enrollment in Basic Skills classes AND placement into MATH 075.

MATHFUND 062  1-10 credits
Math Fundamentals - Integrated Math II
This course focuses on algebraic thinking and manipulation. Students will study various types of functions, including linear, exponential, and logarithmic. Graphical and algebraic representations of each type of function is discussed, as well as solving authentic situations with equations. Solving linear systems both graphically and algebraically, exponent properties, and polynomial operations are included. Modeling and interpreting data is emphasized. Learners will develop study skills and habits, collaborative learning skills, and the ability to express math in many forms while working with both abstract and real world applications. NOTE: Credits for this course are not transferable, nor do they apply to any college degree or certificate. Prerequisite(s): Permission of Basic Education for Adults staff or faculty is required. Permission determined by verification of: Current enrollment in Basic Skills classes AND placement into MATH 085.

MATHFUND 063  1-10 credits
Math Fundamentals - Physics
This course prepares students to either take the high school equivalency examination in science, or earn high school completion credits in math or science. Students will be introduced to Physics concepts and the scientific process and be encouraged to examine the role of science in a global and cultural context. In addition, students will be guided to construct scientific concepts based on observations and hands-on experimentation which utilizes mathematical concepts and computations in such areas as trigonometry. A major goal is to view science as an active process of inquiry as opposed to a memorized, stagnant body of knowledge. Prerequisite(s): Placement by Basic Education for Adults staff or faculty.

MATH 075  5 credits
Introduction to Algebra
This course reviews arithmetic skills and introduces algebraic notation, rules, and concepts. Students explore linear relationships, with an emphasis on graphing and modeling data. Simplifying expressions and solving basic equations are also discussed. Learning to study math successfully, gaining confidence in approach and accuracy, and using a variety of ways of thinking about a single situation are outcomes for learners who take this course. Applications to real life are emphasized. NOTE: Credits for this course are not transferable, nor do they apply to any college degree or certificate. Prerequisite(s): Completion of MATH 040 with a grade of 2.0 or higher or placement by testing into MATH 075; and completion of ESL 060 or EFUND 040 or placement into ENGL 080 or above.

MATH 084  2 credits
Essentials of Intermediate Algebra Refresher
This course is a fast-paced condensed version of MATH 085 designed for students who only need a refresher of Essentials of Intermediate Algebra topics in order to retest and place into MATH 095, & 107, & 146, & 171, & 172, & 173. Students who placed into MATH 095 or higher may also be interested in taking this course in order to refine skills which are essential for successfully completing Algebra for Precalculus. Students may retake the COMPASS test at the end of this course in order to determine their new placement. Grading for this course is pass/fail only. NOTE: Credits for this course are not transferable, nor do they apply to any college degree or certificate. Prerequisite(s): Completion of MATH 075 with a grade of 2.0 or higher or placement by testing into MATH 085; and completion of ESL 060 or EFUND 040; or placement into ENGL 080 or above.
MATH 085 Essentials of Intermediate Algebra
This course focuses on algebraic thinking and manipulation. Students will study various types of functions, including linear, exponential, and logarithmic. Graphical and algebraic representations of each type of function is discussed, as well as solving authentic situations with equations. Solving linear systems both graphically and algebraically, exponent properties, and polynomial operations are included. Modeling and interpreting data is emphasized. Learners will develop study skills and habits, collaborative learning skills, and the ability to express math in many forms while working with both abstract and real world applications. **NOTE:** Credits for this course are not transferable, nor do they apply to any college degree or certificate. **Prerequisite(s):** Completion of MATH 075 with a grade of 2.0 or higher or placement by testing into MATH 085; and completion of ESL 060 or EFUND 040; or placement into ENGL 080 or above.

MATH 094 Algebra for Precalculus Refresher
This course is a fast-paced condensed version of MATH 095 designed for students who only need a refresher of Algebra for Precalculus topics in order to retest and place into Precalculus level math. Students who placed into MATH & 141 or MATH 147 may also take this course in order to refine skills which are essential for successfully completing their next math class. Students may retake the COMPASS test at the end of this course in order to determine their new placement. Grading for this course is pass/fail only. **NOTE:** Credits for this course are not transferable, nor do they apply to any college degree or certificate. **Prerequisite(s):** Completion of MATH 085 with a grade of 2.0 or higher or placement by testing into MATH 095; and completion of ESL 060 or EFUND 040; or placement into ENGL 080 or above.

MATH 095 Algebra for Precalculus
This course builds on the knowledge developed in MATH 085. The primary content of the course is algebra, but topics in geometry, right triangle trigonometry, probability, and number theory are also included. Learners will continue to refine study skills and habits, team skills, logic, and the ability to express math visually, symbolically, and in written forms while working with both abstract and real-world applications. **NOTE:** Credits for this course are not transferable, nor do they apply to any college degree or certificate. **Prerequisite(s):** Completion of MATH 085 with a grade of 2.0 or higher or placement by testing into MATH 095; and completion of ESL 060 or EFUND 040; or placement into ENGL 080 or above.

MATH 107 Math in Society
Q - This terminal mathematics course is designed for liberal and fine arts students. Course core topics include linear and exponential growth and decay models, proportional reasoning, personal finance, probability, and descriptive statistics. Additional topics may include discrete math topics such as graph theory or fair division, geometry/trigonometry, math in the arts, symbolic logic supporting probability, or other topics of the instructor’s choice. Learners will work in teams on applications and examples relevant to humanities, social sciences, and education. Content emphasis is on problem solving and quantitative reasoning. Technology is integrated throughout the course. Students communicate results in oral and written form. A graphing calculator is required. See syllabus for specific calculator recommendations. **Prerequisite(s):** Completion of MATH 085 with a grade of 2.0 or higher or placement into MATH 107; and completion of ENGL 90 with a grade of 2.0 or higher or placement by testing into ENGL 096.

MATH& 131 Math for Elementary Education 1
NS, Q - This 5-credit course is one quarter of the 2-quarter mathematics for elementary education sequence. Prospective or practicing elementary school teachers will investigate problem solving techniques and number theory related to topics taught at the K-8 level. Topics will include problem solving, set theory, number theory, multiplicative comparisons and reasoning, ratio, rates, proportions, patterns, functions, and the use of technology. Students will be required to complete 5 hours of classroom experience and submit an evaluation from the field site supervisor observing the student’s work with children. **Prerequisite(s):** Completion of MATH 085 with a grade of 2.0 or higher or placement by testing into MATH& 131; and completion of ENGL 90 with a grade of 2.0 or higher or placement by testing into ENGL 096.

MATH& 132 Math for Elementary Education 2
NS, Q - This 5-credit course is one quarter of the 2-quarter mathematics for elementary education sequence. Prospective or practicing elementary school teachers will investigate problem solving techniques, geometry, probability, and statistics related to topics taught at the K-8 level. Topics will include problem solving, geometry and its applications, measurement, simulating probabilistic situations, sampling, organizing and interpreting data, graphing, and the use of technology. Students will be required to complete 5 hours of classroom experience and submit an evaluation from the field site supervisor observing the student’s work with children. **Prerequisite(s):** Completion of MATH 085 with a grade of 2.0 or higher or placement by testing into MATH& 132; and completion of ENGL 90 with a grade of 2.0 or higher or placement by testing in ENGL 096.

MATH& 141 Precalculus I
NS, Q - This 5-credit, college-level math course is for students intending to pursue coursework in mathematics, the natural or computer sciences, or engineering. The course builds on the base of MATH 095 and assumes that the student plans on taking MATH& 142. Learners investigate relations and functions in graphic, numeric, symbolic, and verbal forms. Modeling techniques are introduced while exploring exponential, logarithmic, polynomial, power, and rational functions. Learners investigate applications primarily from a science and engineering perspective. Students communicate results in oral and written form. Technology is integrated throughout the course. A graphing calculator is required. A TI-83+ or TI-84+ is strongly recommended. **Prerequisite(s):** Completion of MATH 095 with a grade of 2.0 or higher or placement by testing into MATH& 141; and completion of ENGL 90 with a grade of 2.0 or higher or placement by testing into ENGL 096.

MATH& 142 Precalculus II
NS, Q - This 5-credit course is the second half of a two-course sequence designed to prepare students for calculus with an emphasis on those topics and applications most appropriate for a science and engineering curriculum. Topics are investigated graphically, numerically, symbolically, and verbally. These topics include trigonometric functions, equations, identities, vectors, polar coordinates, parametric equations, and complex numbers. Students will model periodic, real-world problems. Technology is integrated throughout the course and a graphing calculator is required. **Prerequisite(s):** Completion of MATH& 141 or MATH 147 with a grade of 2.0 or higher or placement by testing into MATH& 142; and completion of ENGL 90 with a grade of 2.0 or higher or placement by testing into ENGL 096.

MATH& 146 Introduction to Statistics
NS, Q - This course provides an algebra-based interdisciplinary introduction to the core concepts of statistics and probability. Primary focus will be on- but not limited to-business and social science applications. Learners will be introduced to various forms of descriptive statistics. Learners will also gain understanding of the basic tools of statistical inference and analysis while examining data, experiments, and readings in their field of study. Emphasis is on interpretation over calculation, and needed technology will be taught along with the subject matter. A graphing calculator is required. **Prerequisite(s):** Completion of MATH 085 with a grade of 2.0 or higher or placement by testing in MATH 095 or higher; and completion of ENGL 090 with a grade of 2.0 or higher or placement by testing in ENGL 096.
MATH 147 5 credits
Business Precalculus
(Formerly Finite Math) This 5-credit, college-level math course is for students intending to pursue coursework in business, the social or life sciences, or management. The course builds on the base of MATH 095 and assumes that the student plans on taking MATH& 148. Relations and functions are investigated in graphic, numeric, symbolic, and verbal forms. Modeling techniques are introduced while exploring exponential, logarithmic, polynomial, and power functions. Topics introduced include matrices, linear programming, population growth, and math of finance. Special topics may include systems of non-linear equations, probability and counting, statistics, graph theory, and rational and logistic functions. Applications are investigated primarily from a life and social science, business and management perspective. Technology is integrated throughout the course. Students communicate results in oral and written form. A graphing calculator is required. Prerequisite(s): Completion of MATH 095 with a grade of 2.0 or higher; and completion of ENGL 090 with a grade of 2.0 or higher or placement by testing into MATH 147; and completion of ENGL 090 with a grade of 2.0 or higher or placement by testing into MATH 147.

MATH& 148 5 credits
Business Calculus
NS, Q - This 5-credit course provides an interdisciplinary introduction to the core concepts of calculus with a primary focus on applications from disciplines of economics and the social sciences. The content is applications in differential, integral and multivariable calculus with an introduction to The Fundamental Theorem of Calculus. Learners will continue to refine their independent study skills, cooperative problem solving, logically correct and mathematically precise writing and thinking, and their ability to use geometric, symbolic and analytic formats in presenting solutions to both abstract and real world applications. Technology is integrated throughout the course. A graphing calculator is required. Prerequisite(s): Completion of MATH 147 with a grade of 2.0 or higher or placement by testing into MATH& 148; and completion of ENGL 090 with a grade of 2.0 or higher or placement by testing into ENGL 090.

MATH 152 5 credits
Calculus II
NS, Q - This 5-credit course is the second quarter of the three-quarter calculus sequence. Primary content is integral calculus including applications of The Fundamental Theorem of Calculus and separable differential equations. Learners will continue to refine independent study skills, cooperative problem solving, logically correct and mathematically precise writing and thinking, and their ability to use geometric, symbolic, and analytic formats in presenting solutions to both abstract and real world applications. Prerequisite(s): Completion of MATH& 151 with a grade of 2.0 or higher; and completion of ENGL 090 with a grade of 2.0 or higher or placement by testing into MATH 096.

MATH 153 5 credits
Calculus III
NS, Q - This 5-credit course is the third quarter of the three-quarter calculus sequence. Content includes infinite sequences and series, differentiation and integration in polar coordinates, introduction to parametric equations, and vectors in two and three dimensions. Multiple integrals and partial derivatives with applications that include optimization, volume and the gradient are central to this course. Learners will continue to refine independent study skills, cooperative problem solving, logically correct and mathematically precise writing and thinking, and their ability to use geometric, symbolic, and analytic formats in presenting solutions to both abstract and real world applications. Prerequisite(s): Completion of MATH& 152 with a grade of 2.0 or higher; and completion of ENGL 090 with a grade of 2.0 or higher or placement by testing into MATH 096.

MATH& 163 5 credits
Calculus I
NS, Q - This 5-credit course is the first quarter of the three-quarter calculus sequence that provides an interdisciplinary introduction to the core concepts of differential calculus with a primary focus on applications from the disciplines of math, computer science, and the physical sciences. Content includes both applications and theory of differential calculus leading to an introduction of The Fundamental Theorem of Calculus. Learners will continue to refine independent study skills, cooperative problem solving, logically correct and mathematically precise writing and thinking, and their ability to use geometric, symbolic, and analytic formats in presenting solutions to both abstract and real world applications. Classroom activities will include lecture/discussion and group work. Students will communicate their results in oral and written form. Graphing calculator required. Prerequisite(s): Completion of MATH& 142 with a grade of 2.0 or higher or placement by testing into MATH 151, and completion of ENGL 090 with a grade of 2.0 or higher or placement by testing into MATH 151.

MATH 196 1-5 credits
Mathematics Individualized Project I
Students will research and produce or perform a project in mathematical or an interdisciplinary topic emphasizing mathematics applications. The content, learning outcomes, and assessment methods of the project are developed by the supervising instructor and student(s). Prerequisite(s): Instructor permission.

MATH 199 1-5 credits
Service Learning in Mathematics I
Service learning provides a mechanism to combine academic studies with community service. In concert with a faculty advisor and community agency representative, students develop and apply scientific skills and expertise in a community setting. The student will be involved in defining the project scope and will be required to travel off-campus to the service site. Prerequisite(s): Instructor permission.

MATH 208 5 credits
Linear Algebra
NS, Q - An introduction to the vocabulary, concepts, methods, and applications of linear algebra. Learners will become familiar with vector spaces, systems of linear equations, matrix algebra, linear transformations, orthogonality, and eigenvectors. They will develop conceptual understanding of the algebraic and geometric aspects of linearity, will use technology to implement their investigations, and will analyze and communicate the modern applications of linear algebra. A scientific calculator is required. Prerequisite(s): Completion of MATH& 152 with a grade of 2.0 or higher; and completion of ENGL 090 with a grade of 2.0 or higher or placement by testing into MATH 096.

MATH 238 5 credits
Differential Equations
Students in this course will explore first- and second-order differential equations and utilize various methods including undetermined coefficients, variation of parameters, and Laplace transforms to solve these differential equations. Students will also investigate series solutions, numerical approaches, and matrix methods for systems of linear first-order differential equations. Emphasis will be placed on real-world applications and technology will be integrated throughout the course. A graphing calculator is required. Prerequisite(s): Co-enrollment with or completion of MATH& 163 with a grade of 2.0 or higher.
MATH& 264  
Calculus 4  
5 credits  
NS, Q - Content includes double and triple integrals and their applications, the chain rule, vector fields, line and surface integrals, culminating in the theorems of Green and Stokes, and the Divergence Theorem. Additional topics may include parametric surfaces and their areas, an introduction to second order linear differential equations, or other topics of instructor's choice. Learners will become familiar with the vocabulary of the subject material, will develop conceptual understanding of the important topics, will use technology to implement their investigations, and will analyze and communicate how the concepts can be applied to real-world situations. A graphing calculator is required. Prerequisite(s): Completion of MATH& 163 with a grade of 2.0 or higher; and completion of ENGL 090 with a grade of 2.0 or higher or placement by testing into ENGL 096.

MATH 296  
Mathematics Individualized Project II  
1-5 credits  
Students will research and produce or perform a project in mathematical or an interdisciplinary topic emphasizing mathematics applications. The content, learning outcomes, and assessment methods of the project are developed by the supervising instructor and student(s). Prerequisite(s): Instructor permission.

MATH 297  
Mathematics Internship II  
1-5 credits  
The student will identify an opportunity for an internship or volunteer prospect that matches both the outcomes of the students program and their interests. Together with an instructor, the student will complete a written contract that specifies the learning outcomes and defines the duration of the course and the credits to be granted upon successful completion. Prerequisite(s): Instructor permission.

MATH 298  
Special Topics in Mathematics II  
1-5 credits  
The instructor, possibly in collaboration with students, designs course content, activities and learning outcomes that address a new topical or thematic approach to mathematics. Students will develop learning, thinking, communicating, and interacting abilities. Prerequisite(s): Instructor permission.

MATH 299  
Service Learning in Mathematics II  
1-5 credits  
Service learning provides a mechanism to combine academic studies with community service. In concert with a faculty advisor and community agency representative, students develop and apply scientific skills and expertise in a community setting. The student will be involved in defining the project scope and will be required to travel off-campus to the service. Prerequisite(s): Instructor permission.

MUSC& 105  
Music Appreciation  
5 credits  
H - Students learn to explore music and human behavior related to music across time and in cultures across the world. Students gain a practical foundation for understanding the ideas and behaviors related to musical traditions and the basic elements of music Prerequisite(s): Completion of ENGL 090 with a grade of 2.0 or higher or placement by testing in ENGL 096.

MUSC 130  
Popular Music in the United States  
5 credits  
H - This course is designed for students with no prior music training. Students will explore the roots and evolution of a variety of popular music styles of the United States, including minstrelsy, Tin Pan Alley and musical theater, ragtime, jazz, blues, country music, and rock and roll. Students gain a practical foundation for analysis such as the basic elements of music and the historical, political, and cultural influences on musical traditions in the United States. Prerequisite(s): Completion of ENGL 090 with a grade of 2.0 or higher or placement by testing in ENGL 096.

MUSC 140  
Jazz History and Appreciation  
5 credits  
H - This course is designed for students with no prior music training. Students will explore the foundational elements of the jazz tradition in the United States, including African antecedents, music in African American slave culture (the ring shout, spirituals, and work songs), and the basic structures and style periods of the music and culture, including early New Orleans jazz, big band swing, the bebop movement, cool jazz, hard bop, the avant-garde, neo-traditionalism, and jazz as an international musical language. Students gain a practical foundation for analysis of the basic elements of music and of the historical, political, and cultural influences surrounding the birth and evolution of jazz. Prerequisite(s): Completion of ENGL 090 with a grade of 2.0 or higher or placement by testing in ENGL 096.

NSCI 197  
Natural Science Internship I  
1-5 credits  
The student will identify an opportunity for an internship or volunteer prospect that matches both the outcomes of the student's program and their interests. Together with an instructor, the student will complete a written contract that specifies the learning outcomes and defines the duration of the course and the credits to be granted upon successful completion. Prerequisite(s): Instructor permission.

NSCI 198  
Special Topics in Natural Science I  
1-5 credits  
The instructor, possibly in collaboration with students, designs course content, activities and learning outcomes that address a new topical or thematic approach to the natural sciences. Students will develop learning, thinking, communicating, and interacting abilities. Prerequisite(s): Instructor permission.

NSCI 199  
Service Learning in Natural Science I  
1-5 credits  
Service learning provides a mechanism to combine academic studies with community service. In concert with a faculty advisor and community agency representative, students develop and apply scientific skills and expertise in a community setting. The student will be involved in defining the project scope and will be required to travel off-campus to the service site. Prerequisite(s): Instructor permission.

NSCI 296  
Natural Science Individualized Project II  
1-5 credits  
Students will research and produce or perform a project in a scientific subject or an interdisciplinary topic emphasizing the natural sciences in some way. The content, learning outcomes, and assessment methods of the project are developed by the supervising instructor and student(s). Prerequisite(s): Instructor permission.

NSCI 297  
Natural Science Internship II  
1-5 credits  
The student will identify an opportunity for an internship or volunteer prospect that matches both the outcomes of the student's program and their interests. Together with an instructor, the student will complete a written contract that specifies the learning outcomes and defines the duration of the course and the credits to be granted upon successful completion. Prerequisite(s): Instructor permission.
NCSCI 298 1-5 credits
Special Topics in Natural Science II
The instructor, possibly in collaboration with students, designs course content, activities, and learning outcomes that address a new topical or thematic approach to the natural sciences. Students will develop learning, thinking, communicating, and interacting abilities. Prerequisite(s): Instructor permission.

NCSCI 299 1-5 credits
Service Learning in Natural Science II
Service learning provides a mechanism to combine academic studies with community service. In concert with a faculty advisor and community agency representative, students develop and apply scientific skills and expertise in a community setting. The student will be involved in defining the project scope and will be required to travel off-campus to the service site. Prerequisite(s): Instructor permission.

NUTR& 101 5 credits
Nutrition
NS: Six of the ten leading causes of death in America are diet-related. In this course students will learn the macronutrients (carbohydrates, fats, proteins) and micronutrients (vitamins, minerals and phytochemicals) that promote optimal health. Students will examine digestion and metabolism of food; energy balance and weight control; use of exercise as related to energy balance; how current culture influences food choices and health; and risks of obesity, diabetes, and other nutrition related, prevalent diseases. Students will design an individual, healthy diet; discuss the role of government in the education of people, use the scientific method to analyze dietary claims; and learn basic food safety and bioengineering. Designed for students with little or no biology or chemistry background. Prerequisite(s): Completion of ENGL 090 with a grade of 2.0 or higher or placement by testing in ENGL 096.

PHIL& 101 5 credits
Introduction to Philosophy
H: In this course, students will engage in the study and practice of philosophy. Students will learn to read and evaluate classic and contemporary philosophical texts and will develop the background and understanding to formulate their own answers to questions that have intrigued philosophers through the ages, for example, “What is truth?” “What is knowledge?” “Does God exist?” and “What is the meaning of life?” Other issues will be examined as well, such as the nature of reality, freedom of the will, the nature of morality, and the best way to organize society. This course emphasizes the role of reason and argument in a community of inquiry; the goal is for students to emerge from the class with an understanding of how philosophy is done, a familiarity with key historical texts and themes, and a foundation for further study both within and beyond the discipline. Prerequisite(s): Co-enrollment with or completion of ENGL 096 with a grade of 2.0 or higher or placement by testing into ENGL& 101.

PHIL 102 5 credits
Ethics and Social Problems
CKR: H: This is a course in learning to disagree constructively in a diverse and pluralistic global society. To that end, students will examine a range of contentious social issues and the reasons individuals and groups have for their positions on those issues. Students will be encouraged to think independently and engage in dialogue about ethics in a variety of contexts and settings, including local, national, and global communities. Students will leave the course better equipped to understand why people differ in their moral judgments, more skilled in reflecting upon their own underlying assumptions and better able to consider alternative views of power and inequality, and in fuller possession of the tools to continue engaging in the practice of moral reasoning. Prerequisite(s): Completion of ENGL 096 with a grade of 2.0 or higher or placement by testing in ENGL 096.

PHIL& 115 5 credits
Critical Thinking
H: This course is designed to help students decide whether to accept or reject the claims people make in academia, business, advertising, and other walks of life. At the conclusion of this non-symbolic approach to logic and critical thinking, students will have the skills necessary to critically evaluate arguments, to distinguish good reasoning from bad, and to recognize illegitimate or fallacious attempts to manipulate them into accepting ideas or information. Additionally, students will learn to counter real-life examples of faulty reasoning with logical, well-organized arguments that are sensitive to intended audience and purpose. Prerequisite(s): Completion of ENGL 090 with a grade of 2.0 or higher or placement by testing in ENGL 096.

PHIL& 120 5 credits
Symbolic Logic
H, Q: This course enables students to symbolize and analyze the structural basis of arguments encountered every day, for example, in college lectures and texts, in advertisements and the media, and at work. By focusing on core content of symbolic logic: namely sentence logic with proofs and predicate logic with quantifiers and proofs—students will learn to describe the structure of arguments, translate passages in ordinary language into symbolic notation, and by doing so, determine whether or not the arguments are valid. Prerequisite(s): Completion of MATH 085 or above with a grade of 2.0 or higher, or placement into MATH 095.

PHIL 220 5 credits
Global Philosophy
CKR, GS, H: This course introduces students to philosophical ideas and systems emerging from outside the Western analytic philosophical perspective. Students can expect to explore and assess perennial questions about such topics as the nature of reality, truth, value, knowledge, and religion as they have been engaged with by such traditions as Hinduism, Buddhism, Confucianism, Taoism, and other historical and cultural perspectives emerging from non-Western cultures. The goal of this course is to help students see the similarities and differences in how these topics have been and are dealt with by philosophers around the globe and outside the Western canon, and in so doing, better understand their own views and how they are informed by familiar and unfamiliar cultural and philosophical influences. Prerequisite(s): Completion of ENGL 096 with a grade of 2.0 or higher or placement by testing in ENGL& 101.
PHIL 238  5 credits
Introduction to the Philosophy of Human Rights
GS, H- This course will provide students with an introduction to the philosophy of human rights as a foundation for the exploration of applied human rights issues in a global context. Students will develop an understanding of how human rights are conceptualized and justified and consider a variety of questions, such as: What is a human right and what is its source? Should human rights be universal or are they culturally relative? What sorts of public and/or governmental policies are justified in the name of protecting or securing human rights? Can a human right be forfeited and if so by whom? Could human rights apply to non-humans? Do future generations have human rights? Students will come out of this class with a solid understanding of the main philosophical and conceptual themes in the study of human rights, better prepared to undertake further study and practice of human rights both in academia and the world at-large. Prerequisite(s): Completion of ENGL 096 with a grade of 2.0 or higher or placement by testing into ENGL& 101.

PHIL 240  5 credits
Introduciton to Philosophical Ethics
H- This course is designed to help students better understand and evaluate moral claims through an examination of the theoretical criteria upon which those claims are based. Students will be introduced to a number of classic and contemporary works in philosophy that examine questions like: “What makes right acts right?” “What is the role of character in ethical behavior?” “Is pleasure the only ultimate good?” “What is the nature of justice?” Influential ethical theories such as utilitarianism, deontology, and virtue ethics will be surveyed. Students will come away from the course with a deeper understanding of the basis of morality and be better equipped to evaluate ethical issues they face in their own lives. Prerequisite(s): Completion of ENGL 101 with a grade of 2.0 or higher.

PHIL 242  5 credits
Biomedical Ethics
H- This course is intended to give students the theoretical background for applying moral reasoning to issues they would be likely to face in a contemporary global business setting. It explores ethical concerns in marketing, race/ gender bias, economics, the natural environment, employee-employer duties, civic relations, global interactions, the use of technology, and more. Students will come out of this class with a deeper sense of our ethical obligations to the environment and with a greater understanding of how to make choices that support environmental sustainability. Prerequisite(s): Completion of ENGL 096 with a grade of 2.0 or higher or placement by testing into ENGL 096.

PHIL 260  5 credits
Business Ethics
CKR, H- This course is intended to give students the theoretical and practical skills for applying moral reasoning to issues they would be likely to face in a contemporary global business setting. It explores ethical concerns in marketing, race/ gender bias, economics, the natural environment, employee-employer duties, civic relations, global interactions, the use of technology, and more. Students will come out of this class with a deeper sense of what’s at stake ethically as businesspeople and with a greater understanding of how to do business in a manner that respects the inherent dignity of all people. Prerequisite(s): Completion of ENGL 096 with a grade of 2.0 or higher or placement by testing into ENGL& 101.

PHIL 267  5 credits
Philosophy of Religion
H- This course is a philosophical exploration of questions related to and inspired by religion and religious belief. Students will examine arguments for and against the existence of God, immortality and the afterlife, the status of miracles, the relation between morality and religion, the problem of evil, and other issues that emerge from human beings’ interest in spirituality and the unknown. Rather than focusing on any one religious faith, the course addresses perennial questions that give rise to religion in general. That said, the material tends towards philosophical issues in western philosophy as it has engaged the Judeo-Christian-Islamic tradition. Students can expect to come out of this course with a clearer sense of how philosophy and religion interact and a better understanding of their own philosophical and spiritual beliefs. Prerequisite(s): Completion of ENGL 096 with a grade of 2.0 or higher or placement by testing into ENGL& 101.

PHIL 460  5 credits
Ethics of Sustainability
Students will come to understand the important ethical challenges facing individuals, organizations, and countries in the world, as well as the science that both underlies those challenges and in some cases, either contributes to or alleviates them. Students will leave this class with a unique skillset: they will have developed the moral reasoning ability to formulate and defend positions on key environmental issues as well as the scientific reasoning ability to be able to put into practice solutions they may come up with. Prerequisite(s): Admission to BAS-SP program, OR instructor permission.

PHYS& 100  5 credits
Physics for Non-Science Majors
NS- Intended for non-science majors, this class is an introduction to scientific inquiry through the exploration of a subset of topics covered in a general physics series. Students will be encouraged to examine science’s place in a global, cultural context. With an emphasis on active discovery, students are guided to construct scientific concepts for themselves based on their own observations and hands-on experimentation. A major goal is to view science as an active process of inquiry as opposed to a memorized, stagnant body of knowledge. Prerequisite(s): Completion of ENGL 096 with a grade of 2.0 or higher; and placement into MATH 085 or above.

PHYS 111  5 credits
Physics of Sustainable Energy
NS- Intended for Environmental Technologies and Sustainable Practice (ETSP) majors as well as non-science majors, students will explore several physics concepts that relate to power generation and sustainable energy. Students will engage with scientific methods and be encouraged to examine science’s place in a global, cultural context. With an emphasis on active discovery, students are guided to construct scientific concepts for themselves based on their own observations and hands-on experimentation. A major goal is to view science as an active process of inquiry as opposed to a memorized, stagnant body of knowledge. Prerequisite(s): Completion of ENGL 096 with a grade of 2.0 or higher; and placement into MATH 085 or above.

PHYS& 114  5 credits
General Physics with Lab I
NS- This course is the first in a three quarter sequence designed for liberal arts and other majors that do not require calculus-based physics. Students will learn and apply the laws that govern motion, explore the relationship between work and energy, and examine momentum. Laboratory activities extend lecture concepts and introduce the student to the experimental process. Prerequisite(s): Co-enrollment with or completion of MATH 095 with a grade of 2.0 or higher. (LAB)
**PHYS& 115**  
*General Physics with Lab II*  
NS- This course is the second in a three quarter sequence designed for liberal arts and other majors that do not require calculus-based physics. Students will study the properties of fluids, the relationship between energy, heat, and kinetic theory, and use the laws of thermodynamics to describe the changes in energy. Students also learn the properties and applications of electricity and magnetism. Laboratory activities extend lecture concepts and expose the student to an array of basic tools of experimental physics and data analysis.  
**Prerequisite(s):** Completion of PHYS& 114 with a grade of 2.0 or higher. (LAB)

**PHYS& 221**  
*Engineering Physics I*  
NS- This course is the first in a calculus-based sequence designed for physical science and engineering majors. Students gain an in-depth conceptual and analytical understanding of the motion of objects. Laboratory activities extend lecture concepts and introduce the student to an array of basic tools of experimental physics and data analysis.  
**Prerequisite(s):** Completion of PHYS& 221 with a grade of 2.0 or higher; and completion of MATH& 151 with a grade of 2.0 or higher. (LAB)

**PHYS& 222**  
*Engineering Physics II*  
NS- This course is calculus-based and designed for physical science and engineering majors. Students gain an in-depth conceptual and analytical understanding of electrical and magnetic phenomena. Laboratory activities extend lecture concepts and emphasize the connection between experimental observation and construction of physics theories.  
**Prerequisite(s):** Completion of PHYS& 221 with a grade of 2.0 or higher; and completion of MATH& 151 with a grade of 2.0 or higher. (LAB)

**PHYS& 223**  
*Engineering Physics III*  
NS- This course is calculus-based and designed for physical science and engineering majors. Students gain an in-depth conceptual and analytical understanding of sound, light, and optics. Topics in modern physics are also explored. Laboratory activities extend lecture concepts and emphasize data collection and analysis.  
**Prerequisite(s):** Completion of PHYS& 221 with a grade of 2.0 or higher; and completion of MATH& 151 with a grade of 2.0 or higher. (LAB)

**POLITICAL SCIENCE**

**POLS& 101**  
*Introduction to Political Science*  
CKR, SS- Students in this introductory political science course will explore and analyze political philosophies, political ideologies, the historical development of political thought, and examine the reasons people choose an ideology over others. They will learn to articulate key attributes of democracy, authoritarianism, and the major "isms" (liberalism, conservatism, capitalism, socialism, communism, and fascism) and will analyze how well each ideology has dealt with social, economic, and political problems.  
**Prerequisite(s):** Completion of ENGL 090 with a grade of 2.0 or higher or placement by testing in ENGL 096.

**POLS& 203**  
*International Relations*  
GS, SS- This course introduces students to the field of international relations. It will focus on basic concepts such as nations and nationalism, the nature of the interstate system, the United Nations, power, international conflict and war, and prospects for peaceful conflict resolution. Students will also be introduced to the various modes through which nation-states interact, including, trade, war, diplomacy, and alliances.  
**Prerequisite(s):** Completion of ENGL 090 with a grade of 2.0 or higher or placement by testing in ENGL 096.

**POLS& 204**  
*Comparative Government*  
GS, SS- This course compares the varied political systems and governance structures of the world. By focusing analysis on selected countries and indigenous governments, students will learn to assess world issues and problems in their full historical, economic, and cultural contexts. They will apply basic methods of comparative research and compare key attributes of world political systems.  
**Prerequisite(s):** Completion of ENGL 090 with a grade of 2.0 or higher or placement by testing in ENGL 096.

**POLS 205**  
*Politics of the Middle East and North Africa*  
CKR, GS, SS- This course offers an in-depth examination of the political economy, cultural, and social history of the Middle East and North Africa. It employs a broadly comparative perspective to shed light on some of the more vexing problems shared in common by the various states and societies in the region. The course focuses on such issues as the emergence of competing ideological systems, political culture and competing world views, problems of economic development and democratization, mass mobilization and social movements, and regional conflict and war. At the end, it is hoped that students will acquire the analytical skills necessary for challenging resilient stereotypes about the region, and for independently making sense of historical and contemporary problems in Middle East and North Africa.  
**Prerequisite(s):** Completion of ENGL 090 with a grade of 2.0 or higher or placement by testing in ENGL 096.
POLS 206 5 credits
State & Local Government
SS- This course focuses on the institutions, processes, and challenges involved in making and implementing public policy at both the state and local level. Students will examine the political and legal foundations of state and local governments and the factors that influence policy outcomes to understand 1) how state and local governments function, 2) what allows governments to meet the needs of their constituents and 3) what prevents governments from achieving their goals. Although this course will focus on state and local government generally, it will give special attention to the state of Washington. Prerequisite(s): Completion of ENGL 090 with a 2.0 or higher or placement by testing in ENGL 096.

POLS 213 5 credits
Women and Politics
SS- This course focuses on role of women in political systems as voters, party activists, candidates, and public officials and the impact their presence can have on public policy outputs. As we examine these themes, we will study how history, culture, and political systems and institutions affect the role and status of women in politics. This course will pay special attention to the status of women in U.S. politics and will use that examination to compare the role of women in political systems worldwide. Prerequisite(s): Completion of ENGL 090 with a grade of 2.0 or higher or placement by testing in ENGL 096.

POLS 306 5 credits
State Government and Public Policy
This course focuses on the institutions, actors, processes and challenges involved in making and implementing public policy in state government. Students will examine the political and legal foundations of state governments and the actors that influence policy outcomes to understand 1) how state governments function, 2) what allows government to meet the needs of their constituents and 3) what prevents government from achieving their goals. Additionally, this course will introduce students to foundational theories and concepts of the study of public policy creation, implementation, and evaluation. Although this course will focus on state government structure and policymaking generally, it will give special attention to the impact of policy processes on environmental and sustainability policy and the government of the state of Washington. Prerequisite(s): Admission to BAS-SP program; OR instructor permission.

POLS 445 5 credits
Environmental Politics and Policy
This course offers an in-depth examination of historical and current issues in environmental politics. Students will develop a thorough understanding of the stages of the policy process from the identification and advocacy of environmental public policy problems, to agenda setting, to creation of alternatives, to decision-making, to implementation, to evaluation and feedback. The examination of environmental case studies from the local and state levels to the national and international levels will create a deeper understanding of the complex political dynamics involved in policy making institutions. Ultimately, students will gain the skills and tools to competently analyze domestic and global environmental policy in a variety of situations. Prerequisite(s): Admission to BAS-SP program; OR instructor permission.

PSYCHOLOGY

PSYC& 100 5 credits
General Psychology
SS- This course provides an introduction to human behavior and mental processes, so that students will become conversant with the history on psychology, as well as current issues and careers in psychology. Core topics include critical thinking and research methods in psychology; neuroscience; and learning. Additional topics may include social behavior, personality, psychological disorders and treatment, human development, cognitive psychology, emotions/stress/health, cross-cultural psychology, and community psychology. Students can expect to come out of this class with a basic knowledge and understanding of psychological concepts, methods, and issues, and a solid foundation for further study in the field of psychology. Prerequisite(s): Completion of or co-enrollment with ENGL 096 or placement by testing into ENGL 101.

PSYC 171 3 credits
Human Relations
CKR, SS- Students in this course will explore contemporary issues of interpersonal relationships, communication, empathy and conflict resolution from a social science perspective. Students will be presented with social and peace psychology theory and research and then they will learn to apply this research in their daily lives. Special emphasis will be placed on helping students to develop and apply human relations skills in various settings. Students will also learn to negotiate the complexities of communication across various aspects of difference, including culture, gender, and sexual orientation. NOTE: this course only meets 3.0 credits of the CKR and Social Science requirements. Prerequisite(s): Completion of ENGL 090 with a grade of 2.0 or higher or placement by testing into ENGL 096.

PSYC& 180 5 credits
Human Sexuality
SS- This course examines the biological, psychological, and social determinants of human sexuality and sexual behavior. Students will learn about topics related to sexual development (physical and psychological), sexual health, and sexual behavior. Throughout the course, the cultural and psychological influences on sexual behavior and perceptions will be addressed. NOTE: This course will deal with mature content. Parental permission will be required for students who are under 18 years of age. Prerequisite(s): Completion of ENGL 090 with a grade of 2.0 or higher or placement by testing in ENGL 096.

PSYC& 200 5 credits
Lifespan Psychology
SS- This course examines patterns of development and theories regarding human physical, cognitive, social, and emotional development through the lifespan. Students will learn to apply models of human development, including systems theories, and draw multiple interpretations from careful description of human behavior across various cultures. This course will require a guided integrated learning project in the community (approximately 10-15 hours). This course will fulfill the integrated learning requirement. Prerequisite(s): Completion of ENGL 101 with a grade of 2.0 or higher; and successful completion of an introductory college level course in one of the following disciplines: PSYC, ANTH, SOC, or EDUC with a grade of 2.0 or higher.

PSYC 210 5 credits
Cognitive Psychology
SS- This course examines the major theories, research methods, and research findings of cognitive psychology. The historical development of the field and connections to other major theories of learning will also be discussed. Students will explore the complex mental processes that support learning, memory, and problem solving. Special emphasis will be placed on understanding the applications of cognitive psychology to fields such as business, education, and the law. Prerequisite(s): Completion of ENGL 101 with a grade of 2.0 or higher; AND completion of an introductory college level course in one of the following disciplines: ANTH, EDUC, PSYC, or SOC with a grade of 2.0 or higher.

PSYC& 220 5 credits
Abnormal Psychology
SS- This course provides an introduction to human behavior patterns culturally labeled as mental illness, examining the dominant theories and constructions of psychological disorders currently used in U.S. society and codified in the Diagnostic and Statistical Manual of the APA. In addition, it will provide opportunities to explore alternative paradigms and multi-cultural conceptions of mental illness and treatment. Students will learn to describe the major categories of disorders, their etiology, incidence, and treatment as well as cultural attitudes towards such patterns of behavior. Prerequisite(s): Completion of an introductory college course in ANTH, BIOL, PSYC, or SOC with a grade of 2.0 or higher.
**PSYC 245**  
**Social Psychology**  
CKR, SS- This course provides an introduction to social psychology, the scientific study of human social influence and interaction. It will include research on the nature, causes, and consequences of individual behavior within various social contexts. Topics and themes will include conformity, persuasion, empathy, relationships, aggression, prejudice, and conflict resolution. Students will learn to apply what they have learned in order to foster a more peaceful and sustainable world. **Prerequisite(s):** Successful completion of an introductory college level course in one of the following disciplines: ANTH, EDUC, PSYC, or SOC with a grade of 2.0 or higher.

**PSYC 250**  
**Cross-Cultural Psychology**  
CKR, SS- This comparative cross-cultural psychology course explores various psychological perspectives, with the assertion that psychological theories are deeply rooted in the underlying socio-cultural assumptions from which they emerge. Students will explore the impact of culture on cognition, development, emotion, motivation, health and disorders, individual and group behavior, and intercultural perceptions and interaction. They will also examine ethical issues relevant to conducting research across cultures. **Prerequisite(s):** Completion of one of the following with a grade of 2.0 or higher: college level ANTH, or college level PSYC or college level SOC.

**PSYC 251**  
**Organizational Behavior**  
CKR, GS, SS- This course deals with the psychology of work. In it, students will explore interpersonal behavior in the context of organizations and bureaucracies at the individual, group, and organizational levels. Students will develop skills that enhance performance at these levels, and understand multicultural differences in the workplace and other formal settings. Special emphasis will be placed on evaluating the nature and role of diversity in the workplace and business environment. **Prerequisite(s):** Include dimensions such as gender, cultural/racial/ethnic variables, sexual orientation, disability, religious preferences, etc. **Prerequisite(s):** Completion of ENGL 090 with a grade of 2.0 or higher or placement by testing into ENGL 096.

**SOC 101**  
**Introduction to Sociology**  
CKR, SS- This course explores fundamental sociological principles and seeks to describe individuals in both group and societal contexts. Students will learn to use the sociological imagination as a lens through which to view and experience the world. Students will learn about sociological theory and research methods, and apply these to the basic subject matter of sociology: culture, social structure, socialization, deviance, class, race, and gender. The goals of this course are to stimulate your interest in sociology and to encourage you to recognize its practical value. **Prerequisite(s):** Completion of ENGL 096 with a grade of 2.0 or higher or placement by testing into ENGL 101.

**SOC 150**  
**Social Inequality**  
CKR, SS- This course introduces students to the dynamics of inequality in the United States by examining social statuses such as race, class, gender, and sexuality. Students explore how such statuses are interconnected, how each is embedded in the social structure and how the lives of individuals develop in the context of their position in society. Students will learn to locate themselves within local and national contexts and explore their own relationships to power, and privilege. Students also will discuss strategies for change, such as political agency and social policy. This course may include a community-based service learning project. **Prerequisite(s):** Completion of ENGL 96 with a grade of 2.0 or higher or placement by testing into ENGL 101.

**SOC 231**  
**Gender and Society**  
CKR, SS- In this course we use a sociological lens to explore gender, how it impacts our lives and how it relates to social inequality. As we explore these themes, we will study how culture, the economy, and the family have been pivotal sites for the maintenance, reproduction, and change in gender roles in the U.S. We pay special attention to the ways gender intersects with other socially constructed differences, including race, class, and sexuality. **Prerequisite(s):** Completion of ENGL 096 with a grade of 2.0 or higher or placement by testing into ENGL 101.

**SOC 241**  
**Sociology of Families**  
CKR, SS- In this course we will examine the family as a social institution shaped by economic, political, cultural, and historical forces. We also will consider how gender, class, sexuality, and race/ethnicity impact family experiences. Students will explore topics such as cohabitation, marriage, partnerships, divorce, parenting in traditional and alternative households, domestic violence, and household labor arrangements. Students who complete the course will have a better understanding of issues facing contemporary families and will be able to apply their understanding to their own personal experiences, as well as to their surrounding communities. **Prerequisite(s):** Completion of ENGL 96 with a grade of 2.0 or higher or placement by testing into ENGL 101.

**SOC 271**  
**Sociology and Deviance**  
CKR, SS- Students will critically explore deviance as an ever-changing idea in society, examining the historical and social contexts that shape what is considered deviant. They will examine several types of deviant behavior (e.g., suicide, mental illness, drug use, crime, "sexual deviance," delinquency) and apply theories of deviance to understand them; they will explore the nature of societal reactions to deviance as well as social and legal policy issues relating to deviance. **Prerequisite(s):** Completion of ENGL 96 with a grade of 2.0 or higher or placement by testing into ENGL 101.
SOCIAL SCIENCES

**SOCSCI 196** 1-5 credits  
**Social Science Individualized Project I**  
Students will research a topic of interest and produce a project or performance. The content, learning outcomes, and assessment methods of the project are developed by the supervising instructor in collaboration with the student(s).  
**Prerequisite(s):** Instructor permission.

**SOCSCI 197** 1-5 credits  
**Social Science Internship I**  
The student will identify an opportunity for an internship or volunteer project that matches both the outcomes of the students program and their interests. Together with an instructor, the student will complete a written contract that specifies the learning outcomes and defines the duration of the course and the credits to be granted upon successful completion.  
**Prerequisite(s):** Instructor permission.

**SOCSCI 198** 1-5 credits  
**Special Topics in Social Science I**  
The instructor, possibly in collaboration with students, designs course content, activities and learning outcomes that address a new topical or thematic approach to content within the social sciences. This is not an independent study course, but is meant to be taught to a group of students.  
**Prerequisite(s):** Instructor permission.

**SOCSCI 199** 1-5 credits  
**Service Learning in Social Science I**  
Service learning provides a mechanism to combine academic studies with community service. In concert with a faculty advisor and community agency representative, students develop and apply scientific skills and expertise in a community setting. The student will be involved in defining the project scope and will be required to travel off-campus to the service site.  
**Prerequisite(s):** Instructor permission.

**SOCSCI 296** 1-5 credits  
**Social Science Individualized Project II**  
Students will research a topic of interest and produce a project or performance. The content, learning outcomes, and assessment methods of the project are developed by the supervising instructor in collaboration with the student(s).  
**Prerequisite(s):** Instructor permission.

**SOCSCI 297** 1-5 credits  
**Social Science Internship II**  
The student will identify an opportunity for an internship or volunteer project that matches both the outcomes of the students program and their interests. Together with an instructor, the student will complete a written contract that specifies the learning outcomes and defines the duration of the course and the credits to be granted upon successful completion.  
**Prerequisite(s):** Instructor permission.

**SOCSCI 298** 1-5 credits  
**Special Topics in Social Science II**  
The instructor, possibly in collaboration with students, designs course content, activities, and learning outcomes that address a new topical or thematic approach to content within the social sciences. This is not an independent study course, but is meant to be taught to a group of students.  
**Prerequisite(s):** Instructor permission.

**SOCSCI 299** 1-5 credits  
**Service Learning in Social Science II**  
Service learning provides a mechanism to combine academic studies with community service. In concert with a faculty advisor and community agency representative, students develop and apply scientific skills and expertise in a community setting. The student will be involved in defining the project scope and will be required to travel off-campus to the service site.  
**Prerequisite(s):** Instructor permission.

**SPANISH**

**SPAN 100** 1 credits  
**Spanish Practice Lab**  
RE: This one-credit course will provide multimedia and internet activities in a lab format. Students will improve their skills in speaking, listening, reading, and writing and enhance their understanding of grammatical structures.  
**Prerequisite(s):** Co-enrollment with SPAN& 121, or SPAN& 122, or SPAN& 123 or instructor permission.

**SPAN& 121** 5 credits  
**Spanish I**  
CRK, GS, H- In this fast-paced course, students begin to communicate in Spanish in simple situations. They are able to describe the immediate environment and to repeat learned dialogues by learning elementary grammar, vocabulary, and pronunciation. Students also begin to learn about the culture, music, art, and literature of the Spanish-speaking world.  
**Prerequisite(s):** Completion of ENGL 090 with a grade of 2.0 or higher or placement into ENGL 096.

**SPAN& 122** 5 credits  
**Spanish II**  
CRK, GS, H- In this fast-paced course continuing the work of Spanish I, students increase knowledge of Spanish vocabulary and grammar to improve their communication abilities. They learn to participate in conversations in a variety of social settings and learn more about social and historical aspects of Spanish-speaking cultures.  
**Prerequisite(s):** Completion of SPAN& 121 with a grade of 2.0 or higher or placement into SPAN& 122.

**SPAN& 123** 5 credits  
**Spanish III**  
CRK, GS, H- This course continues the work of Spanish II. Students improve their ability to speak and write in Spanish by adding to vocabulary and grammar knowledge. Students learn more about Spanish-speaking cultures and how to communicate in them.  
**Prerequisite(s):** Completion of SPAN& 122 with a grade of 2.0 or higher or placement into SPAN& 123.

**SPAN& 221** 5 credits  
**Spanish IV**  
CRK, GS, H- In this fourth quarter of college Spanish, students focus on communicating in Spanish with spontaneity and originality. They improve their ability to read, listen, speak, and write in Spanish by building vocabulary and grammatical knowledge. Students learn more about Spanish-speaking cultures through reading, watching films, and using the Internet in Spanish.  
**Prerequisite(s):** Completion of SPAN& 123 with a grade of 2.0 or higher or placement into SPAN& 221.

**SPAN& 222** 5 credits  
**Spanish V**  
CRK, GS, H- Students further develop their communication abilities in Spanish, speaking and writing with greater originality as vocabulary increases. Reading and listening skills improve with further practice with films and literature in Spanish. The emphasis on cultural learning continues.  
**Prerequisite(s):** Completion of SPAN& 221 with a grade of 2.0 or higher or placement into SPAN& 222.

**SPAN& 223** 5 credits  
**Spanish VI**  
CRK, GS, H- Students read literature, watch films, listen to music, converse, and learn course material in Spanish to further develop communication abilities. As in previous classes, much of the course content centers around cultural and historical aspects of Spanish-speaking societies.  
**Prerequisite(s):** Completion of SPAN& 222 with a grade of 2.0 or higher or placement into SPAN& 223.
## SUSTAINABLE PRACTICES

### SUPR 301 5 credits
**Introduction to Sustainable Practices**
In this course, students will explore multiple interpretations of the concept of sustainability as they pertain to the key elements of environment, economics, and social equity, i.e., the Three “E”s. Systems thinking will be introduced as a mechanism for understanding sustainability, and students will use systems as a way of understanding the interplay of various elements in developing and employing sustainable practices. Core themes of the degree will also be introduced, including themes of resilience and adaptive challenge. Students will also be introduced to the program’s core competencies and outcomes as a way to visualize their degree pathway as it leads to the capstone project.

**Prerequisite(s):** Admission to BAS-SP program, OR instructor permission.

### SUPR 310 5 credits
**Statistics for Research in Sustainable Practices**
The focus of this course is statistical analysis as applied to quantitative research in the field of sustainable practices. Students will be introduced to both descriptive and inferential statistical techniques and how they are used in this context. Both experimental and correlational analysis (including regression) will be presented and contextualized with real world problems and examples. The emphasis is on interpretation and communication of data as well as problem solving using statistical techniques. Research ethics and human subject considerations will be discussed. Needed technology will be taught along with the subject matter.

**Prerequisite(s):** Admission to BAS-SP program; OR instructor permission.

### SUPR 325 5 credits
**Social Perspectives on Sustainable Practices**
In this course, students will use an interdisciplinary approach to develop an understanding of the values, beliefs, and social institutions that influence sustainable (or unsustainable) practices. Cross-cultural ideas of sustainable practices, as well as community, development, and decision-making processes are explored in relation to human interaction with local cultural and natural environments. Students will learn how cultural, social, and psychological forces can shape human practices to be ecologically sound, socially just, and economically viable.

**Prerequisite(s):** Admission to BAS-SP program or instructor permission.

### SUPR 397 1-5 credits
**Work-Based Learning I**
Students will develop hands-on experiences through a sustained contribution within a work setting in the field of sustainability. Students develop and reflect on a set of personalized learning outcomes as they consider how the key sustainability competencies and concepts such as resiliency and adaptive challenges interact in a work setting. They reflect on their own strengths and weaknesses in the competency areas.

**Prerequisite(s):** Participation in the SUPR cohort and instructor permission.

### SUPR 410 5 credits
**Research Design and Methods in Sustainable Practices**
The focus of this course is research design and methodology as applied to problems in the field of sustainable practices. Students will learn basic principles of research design and data collection methods in the field of sustainable practices, including environmental sampling. Students will learn to choose appropriate statistical tools and apply them in the analysis of both qualitative and quantitative data. Elements of set theory and relational algebra will also be addressed as they are used in working with data sets. Students will learn to interpret published research as well as communicate results of their own research in formats that can reveal complex information at a glance, generate insights, and spur action. Research ethics and human subject considerations will be discussed. Needed technology will be taught along with the subject matter.

**Prerequisite(s):** Admission to BAS-SP program and SUPR 310 and at least 10 credits of 300 level coursework.

### SUPR 490 1-5 credits
**Sustainable Practices Capstone**
Students identify a specific, authentic issue or problem with a sustainability context, and define, research, and propose a solution. Students will work to implement the solution, evaluate the outcomes, and present their results to appropriate internal and external audiences. Students will also reflect on their capabilities in the sustainability competencies and develop a plan for addressing areas of needed growth to prepare for a career in sustainable practices. Students develop their portfolio with professional networking connections and course, internship or professional projects.

**Prerequisite(s):** Participation in the SUPR cohort and instructor permission.

### SUPR 497 1-5 credits
**Work-Based Learning II**
Students will develop hands-on experiences through a sustained contribution within a work setting in the field of sustainability. Students develop and reflect on a set of personalized learning outcomes as they consider how the key sustainability competencies and concepts such as resiliency and adaptive challenges interact in a work setting. They reflect on their own strengths and weaknesses in the competency areas.

**Prerequisite(s):** Participation in the SUPR cohort and instructor permission.
KODIAK CORNER/STUDENT SERVICES

The Kodiak Corner is located on the first floor of CC1. Services provided at the Kodiak Corner Front Counter include, but are not limited to:

- Apply for admission, pay admission fee, register for classes, pay tuition [also available online]
- Pay for and take the COMPASS Placement
- Purchase bus passes
- Purchase parking permits with cash or check
- Add, drop, and withdraw from classes
- Receive general financial aid information [also available online]
- Make an appointment to meet with an academic advisor, career advisor, or financial aid staff
- Check in for appointments
- Inquire about Disability Support Services
- Acquire a Cascadia student ID card

Student Advising and Support Services, Enrollment Services, Career and Transfer Center, Disability Support Services, Running Start, and Student Financial Services are housed in the Kodiak Corner. Students should check in at the Kodiak Corner to access these services. Additional information and online services are available at www.cascadia.edu.

APPLYING FOR ADMISSION

HOW TO APPLY

ADMISSION

Adult members of the community 18 years or older, or those with a high school diploma or GED, are eligible to enroll in courses at Cascadia College. Please refer to the special admissions section in this catalog for a description of the allowable exceptions. A non-refundable $30 fee is due at the time of application. An application fee waiver is available to those who qualify.

DEGREE SEEKING (MATRICULATED) STUDENTS

Students may begin their education at Cascadia College any quarter. Since registration dates are determined by the date of completion of the application process, students are encouraged to apply for admission as early as possible. All students seeking a degree or certificate must apply for admission. Matriculation involves the following steps:

1. Complete an admissions application and pay the application fee via the web, mail, or in person. Application forms are available at high schools, on the college’s website, or by calling 425.352.8860.
2. Send official transcripts from all colleges previously attended, and complete a transcript evaluation request form available on the website or in Kodiak Corner.
3. Determine appropriate skill level in reading, writing and mathematics. Students who have successfully completed college-level English composition are exempt from placement assessment in related areas, as are students who have successfully completed college-level mathematics within the last 24 months. Transcripts documenting college-level English and/or mathematics are required for registration. Students may choose to take COMPASS placement to satisfy this requirement.
4. Attend Cascadia’s Orientation and Registration Experience (CORE) in person or online. (Optional for students transferring to Cascadia.)
5. Register for classes.
6. Pay tuition and fees by deadline.

NON-DEGREE SEEKING (NON-MATRICULATED) STUDENTS

Students not seeking a degree or certificate from Cascadia are considered non-degree seeking students and may register for up to twenty-four credits per quarter. Non-matriculated students may register during the open registration period on a first-come, first-served basis. Students must demonstrate that they have met course prerequisites for any given course in which they wish to enroll. A non-refundable refundable $30 application fee is due at the time of application.

Non-degree seeking students can demonstrate that they have met the course prerequisites by providing college transcripts, or by having taken the mathematics and/or English placement either at Cascadia or at another college within the last 24 months.

Non-degree seeking students who wish to seek an exception to a prerequisite requirement must present the Non-Matriculated Student – Prerequisite Petition form to the appropriate Dean for Student Learning. The Dean for Student Learning will designate a faculty member to consider the appeal and render a decision.

Non-degree seeking students have access to and are encouraged to seek the assistance of Cascadia’s academic advisors.
PLACEMENT ASSESSMENT

Most courses at Cascadia require an assessment of a student’s skill level in reading, writing, and math in order to determine whether or not a student is prepared to succeed in the courses. These assessments are not pass/fail in nature but are tools to assist advisors with appropriate class selection. Students who have successfully completed college-level English composition and mathematics within the last 24 months. Transcripts documenting completion of college-level English and/or mathematics are required for registration. Visit our placement website for more details.

A student who has received placement from another Washington Community or Technical College can request equivalent placement at Cascadia by completing a Placement Reciprocity Request Form at the Kodiak Corner. English as a Second Language (ESL) assessment is used to determine the placement level of non-English speakers. Testing is offered at scheduled times throughout each quarter. Contact the ESL office for assessment testing at 425.352.8158.

Photo identification is required for all placement and assessments.

TRANSCRIPT EVALUATION

Credits earned at American colleges or universities that are recognized by a regional accreditation association or foreign transcripts that are recognized by the origin country’s Ministry of Education and are translated by an accepted transcript translation agency are accepted by Cascadia College. Cascadia will accept no more than five (5.0) credits of “D” level work.

All courses accepted in transfer from other colleges which are used to satisfy degree requirements must average at least a minimum of 2.0. See “Graduation Requirements” on page 20.

A student who has earned a four-year degree is not required to submit official transcripts unless credits from previous colleges are to be used toward a degree at Cascadia. However, unofficial transcripts may be required to provide evidence of placement level before registration in certain courses.

HIGH SCHOOL TRANSCRIPTS

Students who have attended high school within five years of the date they will start attending Cascadia are encouraged to submit final high school transcripts to Cascadia’s Kodiak Corner Front Counter. Students who have graduated high school within the last two years may use their high school transcript to determine math placement.

TRANSCRIPTS FOR VETERANS

All students receiving educational benefits from the Department of Veterans Affairs are required to submit official transcripts. This includes transcripts from prior colleges and military training including those before, during, and after active duty. Transcripts should be submitted prior to the end of the veteran’s first quarter of attendance to continue to remain eligible to use VA benefits at Cascadia. Cascadia reserves the right to request official transcripts be submitted sooner than the first quarter, if deemed necessary, based on the veteran’s educational history. Cascadia will award academic and vocational credit for transcripted military training. Credit will be awarded from a student’s Joint Services Transcript (JST) based on recommendations from the American Council on Education. As a regionally accredited college, courses from the Community College of the Air Force will be accepted in transfer with the same consideration as courses from any other regionally accredited institution of higher education. Other training or experiences for which a student would like to receive credit will be assessed through the colleges’ Prior Learning Assessment process.

RECIROCITY AGREEMENT

Washington community and technical colleges (CTCs) offer reciprocity to students transferring within the CTC system who are pursuing the Direct Transfer Agreement (DTA) Associate in Integrated Studies Degree or the Associate in Science-Transfer Degree. Students who completed an individual course that met distribution degree requirements, diversity requirements, or fulfilled entire areas of their degree requirements at one college will be considered to have met those same requirements if they plan to complete the same degree when they transfer to another community or technical college in Washington. These degree requirements include communication skills, quantitative skills, diversity requirements, or one or more distribution areas (Humanities, Social Science, Natural Science).

Students must initiate the review process and must be prepared to provide necessary documentation. For complete information, please contact the graduation and transfer credit evaluator in Kodiak Corner at 425.352.8860.

NEW RUNNING START STUDENTS

Eligible high school juniors and seniors enrolled in a public school or a district home school network may enroll in Cascadia's college-level courses at a reduced tuition rate. (Additional fees may apply.)

To apply for the Running Start program, follow these steps:

1. Complete the Cascadia application for admission and pay the admission application fee.

2. Students must demonstrate academic preparedness for college-level work. To qualify for the Running Start program, students must either place into English 101 (both reading and writing) on the COMPASS Placement or place into Level 3 or 4 on the Smarter Balanced assessment. Students taking the COMPASS Assessment must present photo identification and pay the COMPASS Placement fee.

3. If eligible on the basis of the COMPASS Placement or the Smarter Balanced Assessment, submit COMPASS Placement or Smarter Balanced Assessment scores and completed Running Start Packet to the Running Start Office (located in the Kodiak Corner) by the deadline. See the Running Start website, or pick up a Running Start packet in Kodiak Corner.

4. After turning in the Running Start Packet and eligible COMPASS or Smarter Balanced scores by the posted deadline, students will be notified via email to review the New Running Start Student orientation and will be directed to sign up for a CORE registration session. Students should turn in the Running Start Enrollment Verification Form at the CORE session. The Enrollment Verification Form may also be turned in to the Running Start Office prior to the CORE session.

Cascadia recommends that students discuss the Running Start program with their parents/guardians and high school counselors. For more information regarding the admissions process and deadlines visit the Running Start page on Cascadia’s website, email runningstart@cascadia.edu or call 425.352.8146.
RETURNING RUNNING START STUDENTS

The Enrollment Verification Form, with all required signatures, must be submitted for the student to the Running Start Office each quarter to be allowed to register for classes. Failure to turn in the Enrollment Verification Form could result in not getting registered for classes. Check Cascadia's website to learn more about the upcoming quarter's registration dates.

UNDERAGE STUDENTS

Underage students who are 16 or 17 years old who are not Running Start students are eligible to enroll under exceptional circumstances. To qualify for underage admission, students must:

1. Complete Cascadia's application for admission and underage admissions packet and pay the $30 application fee by quarterly deadline.
2. Present photo identification and take the COMPASS Placement. Students must demonstrate academic preparedness for college-level work. To qualify for underage admission, students must place into English 101 (in both reading and writing sections).
3. Submit all required documents. (See the underage admission packet for the list of required documents).
4. Schedule a meeting with Enrollment Services to submit the completed application materials and register for classes.

PLEASE NOTE: Students seeking enrollment as an underage student on a long term basis should explore admission through our Running Start Program. For the Continuing Education policy on underage students, click here.

INTERNATIONAL STUDENTS

Cascadia welcomes international students! International students can enroll at Cascadia College by meeting the following admission requirements.

1. Complete the international student application for admission.
2. Submit required supporting documents including proof of financial support, copy of photo page of passport, and secondary or high school transcripts. Submitting proof of English proficiency is not required for the English Language Programs. Submitting the official score of TOEFL 70 or IELTS 6.0 is required for the direct College Program placement.
3. Submit the non-refundable application fee.

Cascadia College International Programs has set application deadline dates. Most students from overseas are accepted up to one month prior to the first day of Orientation. This will allow students sufficient time to apply for the student F-1 visa, arrange for housing and make plans for moving to the United States.

Application deadline dates for the 2016-2017 academic year are below:

<table>
<thead>
<tr>
<th>Quarter</th>
<th>Program Dates</th>
<th>Suggested Times to Apply</th>
</tr>
</thead>
<tbody>
<tr>
<td>Spring 2017</td>
<td>March 27, 2017- June 9, 2017</td>
<td>by Feb. 28, 2017</td>
</tr>
</tbody>
</table>

Transfer students from other US schools must apply no later than one week prior to the first day of Orientation. For more information, contact the International Programs Office at 425.352.8415, international@cascadia.edu, or visit our website.

INTERNATIONAL TRANSFER PROCESS

International students wishing to transfer to Cascadia are responsible for informing their current school of their plans and the International Student Advisor from that school must complete a Transfer in Form for the student. Once Cascadia receives the Transfer in Form, and the student has been admitted to Cascadia, the transfer process may proceed.
CAREER AND COURSE PLANNING

ADMISSION AND REGISTRATION

ACADEMIC ADVISING

Academic advising provides students with the necessary information to make sound academic decisions and educational plans. Advisors assist students with information about admissions and graduation requirements, course placement and selection, and transcript evaluation. Through advising, students make the connection between academic interests, degree requirements, and career opportunities.

Academic advisors are available to assist with long-term educational planning and the transfer process. Inquire in Kodiak Corner or call 425.352.8860 to make an individual appointment with an academic advisor. Email advising is available at advising@cascadia.edu.

Many resources and student services are listed on the college website at www.cascadia.edu, including programs of study, degree requirements, planning guides, and university transfer information.

NEW STUDENT ORIENTATION

Cascadia College offers a “just in time” orientation model to prepare students for success. Offering four steps, the purpose of orientation is to provide students with the information they need at the time it is most relevant to their college planning.

1. **Attend an Information Session** to learn more about the college and programs offered.

2. **Attend Cascadia’s Orientation and Registration Experience (CORE).** At CORE, students will get help interpreting placement scores, choosing courses, and registering for classes. Sign up for CORE Orientation is on a first-come first-served basis online or in person in Kodiak Corner or call 425.352.8860.

3. **Participate in Jumpstart.** At Jumpstart, students will meet with other new and current students, familiarize themselves with important campus resources, and learn more about other opportunities at Cascadia.

4. **Enroll in a College Success course (COLL 101).** Students need to enroll in COLL 101 during their first or second quarter. This course is a requirement for all transfer degrees at Cascadia. In COLL 101 students will be introduced to Cascadia’s learning model and build on the foundation for success created in the earlier steps by establishing ownership and control over their education.

CAREER AND TRANSFER SERVICES

Career planning and transfer services are available to students in the process of selecting and planning their careers. Job opportunities are posted on the Job Board inside the Kodiak Corner. Other services available include:

- Mock interviews
- Resume and cover letter review
- Career and interest assessments
- Major studies exploration
- Transfer fairs and visits from college representatives
- Career-related workshops

For more information, visit the Career and Transfer Center or call 425.352.8220.

INTERNSHIPS

Cascadia College believes that the opportunity to gain experience in an occupation of interest to the student is invaluable. Cascadia’s students enrolled in the college’s professional/technical programs are often required to complete an internship as part of their curriculum. Students in transfer programs who find internships often wish to receive college credit for those internships. Internships combine work experience with earning college credit. All students are eligible for internship experiences. Internships extend a student’s skill acquisition into workplace settings and can be paid or unpaid. Internships allow students to explore where they fit in the business world. Employers can preview emerging talent and expand their company talent base with the newest skills.

A Learning and Training Agreement brings together the student’s goals, the employer’s interest, and the measurable outcomes that the supervising faculty member will evaluate. For professional/technical internships call 425.352.8138. For support in earning transfer credit for a non-professional/technical internship call 425.352.8269.

REGISTRATION INFORMATION

The quarterly schedule of classes is available online and contains registration instructions and course information.

Continuing students will receive registration information each quarter via email. Students with the greatest number of accumulated credits earned register first.

CLASS STATUS

Students must be officially registered in order to attend classes. Students on the waitlist for classes may attend those courses to not fall behind in the coursework but should communicate with their instructor for permission and additional information.

COURSE PREREQUISITES

Students may be administratively withdrawn from courses for which they do not meet prerequisites.

CLASS AUDITS

Students who audit a course must meet course prerequisites, register and pay for the course, and participate in class work at the instructor’s discretion. No credit is earned, and the audit grade of “N” is not used in the GPA calculation. Up to the end of the second week of the quarter, students may initiate, without instructor’s permission, a change to or from audit status. From weeks three through six of the quarter, instructor permission is required. After the sixth week, no change in status may be made. (Deadlines are adjusted for summer quarter. Please see the Summer Schedule of Classes for dates).
WAITLISTS
The waitlist feature offers students a fair and consistent method of being enrolled in a full class if an opening occurs. Students may place their name on up to 3 waitlists, but may not be waitlisted in different sections of the same class. If time conflicts, or unauthorized over 24 credit status. Students may add their name to the waitlist until the day before the quarter begins. **Students are responsible for:**
- Checking their waitlist status daily to see if enrollment occurred from the waitlist.
- Paying tuition and fees by the tuition deadline. If enrollment from the waitlist occurs after the tuition deadline, tuition and fees are due within one business day of registration. Non-payment may result in the class being dropped from the student’s schedule.
- Clearing scheduling conflicts such as time conflicts, enrollment into the same class-different section, or unauthorized over 24-credit status. If schedule conflicts are not cleared by the next business day, the last enrolled conflicting class will be dropped from the student’s schedule.
- Clearing any holds including parking fines, library fines, any outstanding balances on student accounts, or unpaid fees prior to the enrollment. If a student has not cleared holds and fines, the student will be removed from the waitlist.
- Removing their name from the waitlist if they no longer want to be in the class. Students may incur charges and/or receive a failing grade if they do not remove themselves from the waitlist and therefore become registered for classes.

SCHEDULE CHANGES
Class schedule changes may result in additional tuition, fees, or tuition refunds.
Changes to a student’s quarterly class schedule may impact their financial aid status. Therefore, students receiving financial aid should contact the Student Financial Services Office to determine how changes can affect aid.

ADD A CLASS
- Students may use online registration to add classes to their schedule prior to the beginning of the quarter.
- Once classes start, students must register in person at the Kodiak Corner Front Counter from the first through the tenth calendar day of the quarter (date is adjusted for summer quarter) with instructor permission by completing a Credit Registration Form.
- For continuous enrollment classes, students may register through the 40th calendar day of the quarter (this date is adjusted for summer quarter).

DROP A CLASS
- Students may drop classes using online or in-person through the tenth calendar day of the quarter by completing a Credit Registration Form (date is adjusted for summer quarter).
- Instructor permission is not required through 10th calendar day of the quarter.
- Neither the class nor grade will appear on the student’s transcript for courses dropped during this period.

OFFICIALLY WITHDRAW FROM A CLASS
- Beginning the 11th calendar day of the quarter through the end of the sixth week of the quarter (date is adjusted for summer quarter), students can withdraw from classes online or by completing a Credit Registration Form and submitting it to the Kodiak Corner Front Counter.
- A “W” grade will appear on the student’s transcript. Students who fail to follow the procedure for officially withdrawing will receive a grade in accordance with the instructor’s grading policy.

ADMINISTRATIVE WITHDRAWAL FROM A CLASS
- Students who fail to attend class by the end of the second class meeting or fail to contact their instructor regarding their attendance in class by the end of the second class meeting or who fail to log in within the first 72 hours of an online course or instructor may be administratively withdrawn from the class.
- Students who do not meet course prerequisites may be administratively withdrawn from the class at the instructor’s discretion.

HARDSHIP WITHDRAWAL
Students are allowed to withdraw from classes until the end of the 6th week of the quarter. The Hardship Withdrawal is a request for an exception to this deadline for cases where an extreme or unusual circumstance 1) prevented a student from withdrawing prior to the deadline or 2) occurs after the deadline and prevents the student from continuing to attend class. This process is not meant as a way for students (regardless of hardship) who attend for most of the quarter to avoid earning an unsatisfactory grade (as defined by the student.) It is rare for a hardship withdrawal to be approved for one but not all classes. Course performance and final grade/expected grades are not taken into consideration when making a determination. To be eligible, the student has to be able to document a hardship that keeps them from being able to attend.

Prior to requesting a Hardship Withdrawal, it is recommended that students:
- Discuss concerns with instructors
- Officially Withdraw by the last date to withdraw in the quarter.
- Request an Incomplete grade, if a significant portion of the course requirements have been completed and the student is able to complete the remainder of the coursework without instructor or class support.

Students inquiring about a Hardship Withdrawal should be referred to the Kodiak Corner or can email enrollment@cascadia.edu to receive a copy of the request form. Requests for a Hardship Withdrawal must be received prior to the end of the quarter in question.

Washington National Guard and other military reserve students ordered to service may:
- Withdraw from one or more courses and receive a refund of tuition
- Be given an incomplete and allowed to complete the course upon release from duty
- Continue the course and be given full credit.

Any missed class sessions will be excused absences. Upon return to campus, students will be allowed a reasonable period of time to submit missed work. At the discretion of the instructor, there may be cases in which the student has already completed sufficient class work to justify an earned grade. The student called to duty is required to submit written notice of call to service. The college may request the student to provide written documentation of service.
TUITION

RESIDENCY

A Washington State resident must have lived continuously in Washington State for the last 12 months. A student cannot qualify as a legal resident of Washington for tuition calculation purposes if she/he possesses a valid out-of-state driver's license, vehicle registration, or other documents that give evidence of being a legal resident of another state.

For state-supported class tuition purposes, a Washington State resident is:

• One who is a U.S. citizen or one who has permanent resident immigration status, or conditional entrant status,
  AND
• Has established a domicile (residence) in Washington State primarily for purposes other than educational for the period of one year immediately prior to the first day of the quarter and was financially independent from parents or legally appointed guardians for the calendar year during which college enrollment begins,
  OR
• Is a financially dependent student, one or both of whose parents or legal guardians have maintained a domicile in Washington State for at least one year immediately prior to the last day of the quarter.

Typically, state residents document their legal residence in Washington State by showing that for the entire 12 months immediately preceding the beginning of the quarter, they have done all of the following:

1. Held a Washington driver's license or identification card
2. Had their vehicle registered in Washington State, and
3. Have been registered to vote in Washington

There are some exceptions to these general rules (e.g., for active military personnel, for some employees of public institutions of higher education, etc.).

Certain students who are not permanent residents or citizens of the United States may be eligible for resident tuition rates.

To be eligible they must have:

• Resided in Washington State for the three years immediately prior to receiving a high school diploma, and completed the full senior year at a Washington high school
  OR
• Completed the equivalent of a high school diploma and resided in Washington State for the three years immediately before receiving the equivalent of the diploma
  AND
• Continuously resided in the state since earning the high school diploma or its equivalent

Students who meet the above criteria and have filed an application for admission must submit a signed affidavit to the Kodiak Corner Front Counter. The affidavit is available online, at the Kodiak Corner Front Counter, or call 425.352.8860.

REFUNDS

The following refund policies pertain to state-funded credit courses only, not to continuing education. (For the Continuing Education policy on refunds, click here.)

When a student reduces their class load or completely withdraws from all credit classes, Cascadia College will refund tuition according to the following schedule:

• Due to class cancellation by the college: 100% refund
• On or before the 5th business day of the quarter, excluding weekends and holidays; in-person during Kodiak Corner office hours, or 9:30PM online: 100% refund (summer quarter: 100% refund dates are prorated).
• Beginning with the sixth business day of the quarter through the 20th calendar day of the quarter: 50% refund (summer quarter: 50% refund dates are prorated.)

Refunds are processed automatically when students drop or withdraw from classes after the 100% and 50% refund deadlines.

PLEASE NOTE: Refunds are prorated for summer quarter.

No refunds are given to students who are dismissed for disciplinary reasons, who do not follow the official withdrawal procedures, or who withdraw after the 20th calendar day of the quarter (summer quarter: dates are prorated). See the Enrollment Calendar for refund deadlines.

The amount of the refund will be reduced by the amount of open balances on the student’s account. Refunds are processed as follows:

• Credit or Debit Card: A refund will be posted to that account within 10 business days after the refund deadline.
• Check or Cash: A refund check will be mailed 4-6 weeks after the refund deadline.
• Financial Aid: A refund will be processed once your account is reviewed for eligibility of the refund. Financial Aid refund information can be found on the Financial Aid Forms page, scroll down to General Financial Aid Information and click on the Financial Aid Repayment Policy.

If you are expecting a refund please be sure that we have your correct address. You can update your address online. For questions regarding your refund, please contact the Finance Office at 425.352.8151.
The following fees, as enacted by student government:

Washington state residency requirements. In addition to the tuition rates listed above all students (except for Basic Skills students) pay the

The chart above shows tuition per credit for Washington state residents and non-residents. To qualify for resident tuition rates, you must meet Washington state residency requirements. In addition to the tuition rates listed above all students (except for Basic Skills students) pay the following fees, as enacted by student government:

- Technology Fee
  $4.00 per credit (minimum $10, maximum $40.00 per quarter)
- Activities & Recreation Center Fee (ARC)
  $6.67 per credit (maximum $100.05)

Tuition rates include operating, building, and student activities fees. A student must carry at least 12 credits to be considered full-time for funding from federal and state financial aid programs, Veterans Administration, Social Service, and most other outside agencies.

The college reserves the right to change tuition rates and any fees without notice to comply with state or college regulations or policies.

### STATE SUPPORT FOR HIGHER EDUCATION

Through Opportunity Pathways, Washington State provides a variety of financial aid programs to help students and their families pay for college. Pursuant to RCW 28B.15.0681, the approximate level of state support received by students is being provided to the colleges.

The following table represents an average cost for a full-time equivalent, lower division resident student attending community and technical colleges for the academic year 2015-16.

The average cost to educate a resident full-time community or technical college student for the 2015-16 academic year is $7,126. Students pay an average of $3,056 in tuition toward this cost. The remaining $4,070 is an “opportunity pathway” provided by the State and is funded by state taxes and other sources. The amounts shown are averages for a full-time, resident student. The actual tuition a student pays will vary due to credit load, residency status and other factors.

Please see our website for up-to-date information.

1 Students who are non-residents for tuition purposes and who are US citizens or permanent residents are eligible for a waiver of the difference between the non-resident and resident Operating Fee. The waiver will be applied once eligibility has been determined.

2 Eligibility requirements and waiver form are available here for eligible Veterans and National Guard Members.

The following table represents an average cost for a full-time equivalent, lower division classes.

**The Net Support per Student FTE is the amount paid by the state from taxes and other funds.**
### FEES
The amount assessed for each of the fees identified below is published in the quarterly schedule of classes. Fees listed below are for the 2016-17 school year. Fees for 2016-17 may change. Please check our [website](#) for up to date information.

</table>
TUITION AND FEE WAIVERS

For state-supported classes, Cascadia currently offers tuition and fee waivers for the groups listed below: http://www.cascadia.edu/enrollment/pay.aspx

GENERAL WAIVERS

BASIC EDUCATION FOR ADULTS, ESL
Need-based waivers are available to cover a portion of the $25 per quarter tuition fee.

VETERANS’ WAIVERS
Cascadia waives 25% of tuition to Washington State residents that are:
- Eligible veterans/National Guard members as defined by statute.
- Other military or naval veterans not qualified as “eligible.”
This waiver does not include National Guard.

ADDITIONAL INFORMATION AVAILABLE ONLINE OR BY CONTACTING THE KODIAK CORNER AT 425.352.8860.

CHILD AND SPOUSE OF TOTALLY DISABLED OR POW/MIA OR DECEASED ELIGIBLE VETERANS OR NATIONAL GUARD MEMBERS
Cascadia waives 100% of all tuition and other fees incurred as a condition of a student’s full participation in coursework and related activities for children or the spouse of a totally disabled or POW/MIA or deceased eligible veteran or National Guard Member. The student and the veteran/National Guard Member must be Washington State Residents.

ADDITIONAL INFORMATION AVAILABLE ONLINE OR BY CONTACTING THE KODIAK CORNER AT 425.352.8860.

CHILDREN OF DECEASED OR DISABLED LAW ENFORCEMENT OFFICERS OR FIRE FIGHTERS
Cascadia waives tuition and student and activities fees for children whose parent has died or become totally disabled in the line of duty while employed by a public law enforcement agency, or a full-time or volunteer fire department.

Documentation is required from the Department of Retirement Systems. Students must begin their course of study within 10 years of high school graduation. Eligible students pay $11 per credit.

ADULT HIGH SCHOOL COMPLETION
Cascadia offers reduced tuition of $11 per credit plus the cost of fees for Washington State resident students who are 19 years of age or older and enrolled in the Adult High School Completion program. The reduced tuition applies only to courses applicable toward completion of the diploma from Cascadia College.

WAIVER OF THE NON-RESIDENT DIFFERENTIAL FOR REFUGEES
Cascadia waives the operating fees portion of the non-resident differential for refugees and their spouses and dependents with parole status, immigrant visa, or citizenship application.

CONGRESSIONAL DEPENDENTS
Cascadia waives the operating fees portion of the non-resident differential for dependents of members of the U.S. Congress who are representing Washington State.

HIGHER EDUCATION EMPLOYEES
Cascadia waives the operating fees portion of the non-resident differential for employees who work half-time or more for a public higher education institution and their spouses and dependents.

NON-WASHINGTON RESIDENT WAIVER
Students who are U.S. citizens or INS approved permanent residents, but who are considered non-Washington residents (for tuition paying purposes) are eligible for a non-resident waiver. The college waives all of the nonresident operating fee differential; but students are still responsible for paying the building fee differential.

SPACE AVAILABLE WAIVERS

SENIOR CITIZENS – AUDIT OF CREDIT CLASSES
Cascadia waives tuition and student and activities fees for credit classes for Washington residents 60 years or older on a space-available basis. Students will pay $5 per quarter with a limit of two courses per quarter. Download the Senior Citizen Waiver Form.

SENIOR CITIZENS – CREDIT CLASSES
Cascadia waives tuition and student and activities fees for credit classes for residents 60 years or older on a space-available basis. Students will pay $10 per credit with a limit of two courses. Download the Senior Citizen Waiver Form.

STATE EMPLOYEES
Cascadia offers tuition waivers for permanent state employees employed half-time or more and to public school teachers and certified instructional staff who hold, or are seeking, endorsement and assignment in a state identified shortage area. Preference is given to permanent employees of Cascadia College. No preference is given to other types of employees and there is equal treatment of full and part-time permanent employees. This waiver is offered on a space available basis only. Students will pay $10 per credit for the first six credits, and full tuition for any additional credits. Download the state employee waiver form.
FINANCING YOUR EDUCATION

STUDENT FINANCIAL SERVICES

The Student Financial Services Office at Cascadia College assists students in the process of applying for financial aid and finding ways to meet educational expenses. Financial aid is designed to assist students and/or their parents in paying basic educational costs for eligible certificate and degree programs. All of the financial aid programs at Cascadia College are administered in accordance with established state and federal regulations and policies. At the core of these policies is the belief that financing a student’s education is the primary responsibility of the student and their family. However, there are multiple resources students can access to pay for college. Cascadia offers grants, loans, scholarships, and work study to eligible students.

The basic formula for determining financial need is:

\[
\text{COA - EFC = Financial Need}
\]

Cost of Attendance (COA) Minus (-) Expected Family Contribution (EFC) Equals (=) Financial Need

Even students who do not demonstrate financial need for grants and work study may still qualify for a student loan.

ESTIMATED COSTS OF COLLEGE FOR CALCULATING FINANCIAL AID

The following estimated average costs are used for full-time, in-state residents attending three quarters in the 2015-16 school year. To be considered full-time for financial aid, veterans’ benefits, and most other outside agencies, students must take at least 12 credits per quarter.

Financial aid is also available to students that are not attending full-time. Students should notify the financial aid office each quarter that they are not planning to be full-time.

HOW TO APPLY FOR FINANCIAL AID

Students may submit the Free Application for Federal Student Aid (FAFSA) either by mail or electronically via the web. Electronically filing your FAFSA is the quickest way to apply for aid. The FAFSA collects financial data and other information that is used to calculate the Estimated Family Contribution (EFC) that ultimately determines a student’s eligibility for financial aid. The key to obtaining financial aid is to apply early. Applicants may begin the process at any time. Financial aid will not be awarded until you have been admitted to the college, have completed all steps and submitted all the documents necessary to apply for financial aid.

STEPS TO APPLY FOR FINANCIAL AID

1. Submit the Free Application for Federal Student Aid (FAFSA). Students and parents may sign their application electronically using your FSA ID. Applicants may file the FAFSA throughout the academic year. Cascadia does have an annual priority deadline and encourages students to apply early to get the most amount of funding available. This date is April 15th, but is subject to change if this date falls on a weekend. Students must reapply for financial aid each year. If you do not have internet access, you may obtain a paper copy of the (FAFSA) from Cascadia's Student Financial Services Office, Department of Education or from a high school guidance office. We strongly encourage you to file electronically in order to ensure timely processing of your file.

2. Complete a Cascadia College Financial Aid Data Sheet available on our website or from the Kodiak Corner. When you have completed the form, submit it via fax, email, regular mail, or in person to Kodiak Corner.

3. Once the school receives your FAFSA record and Data Sheet, additional documents and information may be required by the College or Department of Education. Check the Financial Aid Portal (accessible from the financial aid section of the Cascadia website) for outstanding items. You may also check your financial aid file status online through the Financial Aid Portal, or contact the Student Financial Services Office by email at finaid@cascadia.edu.

ELIGIBILITY REQUIREMENTS

All federal financial aid recipients must meet the following requirements:

- Be a U.S. citizen, permanent resident, or eligible non-citizen
- Have a high school diploma or GED certificate
- Have a valid social security number
- Have been admitted to Cascadia, paid the application fee and are enrolled in an eligible degree or certificate program
- Meet satisfactory academic progress requirements
- Not be in default on a student loan received at any school
- Not owe a repayment of grant funds at any school attended
- If male, have registered for Selective Service
- Have not been convicted of selling or possessing illegal drugs while receiving financial aid
- Provide all necessary financial information (including parents’ information, where required/requested)
SATISFACTORY ACADEMIC PROGRESS
Satisfactory Academic Progress (SAP) must be maintained to be eligible for financial aid. Students must meet the academic standards of the college as well as the requirements for SAP as listed in the financial aid policy for progress. In general, students must successfully complete the courses they attempted, as well as earn a minimum cumulative GPA. Academic progress is monitored for each payment period/quarter. If a student’s financial aid eligibility is terminated as a result of not meeting the minimum standards, measures can be taken by the student for reinstatement as outlined in the Satisfactory Academic Progress Policy. A complete copy of the policy is available in the Student Financial Services Office or on the website.

MAXIMUM TIME FRAME
Federal regulations state that students must complete their program of study within a maximum time frame in order to receive financial aid. Classes taken at Cascadia must be necessary degree requirements. Taking classes that are not degree requirements may result in a financial aid repayment and will cause students to reach their maximum time limit more quickly and may prevent them from completing their intended degree. Once it is determined that a student may be close to their maximum time limit, an appeal can be submitted to explain why the student has not yet met degree requirements. Submitting an appeal does not guarantee that a student can take the remaining classes required and received financial aid to do so. However once it has been determined that a student cannot complete their degree within the maximum time frame, financial aid will be denied per federal regulations and this is not appealable.
A complete copy of the policy is available in the Student Financial Services Office or on the website.

TYPES OF AID
Cascadia College offers financial assistance to eligible students in the form of grants, Work-Study, scholarships, and loans. Generally, a student must be taking 3 or more credits to qualify for most financial aid. A student does not need to be attending full-time to receive financial aid. In order to receive a federal student loan, however, a student must be registered and attending 6 or more credits per quarter. Loan requests require additional paperwork be submitted for a loan to be processed.
Financial aid awards may consist of one or more of the following programs:

GRANTS
Grants are “gift aid” and do not require repayment unless a student fails to maintain satisfactory progress and/or remain enrolled in classes. Cascadia College awards the Federal Pell Grant, Federal Supplemental Education Opportunity Grant (FSEOG), Washington State Need Grant, College Bound Scholarship and Cascadia Grant to eligible students. Grants other than Pell are awarded on a funds available basis. For this reason, timely applications are important.

WORK-STUDY PROGRAMS
Work-Study awards are offered to students with “need” eligibility, enrolled half-time or more, and who indicate an interest in Work-Study on the FAFSA or directly with the financial aid office. Work-Study programs provide part-time employment to eligible students on and off campus. The maximum amount a student can earn is determined by financial need and is dependent on available funding. Students can work up to 19 hours per week, depending on financial “need” as determined using the FAFSA data. Every effort is made to place students in jobs that relate to their training.
Cascadia College participates in both the federal and state Work-Study programs. Work-Study funds are limited and positions are filled on a first-come, first-served basis.

LOANS
Cascadia participates in the William D. Ford Federal Direct Loan (Direct Loan) Program, which is administered by the U.S. Department of Education. Direct loans are low-interest loans for students and parents to help pay for the cost of a student’s education after high school. Loans can be used for educational expenses until a student graduates or stops attending school at least half-time. Loan repayment typically begins six months after completion of the degree or withdrawal from school.
The Direct Loan Programs offers subsidized and unsubsidized loans for students, or the Direct PLUS loan for the parent(s).
- Subsidized Stafford Loans are need-based. The federal government pays interest on this type of loan while the student is in school.
- Unsubsidized Stafford Loans do not require a student to show financial need; however, all financial aid funding must not exceed the cost of education. The student, not the federal government, is responsible for paying all interest that accrues on this loan.
- PLUS loans enable parents with good credit histories to borrow funds for the education expenses of each child who is a dependent undergraduate student enrolled at least half-time. Loan recipients must maintain six or more credits to maintain eligibility for Stafford Loans. Loans are awarded in accordance with federal regulations, such as maximum annual loan limits and restrictions on loan amounts per type of loan.

All borrowers at Cascadia are required to complete a Master Promissory Note (MPN), online loan entrance counseling and a loan request worksheet. With the exception of the MPN, these items should be submitted each year that a student wishes to borrow money. Borrowers must also complete loan exit counseling upon leaving Cascadia College or graduating.

STUDENT SCHOLARSHIPS
Thanks to donations from businesses, individuals, families, professional organizations, and friends of Cascadia College, the Cascadia College Foundation offers dozens of scholarship opportunities for Cascadia students each year. Minimum requirements include 2.0 GPA and enrollment in ten (10) credits each quarter. Award levels average $1500. Simply complete one application to be considered for all available scholarships.
Applications for next year’s scholarships, available via Cascadia’s scholarships webpage or at the Foundation, may be submitted from January through early March. Applications should be submitted to the Foundation at scholarships@cascadia.edu. For more information on how to receive financial assistance through scholarships and a current listing of available scholarships, please visit Cascadia’s Scholarship website or call 425.352.8840.

CASCADIA COLLEGE WORKFORCE EDUCATION
Workforce Education provides a variety of support services for students pursuing professional/technical programs. These services include tuition assistance, books and transportation, educational and career advising, as well as internship opportunities. These services are provided through the Worker Retraining Grant, Opportunity Grant, and Basic Food Employment Training (BFET) Grant. Prospective students should call 425.352.8256 or visit the Workforce Education Office.
WORKER RETRAINING
The Worker Retraining program can provide tuition, books, and transportation for students who are out of work or in danger of losing their jobs without additional training. Students must be enrolled in professional/technical certificate or degree programs.
Program staff can assist with the development of an individual training plan, the completion of Commissioner Approved Training (CAT) and Training Benefits (TB) applications, and applications for other funding sources. Program staff can also assist with WorkForce Innovation and Opportunity Act/Dislocated Worker Program and Trade Act/NAFTA applications and processes.
To be eligible, students need to:
• Be receiving or be eligible to receive unemployment benefits OR
• Have exhausted their unemployment benefits within the last four years OR
• Be formerly self-employed and currently unemployed due to general economic conditions OR
• Be a displaced homemaker OR
• Be a vulnerable worker OR
• Be a veteran discharged from the US Armed Services in the last four years

OPPORTUNITY GRANT
The Opportunity Grant provides funding for low income Washington resident students enrolled in professional technical programs. It can provide tuition and fees for up to 45 credits, books, and transportation assistance. To apply for this grant, please contact the Workforce Education Office.

PROFESSIONAL/TECHNICAL PROGRAMS
Financial support from the Workforce Education Office can be used to support students pursuing the following technical degree and certificate awards:

Degrees:
• Bachelor of Applies Science in Sustainable Practices
• Associate in Applied Science-Transfer (AAS-T)
  • Environmental Technologies and Sustainable Practices
  • Networking Infrastructure Technology
  • Web Application Programming Technology – Mobile Emphasis
  • Web Application Programming Technology – Programming Emphasis
  • Web Application Programming Technology – Web Emphasis

Certificates (20-89 credits):
• NIT – Application Infrastructure Engineer
• NIT – Server Administrator
• NIT – Virtualization Engineer

Short Certificates (19 or fewer credits):
• Computer Programming Foundations
• Database Development
• JavaScript Programming
• Mobile Applications
• User Interface Development
• Web Applications
• Web Foundations

VETERANS’ BENEFITS
To apply for Veteran Educational benefits, first submit an application on the Veterans Online Application website.
To access Veteran Educational Benefits at Cascadia, all students must attend an orientation. Contact Kodiak Corner at 425-352-8860 to schedule an appointment with the Veterans Academic Advisor/School Certifying Official. Veterans are asked to contact Kodiak Corner at least four weeks before they wish to begin classes.
The veteran orientation is an opportunity to submit funding paperwork, to learn more about educational benefit policies and to select classes for the first quarter. Veterans are asked to bring a member 4 copy of their DD-214 and their Certificate of Eligibility to the orientation. Additional paperwork may be required, depending on the student’s Chapter of benefits.
Veterans Educational Benefits may be used to complete an eligible college degree or certificate program. Courses must follow VA guidelines and all courses must be degree requirements.
The VA requires Cascadia to perform an official review of all prior education. This includes a veteran’s military transcript and transcripts from all schools attended before, during and after active duty. Applicable credits will be transferred to the veteran’s chosen Cascadia degree requirements. Veterans should submit official transcripts no later than the end of the first quarter of benefits.

PLEASE NOTE: Students will not be allowed to repeat classes in which they previously received a passing grade, regardless of whether or not veterans’ benefits were used.
Washington National Guard and other military reserve students ordered to service may:
• Withdraw from one or more courses and receive a refund of tuition
• Be given an incomplete and allowed to complete the course upon release from duty
• Continue the course and be given full credit. Any missed class sessions will be excused absences. Upon return to campus, students will be allowed a reasonable period of time to submit missed work. At the discretion of the instructor, there may be cases in which the student has already completed sufficient class work to justify an earned grade.
The student called to duty is required to submit written notice of call to service. The college may request the student provide written documentation of service.
FINANCIAL AID REFUND POLICY

A fair and equitable refund policy is applied to all financial aid students at Cascadia College. Students who withdraw, drop classes, complete zero credits, or do not attend the class/es for the period of enrollment for which they have been charged tuition and received financial aid may have to repay a portion of the grants and/or loans they received, as well as any tuition Cascadia returns to financial aid programs as a result of withdrawal. This policy does not apply to work study earnings received. Students who remain enrolled through at least 60% of the payment period are considered to have earned 100% of the aid received and will not owe a repayment of financial aid. If a student completes at least one course they will be subject to the Satisfactory Academic Progress Policy, rather than the Repayment/Return of Funds Policy. Please note that the Financial Aid Repayment/Return of Funds Policy and Cascadia’s tuition refund policy are separate. Funds are to be returned in the following order:
1. Unsubsidized Direct Loan
2. Subsidized Direct Loan
3. PLUS (Parent loan)
4. Pell Grant
5. Federal Supplemental Educational Opportunity Grant (SEOG)

Students receiving the Washington State Need Grant (WSNG) or College Bound Scholarship (CBS) are subject to the Washington State Need Grant Repayment Policy, as defined by the Washington Student Achievement Council. Students who receive only a Cascadia College Grant without any other federal or state funding will have the repayment and return of funds calculated according to the calculation described above.

Please contact Student Financial Services for a copy of the entire Repayment/Return of Funds Policy or for more details regarding financial aid refunds. You may also view the policy via the Cascadia website.

RIGHTS

Students have the right to inspect their financial aid files for the accuracy of information contained therein, and to submit corrections, if allowed by federal and state rules and regulations. Confidential information covered under the Federal Educational Rights and Privacy Act (FERPA) may not be reviewed by anyone else without prior written approval of the individual concerned.

Requests for file inspection must be done in writing and submitted to the financial aid office. Students should generally allow between 1 and 3 weeks for the request to be processed and an inspection time scheduled.

RESPONSIBILITIES

The student is responsible for reading and signing the “conditions of award” on the Cascadia Data Sheet, for notifying the Student Financial Services Office upon receipt of additional outside income, resources from scholarships and private loans, and for submitting additional documents as required during the year to the Student Financial Services Office. All information submitted to the Student Financial Services Office must be true and complete to the best of the student’s knowledge.

TAX CREDIT INFORMATION

PLEASE NOTE: The following is general information and individuals will be affected differently based on their circumstances. Individuals should contact their tax advisor or IRS for assistance in claiming the tax credit. Students must provide their social security number to Enrollment Services in order to receive a 1098T form.

The American Opportunity Tax Credit (previously the HOPE tax credit) provides up to $2,500 per student on qualified tuition and related expenses for four years of post-secondary education. The Lifetime Learning Credit applies to all courses taken to acquire or improve job skills, whether as part-time, full-time, undergraduate, graduate, or continuing education student. There is no limit on the number of years that the credit is available to a student. This credit lets taxpayers claim a maximum credit of $2,000 per taxpayer (20 percent of up to $10,000 paid in higher education expenses). It is available to parents of dependent students or to students who are not claimed as dependents on their parents’ federal tax return. Taxpayers cannot take both the American Opportunity Credit and the Lifetime Learning Credit in the same year for the same student.

At the end of the tax year students will receive a 1098T form from the college that will list out-of-pocket expenses for tuition. The 1098T is for notification only; it cannot be sent in with taxes. To claim the tax credit, students must complete IRS form 8863.

To qualify for the American Opportunity Credit Tax Credit, students must be enrolled at least half-time in a degree or certificate program, has not completed the first four years of post-secondary education as of the beginning of the taxable year, and has not been convicted of a felony drug offense. The Lifetime Learning Tax credit does not require half-time enrollment.

QUALIFIED TUITION AND RELATED EXPENSES

In general, qualified expenses for the education tax credits include tuition and required fees for the enrollment or attendance at eligible post-secondary educational institutions. The expenses paid during the tax year must be for: an academic period that begins in the same tax year or an academic period that begins in the first three months of the following tax year.

The following expenses do not qualify:

• Room and board
• Transportation
• Insurance
• Medical expenses
• Student fees unless required as a condition of enrollment or attendance
• Same expenses paid with tax-free educational assistance
• Same expenses used for any other tax deduction, credit or educational benefit

FOUR THINGS TO REMEMBER

1. Students must provide their social security number when applying in order to have a 1098T form mailed to them.
2. Obtain a copy of the IRS Education Credits Tax Form 8863.
3. Recalculate the qualified out-of-pocket tuition expenses.
4. Consult a tax advisor as to whether or not the credit may be claimed.
LEARNING RESOURCES

CAMPUS LIBRARY

LIBRARY COLLECTIONS
The library provides an array of print and electronic resources designed to support Cascadia students as they pursue their educational goals. Books, journals, and multimedia materials are selected by librarians and faculty with Cascadia’s curriculum in mind. Students also have access to the collections of the University of Washington Libraries to further support their studies.

SERVICES
The Library has 80+ PC computers, which provide access to online resources, email and productivity software such as Microsoft Office. Students, faculty, and staff, with their own computers, can access research databases, full-text journal articles and e-books remotely. Wireless access to the campus network is available throughout the Library. Over twenty group study rooms are available, and can be reserved online for group work. The third floor is a quiet study area, and includes the Library’s Reading Room, which overlooks the wetlands. Library’s subject librarians offer research assistance in the Information Commons and are available by appointment for more extended consultations; research assistance is available online 24 hours per day. Librarians also teach classroom workshops and work with faculty to help students develop their abilities to access and evaluate information. The Library can be reached online and at 425.352.5340.

FACILITIES
Cascadia College shares the campus with University of Washington Bothell. Cascadia has a combined CC1-CC2 classroom/office building which opened in Fall 2000 and CC3, the first LEED (Leadership in Energy and Environmental Design) building on campus which opened in Winter 2010. In addition to classrooms and offices, CC3 includes an event center and art gallery. The two institutions share the library buildings, bookstore, and the services of security and the physical plant. Student break-out areas with computer access are located throughout CC1-CC2 and CC-3 and library study rooms can be reserved. The library also has a large reading room on the third floor.

STUDENT BREAKOUT AREAS
Throughout Cascadia’s buildings students have access to breakout areas that include computers, printers, small groups of tables and comfortable chairs for individual and group study. This is an ideal place to meet classmates after class to finish projects, or for students to finish a computer project before heading home.

COMPUTER RESOURCES
Cascadia College has computer classrooms and computer laboratories, including an open computer lab (Open Learning Center). Additionally, classrooms are equipped with an ePodium, which includes a projection system and computer network access.

LEARNING ASSISTANCE

THE WRITING CENTER
The Writing Center provides free one-on-one support to all currently enrolled students. Students in all disciplines can receive assistance with writing projects and assignments ranging from paragraphs to essays, research papers and personal statements. Students can make an appointment with a tutor, drop in for assistance, or receive online tutoring through the NW eTutoring Consortium. Students can also utilize the computers in the Writing Center to work on their writing in a quiet environment. The Writing Center is located in CC2-080 and can be reached at 425.352.8243, or email mwc@cascadia.edu.

THE MATH CENTER
The Math Center provides trained tutors to assist students with math courses from arithmetic through calculus and offers some tutoring in chemistry and physics. Students can receive individual assistance, work in small groups, or use Center computers to work on math coursework. The Math Center works on a drop-in system, so no appointment is necessary. Online tutoring in a wide range of disciplines is also available through the NW eTutoring Consortium. All tutoring services are free to currently enrolled students. The Math Center is located in CC2-080 and can be reached at 425.352.8243, or email mwc@cascadia.edu.

THE OPEN LEARNING CENTER
The Open Learning Center (OLC) is a computer lab where students receive assistance with technology to support class assignments and projects. Staff at the Center can assist students with a wide range of computer applications, including web technology and programming applications. The Open Learning Center is located in CC2-060. OLC hours are posted online or available by calling 425.352.8229.
CAMPUS SERVICES

BOOKSTORE
Bookstore services are provided by the University Bookstore. Students have the opportunity to purchase textbooks and course materials both online and at the bookstore on campus. The bookstore is in LB2, across from the Campus Library. Cascadia students may participate in the bookstore’s rebate program and receive discounts on many computer items. Textbook buy-back days are scheduled at the end of each quarter. The bookstore can be reached at 425.352.3344.

COUNSELING SERVICES
Counseling services are available to any student who is struggling with issues including family conflict, divorce, substance abuse, depression, grief and loss, and anxiety about academic achievement. Counseling is confidential, professional, and free.

Cascadia College offers counseling services to Cascadia students through a partnership with the UWB Counseling Center. Cascadia College students who are enrolled for the current quarter in session may receive up to 6 free counseling sessions of individual counseling. Cascadia College students are also eligible to participate in Counseling Center groups which lasts 4-10 weeks. Check the website for group sessions. To schedule an initial intake appointment at the UWB Counseling Center, call 425.352.3183 or go to UW1-080.

DISABILITY SUPPORT SERVICES
Accommodations and services are available to qualified students with documented disabilities through Disability Support Services (DSS). Cascadia is committed to ensuring that qualified students with documented disabilities are provided equal opportunity to participate in all educational programs, campus services, and activities available at the college. The goal is to fully comply with the Americans with Disabilities Act, Section 504 of the Rehabilitation Act, and Washington State Law (Core Services Act). For more information or to request accommodations, please contact Disability Support Services at disabilities@cascadia.edu or at 425.352.8128, or in the Kodiak Corner.

FOOD SERVICES
A full range of salads, hot and cold sandwiches, wraps, pizzas, soups, beverages, and snacks are available at the Subway restaurant, located next to the library on campus. Take-out and catering are available, as well as indoor seating. 425.352.3604

Coffee, pastries, and snacks are available at the full-service espresso stand on the lower level of the CC2 building. The Food for Thought Café in the bookstore offers a variety of snacks and lunch items. Vending machines are also available on most floors in the CC1, CC2, and CC3 buildings. Additional Food Services are available through food trucks on campus most week days in front of the ARC building.

HOUSING
Cascadia College serves students who live within commuting distance of the campus. The college does not maintain residence halls or other housing, and does not assume responsibility for independent housing facilities used by students.

LOST AND FOUND
Items found in the Cascadia buildings are turned in to Campus Security LB2-005 below the bookstore.

PARKING AND TRANSPORTATION
All students, faculty, and staff must park on campus and not on surrounding neighborhood streets (violators are subject to tickets or towing by the Bothell Police). Over 1,800 parking spaces are available on campus, in the north and south garages, in the surface parking lots, and on Campus Way. Carpool parking and motorcycle spaces are available in the north and south garages, and disabled parking is clearly marked in all locations. Daily parking permits must be purchased upon entry at the nearby pay stations. Economical quarterly passes may be purchased online or in Kodiak Corner with cash or check. Parking is enforced 24/7.

Bicycle racks are available on the north side of CC1 and CC2 buildings as well as the west side of CC3. Bicycle racks can also be found at other locations across the Cascadia/UWB campus. Bike lockers may be rented on a quarterly basis from the UWB Cashier Office located in Husky Hall. Students and staff are encouraged to be green by walking, biking, carpooling, and using public transportation whenever possible. Metro Transit, Sound Transit, and Community Transit service the campus. ORCA and bus schedules are available.

RECYCLING
Environmental stewardship is a Cascadia value. Voluntary recycling is strongly encouraged. Recycling bins are provided in all campus buildings.

SECURITY
Full-time security personnel will provide support to the campus community and help provide a safe environment for learning. To reach campus security in an emergency call 425.352.5222. For non-emergency call 425.352.5359.

STUDENT ID CARDS
Student photo ID cards are required on campus and provide access to the campus library. Student photo ID cards are issued in the Open Learning Center and the Kodiak Corner.

EMERGENCY COLLEGE CLOSURES
425.352.8000
Cascadia College will close offices and cancel classes if severe weather or other emergency conditions make the campus unsafe.

To receive notification about college closures via your email, mobile phone or home phone, please log on to our www.flashalert.net and sign up to receive instant alerts. Emergency closure information is provided to local radio and TV stations. If Cascadia is not mentioned in radio or TV announcements, students and staff can assume that the college is open and classes are being held as usual. There will be online notification of Cascadia’s closure and a message on the main phone line at 425.352.8000.

If the Cascadia campus is closed, all Cascadia Continuing Education classes held at other locations will also be cancelled.

In the event of a building evacuation, please follow announcements as issued.
STUDENT LIFE

Students who want to make the most of their college experience can get involved in the college’s Student Life programs, the college governance system, or other activities and programs. Opportunities to learn at Cascadia extend far beyond the classroom. Research has shown that students who are involved in activities outside the classroom are more likely to succeed academically and complete a degree.

Students are invited to participate in social, educational, cultural, leadership, and recreational activities. Some of the leadership opportunities available include student government, student clubs, and the activities board. Beginning in fall 2015, students will also have the opportunity to utilize new spaces and services in the Activities & Recreation Center (ARC), a joint facility paid for by the students of Cascadia College and University of Washington Bothell.

For more information, students are encouraged to email us at studentprograms@cascadia.edu or visit our website.

STUDENT GOVERNMENT

Cascadia Student Government, or “CSG,” is the group of students who represent the entire student body (Associated Students of Cascadia College or “ASCC”) in matters of college governance, legislation, clubs, and activities.

Student Government meetings are held weekly and are open to all interested students. The CSG is always looking for interested and concerned students willing to give time and energy for the benefit of the students at Cascadia. A selection process is held annually for standing positions on CSG. If you would like to follow what CSG is working on, you can view their information on the Cascadia Student Life webpage under the “Student Government” link.

CASCADIA ACTIVITIES BOARD (CAB)

The Cascadia Activities Board (CAB) is a student-run programming group, responsible for coordinating a variety of campus events and activities. CAB members coordinate social, educational, recreational, and multicultural events for students and the community. CAB meets weekly and all students are welcome to become part of the CAB team and help plan events on campus. Past events include movie nights, comedy night, family programs, live music, dances, study breaks during finals weeks, and more!

COMMUNITY ENGAGEMENT OFFICERS (CEO)

Community Engagement Officers are a group of student leaders who work to mentor and support students, build community at Cascadia, and outreach to the community. The CEOs offer students new ways to get involved with campus life through various outreach and marketing efforts. They assist recognized student clubs with advertising, assist with campus tours and support recruitment efforts by representing Cascadia on student panels and at local community events. For additional information about the Community Engagement Officers, contact the office of Student Life at studentprograms@cascadia.edu.

STUDENT CLUBS AND ORGANIZATIONS

Getting involved in clubs and student activities can be a very rewarding experience. Students are encouraged to join campus organizations to build lasting friendships, provide unique educational opportunities, and establish support systems among peers, faculty, and staff. Students are also encouraged to create new clubs and organizations. If you have any questions about clubs or activities, please contact Student Life at studentprograms@cascadia.edu or visit the list of current clubs.

Current clubs include:

- American Sign Language (ASL) Club

GRADUATION REQUIREMENTS
Students who have been continually enrolled at Cascadia may elect to complete program requirements in effect in the catalog published at the time they first began their degree or certificate. Continuous enrollment is defined as attending at least one quarter during the academic year and having no more than a two quarter break in enrollment (excluding summer.) Students who are not continuously enrolled must complete the program requirements from the catalog in effect when they re-enroll. To receive a degree or certificate from Cascadia College, a student must:
1. Be enrolled in a Cascadia degree or certificate program.
2. Satisfy all specific program requirements as stated in the college catalog.
3. Achieve at least a minimum of 2.0 college level GPA for all Cascadia College course work and all courses accepted in transfer from other colleges which are used to satisfy degree requirements. The grade from these transfer credits will not be averaged with the Cascadia College GPA and therefore transfer credits must also average 2.0.
4. Earn from Cascadia at least 25 of the credits being applied toward the degree or certificate. In addition, Cascadia faculty members may devise and develop shorter, lower-credit programs to areas directly related to their current studies or to College initiatives.
5. For degrees, earn at least 60 credits with decimal grades other than “P” (Pass) grades and no grades lower than a 1.0 (D).
6. Fulfill all financial obligations to the college.
7. Complete an application for graduation available online or at Kodiak Corner. See the quarterly schedule of classes for deadline dates to submit the Application for Graduation. If transferring to a four-year institution, students should seek information directly from that institution’s admissions office and from advisors in a chosen major at that school.

GRADUATION APPLICATION DEADLINES
Students who are eligible for a degree or certificate may submit a graduation application during their last quarter or the quarter preceding their last quarter. Degrees and certificates are awarded on a quarterly basis. Deadlines are:
• Fall quarter graduation — third week of summer quarter.
• Winter quarter graduation — third week of fall quarter.
• Spring quarter graduation — third week of winter quarter.
• Summer quarter graduation — second week of spring quarter.
Students who have completed their degrees or certificates during the previous fall and winter quarters and those anticipating completion during spring and summer quarters are invited to participate in the annual commencement ceremony, held in mid-June.

GRADUATION HONORS
Cascadia College places a high value on scholarship. To encourage and reward high academic achievement, students who distinguish themselves in the classroom throughout their program of study are recognized by being awarded Graduation Honors as described below during Commencement and on their diploma. All graduates earning Graduation Honors will be given an honor cord to wear in the Commencement ceremony. For students graduating in spring or summer, the honors listed in the Commencement Program, as well as honor cord distribution, will be based upon a student’s cumulative grade point average as of the end of winter quarter, since spring and/or summer grades are not available for this determination. Only Cascadia College credits are used to calculate the cumulative grade point average for the purpose of awarding graduation honors.

PRESIDENT’S HONORS
Graduating students who have earned a cumulative college-level grade point average of 3.9 or higher will be awarded President’s Honors.

FACULTY HONORS
Graduating students who have earned a cumulative college-level grade point average between 3.6 to a 3.89 will be awarded Faculty Honors.

TRANSFER SERVICES
Cascadia’s academic advisors are available to assist students wishing to transfer to a four-year institution. Advisors help students plan for Cascadia’s graduation requirements, university admission requirements, and the requirements of various majors.
For more information, see our website or to arrange to meet with a Cascadia advisor, call 425.352.8860.

WASHINGTON 45
A student who completes courses selected from within the general education categories listed below at a public community, technical, four-year college or university in Washington State will be able to transfer and apply a maximum of 45 quarter credits toward general education requirement(s) at any other public and most private higher education institutions in the state.
For transfer purposes, a student must have a minimum grade of C or better (2.0 or above) in each course completed from this list.
Students who transfer Washington 45 courses must still meet a receiving institution’s admission requirements and eventually satisfy all their general education requirements and their degree requirements in major, minor and professional programs.

FIRST YEAR TRANSFER LIST
• Communications (5 credits) – ENGL& 101, ENGL& 102
• Quantitative and Symbolic Reasoning (5 credits) – MATH& 107, MATH& 148 or MATH& 151
• Humanities (10 credits in two different subject areas or disciplines) – PHIL& 101, MUSC& 105, DRMA& 101, ENGL& 111, or HUM& 101
For colleges that use History as a Humanities HIST& 116, HIST& 117, HIST& 118, HIST& 146, HIST& 147, HIST& 148)
• Social Science (10 credits in two different subject areas or disciplines) – PSYC& 100, SOC& 101, POLS& 101, POLS& 202
For colleges that use History as a Social Science: HIST& 116, HIST& 117, HIST& 118, HIST& 146, HIST& 147, HIST& 148
• Natural Sciences (10 credits in two different subject areas or disciplines) - BIOL& 100, BIOL& 160 w/ lab, ASTR& 100, ASTR& 101 with lab, CHEM& 105, CHEM& 110 with lab, CHEM& 121 with lab, CHEM& 161, CHEM& 162, ENVS& 100, ENVS& 101, PHYS& 121, GEOL& 101 with lab
• Additional 5 credits in a different discipline can be taken from any category listed above.

PLEASE NOTE: Although these courses are listed under categories, the actual course may satisfy a different general education category at a receiving institution.
TRANSFER OF CREDITS

START YOUR BACHELOR’S DEGREE AT CASCADIA

Cascadia does offer a Bachelor of Applied Science in Sustainable Practices. Students interested in remaining at Cascadia to complete the applied bachelor track should speak with an advisor to determine which associates degree pathway is best suited for them.

Through the Direct Transfer Agreement (DTA) students may be able to complete 90 credits at Cascadia and satisfy most of the general education requirements for a baccalaureate degree program in Washington State. Students intending to receive an associate's degree from Cascadia and transfer to a four-year public or private university to complete a bachelor's degree should consult with an advisor at the receiving institution to ensure courses and credits completed at Cascadia will be accepted. Cascadia advisors can assist in this process as well.

TRANSFER OF CREDITS TO OTHER SCHOOLS

Cascadia College endorses the policy on intercollegiate transfer among Washington colleges and universities approved by the Higher Education Coordinating Board in February 1986. Copies of this document are available through all public postsecondary institutions in the state of Washington and at the Kodiak Corner Front Counter at Cascadia. Transfer students encountering difficulties are encouraged to contact an academic advisor.

Students who plan to transfer from Cascadia College to a baccalaureate college or university are advised to study the following information:

1. Meet the admission requirements of the baccalaureate institution at the time they transfer. Transferability of courses taken at Cascadia College is determined by the institution to which the student transfers. Most Cascadia courses are designed for transfer. However, certain institutions may limit the number of credits earned in a Pass system (courses receiving grades listed as P/NC), or may have limits on certain classes.

2. Some credits earned in professional/technical programs, such as Business and Information Technology are not transferable to all colleges and universities. Students should work closely with academic advisors before attempting to transfer courses that are specialized components of a two-year professional/technical program.

3. Cascadia students may earn credits beyond the 90 necessary for the degree, however, the transfer institution will determine how those excess credits may be used. Credits completed at the lower-division level rarely supplant credits required at the upper-division level. Usually, 90 additional credits will be required at the upper-division level to earn a baccalaureate degree.

4. An institution to which an official transcript is sent may re-compute the grade point average of the student in accordance with its own requirements and policies.

A student should follow the procedures described below to transfer satisfactorily to a baccalaureate institution.

1. Obtain a current catalog of the institution to which the student wishes to transfer and study its admission requirements and its suggested freshman and sophomore level courses in the major field of interest. Institutions differ in treatment of credits received.

2. Meet with a Cascadia College advisor about transfer needs. Many curriculum-planning guides for transfer to baccalaureate institutions are supplied by the college.

3. Contact an admissions officer at the baccalaureate institution for further information about curriculum and transfer regulations.

4. Check carefully at least two quarters before transferring to be sure that all requirements will be met and all regulations are observed to the satisfaction of the baccalaureate institution.

Last minute changes in a major field of study or choice of baccalaureate institution may cause Cascadia’s credits to transfer in different ways. Changes should be evaluated so that the consequences are understood.

NON-TRANSFERABLE COURSES

The following courses will not transfer to any four-year college:

1. Courses numbered below 100.

2. Certain courses numbered 100 or above, such as continuing education and English as a Second Language. (These are not normally transferable; consult with an advisor for more information.)

3. No more than 15 credits of courses that are listed in the AIS degree as “restricted electives” can be transferred.

TRANSFER OF CREDITS TO UNIVERSITY OF WASHINGTON BOTHELL

Cascadia College is co-located with the University of Washington Bothell. Students are encouraged to visit www.uwb.edu/students/prospective/transfer to learn more about available UWB programs and Cascadia courses that would prepare them to transfer to UWB. Cascadia advisors and UWB advisors are available to assist students with information about UWB admission requirements and help ensure a smooth transition from Cascadia to UWB.
ACADEMIC POLICIES

ACADEMIC STANDARDS

Cascadia College is committed to facilitating the academic success of students. The primary purpose of the Academic Standards and Progress Policy is to quickly identify and alert students with low academic achievement and provide those students with assistance to improve their academic performance. Additionally, the policy is intended to ensure students are making progress toward their educational goals.

LEVEL I – ACADEMIC WARNING

Students carrying five or more credits will be placed on Academic Warning at the end of any quarter in which their quarterly GPA is below 2.0.

Students who fail to make satisfactory progress over time will be placed on the next level of academic intervention. There is no appeal process to this level of intervention.

LEVEL II – ACADEMIC PROBATION

Students carrying five or more credits will be placed on Academic Probation at the end of any quarter in which their quarterly GPA is below 2.0 for a second consecutive quarter.

Students placed on Academic Warning or Academic Probation will be sent a letter that offers effective study tips and strongly encourages students to take advantage of college support resources for educational planning. Students on Academic Probation are required to complete an Academic Probation Contract that outlines steps for improving the student’s academic performance. A student on Academic Probation will be required to meet with an advisor to review the plan prior to registration. Online registration will be blocked while the student remains on Academic Probation. There is no appeal process to this level of intervention.

LEVEL III – ACADEMIC SUSPENSION

Students carrying five or more credits will be placed on Academic Suspension at the end of any quarter in which their quarterly GPA is below 2.0 for a third consecutive quarter.

Students placed on Academic Suspension will not be permitted to register for any courses for credit the subsequent quarter. Suspended students will be blocked from registering. Students who enrolled for classes prior to suspension status will be administratively withdrawn, and tuition paid will be refunded.

While suspended, students may not participate in events or activities reserved for students.

Students placed on Academic Suspension will be sent a letter that outlines the appeal process for reinstatement. To be considered for reinstatement, students must show proof of circumstances over which they did not have control and/or proof of making measurable and substantial progress towards improving their grade point average. Students must contact an academic advisor to initiate this process.

All appeals are reviewed by the Director of Student Advising and Support Services.

REINSTATEMENT AFTER SUSPENSION

A suspended student may petition for reinstatement to the College after a waiting period of at least one quarter (not counting summer quarter).

The student must arrange for an appointment with an advisor at least four (4) weeks prior to the beginning of the quarter that the student wants to attend. Prior to the advising appointment, the student must prepare a written plan that includes:

- The student’s short-term educational goals
- Specific plans to overcome barriers and improve the student’s academic progress
- Proposed course schedule.

The advisor will adjust the plan with the student and outline specific conditions that the student must meet for reinstatement. These specific conditions, a proposed schedule, and the student’s academic plan will be forwarded to the Director of Student Advising and Support Services for review. If approved, the student will continue on probationary status Level II until satisfactory academic progress has been met for two quarters or longer. Notification will be sent to the student outlining conditions of reinstatement.

GRADING SYSTEM

Students can access grades online approximately one week after the end of the quarter. Instructors may report grades from 4.0 to 1.0 in 0.1 increments, as well as the grade of 0.0. Grades in the range of 0.9 to 0.1 are not assigned. Decimal grades are equivalent to letter grades as follows:

Under specific circumstances, non-decimal grades of “H,” “I,” “Z,” “V,” “P,” and “NP” may be awarded.

The table below outlines the basic relationship between grades on a 4.0 scale and the letter grades used at other institutions.

<table>
<thead>
<tr>
<th>Decimal Grade</th>
<th>Letter Grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>4.0-3.9</td>

</tbody>
</table>

REPEATING A COURSE

Students may repeat any course a maximum of two times (enroll in the class up to three times). Students must complete the Repeat Course form in order to indicate only the repeated grade to be used in the Cascadia GPA. The last class and grade counts in the GPA if the student has requested an “R” be placed next to the previous classes. If no request has been made for an “R” all classes are counted in the Cascadia GPA. The transcript will show that a course has been repeated, except in certain designated courses where the student may, by re-registering, obtain additional credits and grade points. Financial aid students should contact Student Financial Services to inquire whether financial aid will cover the cost of repeating a course.

Students should be aware that other schools and universities may treat repeated classes differently.
GRADE POINT AVERAGE (GPA)
Students’ quarterly grade point averages are calculated as follows:
1. The number of credits for a course multiplied by the numerical grade awarded to obtain the grade points for that course.
2. Add the grade points for all courses taken.
3. Divide the sum of the grade points earned by the total number of credits attempted in course awarding numerical grades to obtain the GPA for a particular quarter. I,N,P/NP, and W grades are not used in computing grade point average.

GRADE CHANGES
Grade changes are submitted on the Grade Change form by the instructor to the Kodiak Corner Front Counter.
1. Grade changes will not be made after one quarter (not including summer quarter), unless documentation is provided by the instructor that the grade was awarded in error.
2. Grade changes will be made at any time if due to a recording error in the Enrollment Services office.

ADMINISTRATIVE PROCEDURES
Students are advised to contact the instructor immediately if a grade has been recorded incorrectly. Errors and omissions will be corrected as soon as identified without cost to the student.

GRADE APPEALS PROCESS
Cascadia College believes in the right of all students to receive a fair and equitable review process when a grade complaint arises. The Chief Academic Officer will establish procedures to govern all grade review requests. These procedures will ensure that the grade awarded was not an arbitrary or capricious evaluation of the student’s fulfillment of the course requirements as described in the course syllabus.

INFORMAL PROCESS — RESOLUTION BETWEEN STUDENT AND FACULTY
The student initiates the grade appeal process by speaking to the course instructor. This process should facilitate good faith efforts on the part of both the student and faculty member (see following note) to resolve the matter.

PLEASE NOTE: In the event that the instructor is no longer employed by the college, or is away from the campus for an extended period of time, the Dean for Student Learning will appoint two faculty members to review the student’s work and the grade which is under appeal. The grade can only be changed upon the recommendation of both faculty members. If there is no agreement, the grade shall remain as awarded.

FORMAL PROCESS WITH THE DEAN FOR STUDENT LEARNING
If the informal resolution with the instructor is not reached, the student can initiate a formal grade appeal process by submitting a completed grade appeal form to the Dean for Student Learning a week prior to the end of the quarter. Once the Dean for Student Learning has received the completed form, they have ten (10) business days during which classes are in session in which to discuss the situation with the instructor and the student. The student must make him or herself reasonably available to meet with the Dean for Student Learning. The Dean for Student Learning has another ten (10) business days following their discussion(s) with the instructor and student within which to make a written recommendation to the student which may include:
1. To deny the request for a change of grade.
2. To move forward with grade appeal and convene the Hearing Committee.

If the Dean for Student Learning convenes the Hearing Committee, the decision of the Hearing Committee shall be final.

APPEAL OF THE DEAN FOR STUDENT LEARNING’S DECISION TO DENY THE GRADE CHANGE
If the student wishes to appeal the Dean for Student Learning’s decision to deny the grade change, it should be done within five (5) business days of receipt of the Dean for Student Learning’s decision. The written appeal should be submitted to the Chief Academic Officer and should stipulate the reasons for the appeal. The Chief Academic Officer has ten (10) business days following his or her receipt of the appeal to review the documents and meet with the student. The Chief Academic Officer has another ten (10) business days following his or her meeting with the student to make a written recommendation to the student which may include:
1. To uphold the decision of the Dean for Student Learning and deny the request for a change of grade which will end the appeal process.
2. To move forward with grade appeal and request the Dean for Student Learning convene a Hearing Committee.

If the recommendation is to have the Grade Appeal Hearing Committee convene, the Chief Academic Officer will review the procedures of the Hearing Committee with the student.

COMPOSITION OF THE GRADE APPEAL HEARING COMMITTEE
The Grade Appeal Hearing Committee will be drawn from a pool of twelve (12) volunteer faculty members (approved in advance, by the Chief Academic Officer) who serve on-call for a one year term.

From the pool of twelve (12) names, only six (6) will be chosen randomly by the Dean for Student Learning (with the student and the instructor of record present). The student will then remove two of the six (6) names. The remaining four (4) faculty members will make up the Hearing Committee. Chosen faculty may abstain from any Hearing Committee if they stipulate that serving poses a conflict of interest. In that case another member would be selected randomly from the pool by the Chief Academic Officer.

The Dean for Student Learning or designee will serve as facilitator and an ex-officio member of the Grade Appeal Hearing Committee.
GRADE APPEAL HEARING COMMITTEE PROCESS

The Dean for Student Learning will contact the Grade Appeal Hearing Committee within ten (10) days of the request by the Chief Academic Officer.

The Hearing Committee will set a date for the hearing, review all documentation, and may interview all parties, including other students who may serve as student and/or faculty advocates.

The instructor and the student will have a maximum of 30 minutes each in which to present their case. The Hearing Committee may vote to extend the 30-minute limit to an additional amount of time and provide the same number of minutes to both the student and instructor.

The Hearing Committee will render their decision within ten (10) business days of the hearing. The decision of the Committee is final and the appeals process ends.

If there is a tie vote by the Hearing Committee, the Chief Academic Officer shall review the record of the hearing committee and render a decision. The decision of the Chief Academic Officer shall be final.

Copies of the decision will go to the Chief Academic Officer, the student, and the instructor. A copy also will be placed in the student’s file.

CREDIT AND PLACEMENT INFORMATION

Cascadia awards credit for prior learning when a student demonstrates he or she has achieved the student learning outcomes, knowledge, and skills found in the Course Outcomes Guide for that specific course. If the college accepts the prior learning experience, credit will be given for that course. All credit for prior learning must be recorded on the “Credit for Prior Learning Documentation Form.” A separate form must be completed for each course. A maximum of 15 credits of this work may be applied to degree or certificate requirements. These credits will not fulfill Cascadia’s 25-credit residence requirement that students must complete at Cascadia in order to graduate.

Credit for Prior Learning may be awarded in the following ways:

National Standardized Tests – Cascadia accepts the results of some national standardized tests for placement or credit, such as specific exams among those offered by Advanced Placement (AP) and International Baccalaureate (IB).

Process:
1. Any student who wishes to seek credit by Documented Experience should contact the Dean for Student Learning.
2. The Dean for Student Learning reviews the student’s request for credit and demonstration of learning and refers to the appropriate instructor.
3. The student provides to the instructor those materials (e.g., portfolio, written essay, sample work, etc.) to be used to assess the student’s prior learning experience.
4. The instructor discusses the student’s request to determine whether the prior learning experience meets the learning outcomes of any course offered at Cascadia, and how many credits or what kind of placement the learning likely qualifies the student for.
5. If the learning seems to be a good match, the instructor completes the left half of the “Documented Experience” box on the “Credit for Prior Learning Documentation Form.”
6. The student then takes the form to the Kodiak Corner and pays the Assessment, Placement Fee, and returns the form to the instructor.
7. After the student has paid the fee, the instructor completes a thorough review of the submitted materials. After the review and assessment to determine final credits or placement to be awarded, the instructor signs the form and submits it to the Dean for Student Learning.
8. The Dean for Student Learning sends the original to Enrollment Services for transcripting and maintains a copy in his or her files.

Documented Experience - Documented prior experience that demonstrates college-level learning equivalent to coursework at Cascadia may earn academic credits or placement in professional/technical programs.

Process:
1. Any student who wishes to seek credit by Course Challenge should contact the Dean for Student Learning.
2. The Dean will assign an instructor to the Course Challenge.
3. The instructor assigned to the specific course completes the shaded side of the “Course Challenge” box on the “Credit for Prior Learning Documentation Form.” The instructor will not sign the form until after the assessment.
4. The student goes to the Kodiak Corner and pays the non-refundable Assessment, Placement Fee.
5. The student gives the form to the instructor, receives instructions for the demonstration of learning, and completes all activities, which the instructor assesses.
6. After the exam, the instructor completes the un-shaded side of the “Course Challenge” box by indicating the results of the assessment and signing the form.
7. If the student qualifies for credit, the instructor signs the form and submits it to the Dean.
8. The Dean sends the original to Enrollment Services for transcripting and maintains a copy in his or her files.

NOTE: Cascadia offers a course entitled COLLEGE 120 – Documentation of Prior Learning. In this class, students learn the analytical skills needed to organize and synthesize outside learning and will be able to identify significant experiences, demonstrate this learning, and compose self-reflective narratives documenting learning, knowledge and skills. This course will assist the student to develop a portfolio that demonstrates and documents the knowledge and skills the student has acquired through non-traditional means. It is strongly recommended that students wishing to submit portfolios for assessment take this class before beginning that process.
INSTRUCTIONAL POLICIES

TRANSFER CREDITS
Course work from other colleges will be evaluated upon receipt of the Transcript Evaluation Request form, available online. Only course work from regionally accredited institutions will be accepted to a maximum of 65 credits. See Transcript Evaluation on page 7.

EARNING CREDITS
The regular college year is divided into three quarters of 11 weeks each, plus a condensed summer session. Credits may be earned from several modes of learning: class lectures and lab sessions, independent study and internships, and distance learning, such as telecourses and online courses. One credit is allowed for each hour of lecture period or two hours of laboratory per week during the regular academic session. For each period of lecture or discussion, the student should allow two hours of outside preparation.

A carefully planned program of 15 or more credits per quarter will allow for graduation in three years. A carefully planned program of 10 or more credits per quarter will allow for graduation in three years. Students should develop their program of study with an advisor.

To enroll in more than 24 credits students must have academic advisor approval.

EXAMINATIONS
All students are required to take regularly scheduled examinations as outlined in the course syllabus. Final examinations are held at the end of each quarter and are scheduled by the instructor of the course. If a student misses an examination, it is their responsibility to contact the instructor and, if permitted by the course syllabus, schedule a makeup exam as soon as possible.

ATTENDANCE
Attendance and participation requirements for each course are specified in the course syllabus and are an important part of student learning and student success.

ACADEMIC INTEGRITY POLICY STATEMENT
WAC 132Z-115-0025(1)
Admission to Cascadia College carries with it the presumption that students will conduct themselves with high standards of academic honesty and integrity.

Hallmarks of academic integrity include:
• Submitting work that reflects original thoughts and ideas
• Clearly citing other people’s work when using it to inform your own
• Seeking permission to use other people’s creative work
• Fully contributing to group work and projects

Students who choose not to uphold the hallmarks of integrity are considered to be engaging in academic dishonesty.

Academic dishonesty is defined as any act of course-related dishonesty, including but not limited to cheating, plagiarism and fabrication.
• Cheating includes any attempt to give or obtain unauthorized assistance relating to the completion of an academic assignment, including collaboration without authority..
• Plagiarism includes taking and using as one’s own, without proper attribution, the ideas, writings, or work of another person in completing an academic assignment. Prohibited conduct may also include the unauthorized submission for credit of academic work that has been submitted for credit in another course..
• Fabrication includes falsifying data, information, or citations in completing an academic assignment and also includes providing false or deceptive information to an instructor concerning the completion of an academic assignment..

Any act of cheating and/or plagiarism is strictly prohibited and will be subject to disciplinary action. Where suspected violations of the academic honesty policy occur, appropriate procedures are designed to protect the academic process and integrity while ensuring due process. Students are expected to adhere to guidelines on academic honesty as stated by individual instructors in their course syllabi, provided those guidelines do not contradict policies and procedures established in the Student Code of Conduct. All documented violations of the academic honesty policy will be reported to the Student Conduct Officer, who shall maintain a record of violations. Students who violate the academic honesty policy twice will be placed on Disciplinary Probation. Students who violate the academic honesty policy subsequently (a third time) will be placed on Disciplinary Suspension.

ACADEMIC HOLDS
In order to collect outstanding parking fines, library fines and obligations, or other financial debt to the college, the college may:
1. Withhold quarterly grade reports and/or official transcripts of permanent records
2. Withhold diplomas or certificates as the college deems necessary
3. Refuse to enroll, drop, or withdraw classes as the college deems necessary

For more information on Academic Holds, contact the Kodiak Corner Front Counter at 425.352.8860.

INSTRUCTIONAL GRIEVANCES
Students are encouraged to discuss concerns about their class with the appropriate instructor. If concerns persist, the Dean for Student Learning should be consulted.

If the matter cannot be resolved informally as outlined above, students may file formal grievances by following the processes outlined in the Student Rights and Responsibilities section of the Student Handbook, which is available on the Cascadia website.
# LETTER GRADE DESIGNATIONS

Cascadia Community College will use the following letter grades for credit classes, as appropriate. These letter grades are not subject to the Grade Appeal Process.

<table>
<thead>
<tr>
<th>GRADE</th>
<th>POLICY</th>
<th>OUTCOMES</th>
<th>PROCESS</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>H</strong></td>
<td>Course in Progress - this grade is assigned when instructors teach courses that extend beyond the end of the quarter or for courses which are continuous.</td>
<td>• Grade is not calculated in GPA by Cascadia, and no credit is awarded for the course until the final grade is issued by the instructor.</td>
<td>• At the time when grades are due, an H will be awarded. • Upon the completion of the course, the instructor will award the final grade, which will replace the H grade.</td>
</tr>
<tr>
<td><strong>I</strong></td>
<td>Incomplete - this grade may be given when requested by the student and approved by instructor. A grade of I is appropriate when the student (a) has already completed a majority of work for the course, (b) is unable to finish the remaining coursework, and (c) is able to complete the coursework with no additional instruction. PLEASE NOTE: Student must complete work in the quarter following the quarter in which the I is given (not including the summer quarter); a one quarter extension may be granted in certain unusual circumstances, at the instructor’s discretion.</td>
<td>• Student receives grade based on previously completed coursework and contracted work if that work is submitted by contract date. • Student receives the grade designated on the contract if contracted work is not completed by contract date. • This grade may adversely affect student’s ability to register in subsequent quarters.</td>
<td>• Student makes a written request for an I to the instructor of record for the respective course. The request must be made prior to the end of the term in which the student is enrolled in the course. • Student and instructor draft and sign an Incomplete Contract, which delineates work to be completed and indicates what grade will be given if the contracted work is not completed in the allotted time. • The instructor submits grade change form after contracted work is submitted and graded. • Extenuating circumstances that change the contract deadline will require a revised Incomplete Contract to be signed.</td>
</tr>
<tr>
<td><strong>N</strong></td>
<td>Audit - The student participates in coursework at the instructor’s discretion, but no credit is earned.</td>
<td>• Grade is not calculated in GPA by Cascadia and no credit is awarded for the course.</td>
<td>• Up to the end of the second week of the quarter, students may initiate, without instructor’s permission, a change to or from audit status. • From weeks three through six of the quarter, instructor permission is required. • After the sixth week, no change in status may be made. PLEASE NOTE: This timeline is adjusted for summer quarter. Please see the Summer Quarterly Registration and Information document for dates.</td>
</tr>
<tr>
<td><strong>V</strong></td>
<td>Unofficial Withdrawal (Vanished) - this grade is given to a student who attends briefly or rarely and does not withdraw with a W grade.</td>
<td>• This grade will be computed as 0.0 in GPA calculations, and no credit is awarded for the course. • This grade may adversely affect student’s ability to register in subsequent quarters.</td>
<td>• Instructor indicates V grade and reports the student’s last date of attendance.</td>
</tr>
</tbody>

<th>GRADE</th>
<th>POLICY</th>
<th>OUTCOMES</th>
<th>PROCESS</th>
</tr>
</thead>
</table>
| W     | **Official Withdrawal** - this grade is assigned when the student withdraws from a class with instructor permission in weeks three through six of the quarter. After the sixth week, no official withdrawal may be made.  
**PLEASE NOTE:** This timeline is adjusted for summer quarter. Please see the Summer Quarterly Registration and Information document for dates.  
The W designation is not calculated in the GPA and no credit is awarded for the course. This may adversely affect the student’s ability to register in subsequent quarters and may affect the student’s financial aid award. See Academic Standards and Progress for more information. | • Grade is not calculated in GPA by Cascadia, and no credit is awarded for the course.  
• This grade may adversely affect student’s ability to register in subsequent quarters. | • Student brings withdrawal form to Enrollment Services.  
• Students may not withdraw from a course to avoid penalty for violation of academic honesty. |
| P  
Non-graded | **Passed the Course** - non-graded classes use a “P” grade to designate a grade of 2.0 or higher OR for level completion. This grade is assigned when the student has met the learning outcomes for the class. Only designated courses are graded using a P.  
Once a grade of P has been awarded, it cannot be changed to a numeric grade. | • Grade is not calculated in GPA by Cascadia. | • Upon the completion of the course at a grade of 2.0 or higher OR for level completion, the instructor will award the final grade of P.  
• Up to the end of the second week of the quarter, student may initiate, without instructor’s permission, a change to or from P/NP status.  
• From weeks three through six of the quarter, instructor permission is required.  
• After the sixth week, no change in status may be made.  
**PLEASE NOTE:** Students are strongly encouraged to meet with an Advisor prior to enrolling in a P/NP course. This timeline is adjusted for summer quarter. Please see the Summer Quarterly Registration and General Information document for dates. |
| NP  
Non-graded | **No Credit for the Course** - this grade is assigned when the student has not met the class outcomes and requirements to receive a grade of 2.0 or higher OR for level completion. Only designated courses are graded using a NP. | • Grade is not calculated in GPA by Cascadia. | • Upon the completion of the course and if the student did not pass with a grade of 2.0 or higher OR did not meet the learning outcomes for the class, the instructor will give a final grade of NP.  
• Up to the end of the second week of the quarter, student may initiate, without instructor’s permission, a change to or from P/NP status.  
• From weeks three through six of the quarter, instructor permission is required.  
• After the sixth week, no change in status may be made.  
**PLEASE NOTE:** Students are strongly encouraged to meet with an Advisor prior to enrolling in a P/NP course. This timeline is adjusted for summer quarter. Please see the Summer Quarterly Registration and General Information document for dates. |

INSTRUCTIONAL POLICIES

INTERNATIONAL BACCALAUREATE (IB) CREDIT

STUDENT PROCESS
1. Student submits IB Transcript to Enrollment Services (Kodiak Corner Front Counter):
   a. Student names Cascadia as a recipient when they register for IB program exam(s) OR
   b. Student may contact the IB Organization to request that an official IB transcript be sent directly to Cascadia College.
2. Academic advisors use the IB Transcript for placement
3. Student requests official evaluation of IB Transcript

POLICY FOR AWARDSING IB CREDIT
In most cases, five quarter credits (or more) are granted for Higher Level subjects in which a grade of 5 or higher is earned, with a maximum of 45 quarter credits. No credit is awarded for Standard Level subject grades.
A maximum of 45 credits of alternative credits (IB and AP) may be used toward any degree.

STUDENT RIGHTS AND RESPONSIBILITIES

STUDENT CODE OF CONDUCT

Admission to Cascadia College carries with it the expectation that students will conduct themselves as responsible members of the college community. Cascadia has adopted policies governing student conduct, including disciplinary procedures and procedures for resolving conflicts related to student discipline. The student conduct system is designed to protect the rights of each individual to support the community values and to assist students in conducting themselves as responsible members of the college community. (WAC 132Z-115-010)

A complete copy of the Student Code of Conduct is available in the Student Handbook on the Cascadia website.

STUDENT RIGHTS AND RESPONSIBILITIES

Cascadia College, a state supported institution of higher education, is a learning-centered college, maintained for the purpose of providing to all learners knowledge and skills for the achievement of their academic, professional, technical, and personal goals. As a public institution of higher education, the college also exists to provide students with the capacity for critical judgment and an independent search for truth toward both optimal individual development and the well-being of the entire learning community.

Inherent in the college’s mission, vision, and goals are certain rights and freedoms which provide to students the support and respect needed for learning and personal development. Admission to Cascadia College provides these rights to students but also assumes that students accept the responsibility to conduct themselves in a manner that does not interfere with the purposes of the college in providing education for all of its learners. (WAC 132Z-112-010)

A complete copy of these policies is available in the Student Handbook on the Cascadia website.

STUDENT RIGHT TO KNOW

In accordance with federal regulations, Cascadia College will be required to disclose completion or graduation rates and transfer-out rates for the general student body immediately following the end or 150% of normal time to complete a program. The study group, as specified by federal law, will be relatively small when compared with the general student population. It will include only students who were: enrolled in credit classes full-time, entering any college for the first time, and seeking a degree or certificate or planned to transfer to a four-year college or university. This information will be found on the Cascadia College website.

DRUG-FREE SCHOOLS AND CAMPUSES ACT

In compliance with the Drug-Free Schools and Campuses Act (EDGAR 34 CFR, Part 86), Cascadia annually distributes the following information to students and staff:

- Standards of conduct that clearly prohibit the unlawful possession, use or distribution of illicit drugs and alcohol on school property or as part of school activities.
- Cascadia's Student Code of Conduct (WAC 132Z-115-025, paragraph 2b) prohibits students from: “using, possessing, delivering, selling, or being under the influence of marijuana or the psychoactive compounds found in marijuana and intended for human consumption, regardless of form. While state law permits the recreational use of marijuana, federal law prohibits any possession or use of marijuana on college premises or in connection with college activities.”
- Cascadia's Student Code of Conduct (WAC 132Z-115-025, paragraph 2c) prohibits students from: “using, possessing, delivering, selling, or being under the influence of any legend drug, including anabolic steroids, androgens, or human growth hormones as defined in chapter 69.50 RCW, or any other controlled substance under chapter 69.50 RCW, except as prescribed for a student’s use by a licensed practitioner. The abuse, misuse, or unlawful sale or distribution of prescription or over-the-counter medications may also constitute a drug violation
- Administrative procedure 6:3.110.08 prohibits employees from manufacturing, distributing, dispensing, possessing, or using a controlled substance.
- A description of the applicable legal sanctions and disciplinary actions.
- Cascadia's Student Code of Conduct (WAC 132Z-115-006)(2) states that “the student conduct code shall apply to student conduct that occurs on college premises and to conduct that occurs at or in connection with college sponsored events, programs, or activities. This code may also apply to other student conduct occurring off campus or in non-college electronic environments when the college deems such conduct to threaten safety or security or otherwise adversely impact the college community. Students shall be responsible for their conduct from the time of acceptance for admission or registration through the actual awarding of a degree or other certificate of completion. The college shall have authority to revoke a degree or other certificate of completion based on prohibited student conduct that is found to have occurred before the award of such degree or certificate. Student organizations affiliated with the college may also be sanctioned under this code for the conduct of their student members.”
- Aside from any criminal proceedings, the college may impose sanctions ranging from a verbal warning to dismissal, as outlined in WAC 132Z-115-035, paragraph 4.
- Administrative procedure 6:3.110.08 outlines the sanctions for employees found to have violated provisions of the Drug-Free Schools and Campuses Act. The policy reads, “Violation of this policy will be reason for disciplinary action up to and including dismissal, or for mandatory evaluation treatment for substance abuse.”
- A description of any drug or alcohol counseling, treatment, or rehabilitation/re-entry programs.
- Student Success Services maintains a referral list of agencies and individuals providing support services to students or employees struggling with drug and/or alcohol use/abuse. Such referrals can be accessed by contacting Student Advising and Support Services at 425.352.8860.
- Administrative procedure 6:3.110.08 states that “Cascadia College recognizes drug use and/or dependency to be a health, safety and security problem,” and offers employees assistance through the State Employee Advisory Services and/or employee medical insurance plans.
SOCIAL SECURITY NUMBER
To comply with federal laws, we are required to ask for your Social Security Number (SSN) or Individual Taxpayer Identification Number (ITIN). We will use your SSN/ITIN to report payments made by you that may qualify for a tax credit or a tax deduction on your income tax return. We may also use this information to administer state/federal financial aid, to verify enrollment, degree and academic transcript records, and to conduct institutional research. If you do not submit your SSN/ITIN, you will not be denied access to the college; however, you may be subject to an IRS penalty of $100. Pursuant to state and federal law, the college will protect your SSN from unauthorized use and/or disclosure. Cascadia assigns each student an alternative identification number upon application to the school and/or class registration.

FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT (FERPA)/CONFIDENTIALITY OF RECORDS
Below is a brief summary of your rights under the Family Educational Rights and Privacy Act (FERPA), the federal law that governs release of and access to student education records. These rights include:

1. The right to inspect and review your education record within a reasonable time after the College receives a request for access. If you want to review your record, contact the College office that maintains the record to make appropriate arrangements.

2. The right to request an amendment of your education record if you believe it is inaccurate or misleading. If you feel there is an error in your record, you should submit a statement to the College official responsible for the record, clearly identifying what part of the record you want changed and why you believe it is inaccurate or misleading. That office will notify you of their decision and advise you regarding appropriate steps if you do not agree with the decision.

3. The right to consent to disclosure of personally identifiable information contained in your education records, except to the extent that FERPA authorizes disclosure without consent. One exception which permits disclosure without consent is disclosure to school officials with "legitimate educational interests." A school official has a legitimate educational interest if the official has a "need to know" information from your education record in order to fulfill his or her official responsibilities. Examples of people who may have access, depending on their official duties, and only within the context of those duties, include: college faculty and staff, agents of the institution, students employed by the institution or who serve on official institutional committees, and representatives of agencies under contract with the College.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the College to comply with the requirements of FERPA.

Release of student record information is generally not done at Cascadia College without the expressed, written consent of the student. There are, however, some exceptions. For example, directory information includes the following, and may be released without the student’s consent: student name, address, telephone number, date and place of birth, major field of study, eligibility for and participation in officially recognized activities, organizations, and sports, weight and height of members of athletic teams, dates of attendance, honor roll, degrees and awards received, most recent previous educational agency or institution attended by the student. In response to outside inquiries for information on students, Cascadia’s policy is to only confirm: dates of attendance, major field of study, and degree and awards received.

Please note that you have the right to withhold the release of directory information. To do so, you must complete a “Release of Information/Do Not Release Information” form, which is available in the Kodiak Corner. Please note two important details regarding placing a “No Release” on your record:

1. The College receives many inquiries for directory information from a variety of sources outside the institution, including friends, parents, relatives, prospective employers, the news media and honor societies. Having a “No Release” on your record will preclude release of such information, even to those people.

2. A “No Release” applies to all elements of directory information on your record. Cascadia College does not apply a “No Release” differentially to the various directory information data elements.

If a student owes a debt to the college we will not release their transcripts and will not verify their degree or certificate. Exceptions include a subpoena, emergency situations, compliance with the Solomon Amendment and Department of Education requests through the Patriot Act, and the National Student Clearinghouse. Student ID numbers are provided to the campus library for UW NetID and to the campus bookstore for their annual rebate program.

A copy of the Act, more details about your rights, and any College policies related to the Act are available here, under Student Records.

Questions concerning FERPA should be referred to Enrollment Services.

SOLOMON AMENDMENT
Under Public Law 104-208 Cascadia College is directed by the federal government to provide the names, addresses, telephone numbers, date of birth, level of education, major and/or degrees received, and prior military experience for all our students. Students who do not wish this information to be released should submit a written request to the Kodiak Corner Front Counter.

RELEASE OF STUDENT INFORMATION
To protect student privacy, photo identification is required to view, receive copies of educational records, change student information, or enroll, drop, or withdraw from classes.

NAME CHANGES
To change the name shown on Cascadia records, students must complete a Name Change Form and submit photo identification with the new legal name and acceptable proof of name change to the Kodiak Corner Front Counter. Acceptable proof would be a marriage certificate or court order.

ADDRESS CHANGES
Students are responsible for informing the college of their current address including email address. If your address changes, you need to update the address through Student Online Services.
HOLDS ON RECORDS
Students who have been placed on academic suspension or who have outstanding debts owed to the college (such as traffic and parking fines, library fines, or instructional materials due) will not be allowed to register or make class schedule changes until these have been cleared. Likewise, transcripts, certificates, or diplomas will not be released until debts are cleared. The release of a Hold on Record may take up to two business days to process.

OFFICIAL TRANSCRIPT AND TRANSCRIPT REQUESTS
An official transcript is a copy of a student’s academic record; it shows courses taken, credits earned, grades received, transfer credits accepted, and degrees or certificates earned at Cascadia. An official transcript carries the college’s seal.
An “official” transcript for students who have attended other colleges must:
1. Be mailed or sent electronically via a secure service by the former college directly to Cascadia’s Kodiak Corner Front Counter
   Or
2. Be delivered by the student, (unopened in an envelope which has been officially sealed by the former institution) to the Kodiak Corner Front Counter.

CONTENTS DISCLAIMER
Cascadia College has made reasonable efforts to provide in this catalog information that is accurate. However, the college reserves the right to make changes in procedures, policies, calendars, requirements, programs, courses, and fees. When feasible, changes will be announced prior to their effective date, but the college assumes no responsibility for giving any particular notice of any such changes. Nothing contained herein shall be construed to create any offer to contract or any contractual rights.

LIMITATION OF LIABILITY
The college’s total liability for claims arising from a contractual relationship with the student in any way related to classes or programs shall be limited to the tuition and expenses paid by the student to the college for those classes or programs. In no event shall the college be liable for any special, indirect, incidental, or consequential damages, including but not limited to, loss of earnings or profits.

GLOSSARY

Academic Advisors
Academic advisors assist students with short-term and long-term educational planning in the areas of degree/certificate completion, the transfer process, university admissions and Student Success Services referrals.

Academic Year
The period of formal academic instruction, divided into summer, fall, winter, and spring quarters.

Audit
Registration in a class for which enrollment is official; however, no grade or credit will be granted.

Certificate Programs
A professional technical certificate gives you the knowledge and skills you need for a specific job. All certificate programs are designed to take less than 2 years to complete. They are coordinated with Cascadia's professional technical degrees and associate degrees to make it simple to continue your education if or when you choose. Cascadia also offers non-credit certificates through Continuing Education.

Direct Transfer Agreement (DTA)
The Direct Transfer Agreement (DTA) Associate degree is awarded to students who have completed a transfer curriculum that should fulfill most lower-division general education requirements for a baccalaureate degree at 4-year institutions within Washington State.

eLearning
A method of instruction which allows students to complete all or part of their coursework through the use of technology like the internet, the CANVAS course management system, videos, blogs, and wikis.

Faculty Advisor
A faculty member who assists students with course eligibility requirements, course selection for major area of interest and offers quarter-to-quarter guidance for program completion.

Grade Point Average (GPA)
A student's GPA is the average of decimal grades given for each course attempted. Students will find two GPAs on their records. The cumulative (CUM) GPA includes all coursework attempted. The college level (CIVL) GPA includes only those classes that are college level.

Hybrid Course (section code H)
An eLearning course that displaces some, but not all class time with web-based tools. For example, students may attend class on campus one day a week and complete the work for the week online through group projects, discussions, and other activities.

Incomplete
This grade may be given at your request with the instructor's approval. A grade of I may be appropriate when you have already completed a majority of work for the course, have passing grades, are unable to finish the remaining coursework by the end of the quarter, but will be able to complete the coursework with no additional instruction. Additional information on the Grading System is available online.

Integrated Learning
Integrated Learning courses utilize a variety of structures. These include Learning Communities (see below), as well as paired sections of courses that have assignments centered around a common theme. In some cases, you must register for both courses. In other cases, enrolling in both courses is recommended in order to enhance your learning experience, but is not required. All integrated learning courses and course combinations are designed to assist students in developing the ability to use what they learn and then take that knowledge and apply it in real-world contexts. Please refer to the quarterly schedule for specific information on integrated learning offerings.

Item Number
The four-digit number that identifies each class and section in the quarterly class schedule.

Learning Community (section code LC)
Learning Communities (see also Integrated Learning) offer an alternative to the traditional individual course approach. These programs are based on specific themes, and synthesize knowledge and ideas across different disciplines. Learning Communities are a cohort of students enrolled in two courses in which they experience an explicitly designed common theme that links the two content areas.

Major
The subject or department in which a student takes concentrated coursework, leading to a specialty.

Major Related Degree Pathways (MRP)
Major related pathways ensure that students will have completed the lower-division requirements for entry into their chosen major. They will also have completed the writing, mathematics, and other general education requirements normally completed in the first two years by students entering that major at a university.

Matriculation – Degree Seeking Students
The formal admission application and acceptance of a student who wishes to take courses for a college degree or certificate.

Non-Matriculated Students – Non-Degree Seeking Students
Students not seeking a degree or certificate are considered non-matriculated students and may register for up to 10 credits per quarter.

Online Course (section code OL)
An eLearning course that has no on-campus meetings; the course meets entirely online (though there may be a required orientation and/or proctored exams). The courses are not self-paced, rather students engage regularly and actively through group projects, discussions, and other activities.

Open Learning Center
The Open Learning Center is a computer lab where students can receive assistance with technology needs and completing class assignments.

Over-enrollment
Permission given by an instructor to register for a class that has reached its capacity of registered students.

Overload
Permission required by an academic advisor to take more than 24 credits per quarter.

Placement
Placement that is required to determine students' skill level in math, reading and writing. Scores are used for placement purposes only.

Prerequisite
Any placement level or coursework that must be completed prior to enrolling in a class.

Transcript
The official record of courses attempted including course titles, levels, earned credit and grades. Transcripts will document quarter-by-quarter GPA, cumulative GPA, and college-level GPA.

Withdrawal
The official removal of a student from a class roster. It is the student's responsibility to avoid receiving a 0.0 grade for a class they have stopped attending by officially withdrawing from that class.
